Essex Police and Crime Panel	EPCP/11/13
Date: 01 August 2013	

Progress on allocating Community Safety Grants 2013/14

Report by the Treasurer of the PCC to the Panel

Enquiries to either Charles Garbett 01245 291613 charles.garbett@essex.pnn.gov.uk or Lindsay Whitehouse, DPCC 01245 291612 lindsay.whitehouse@essex.pnn.gov.uk

Purpose of report

To provide the Panel with an update on the progress of the PCC in allocating community safety grant monies. The Panel is requested to discuss the report providing the PCC with any views that may be appropriate.

Background information on the allocation of grants

Section 9 of the Police Reform and Social Responsibility Act 2011provides the PCC with the power to provide a crime and disorder reduction grant to any person. Moreover, the act specifies that a crime and disorder reduction grant is a grant, which in the opinion of the PCC, will secure or contribute to securing, crime and disorder reduction in Essex. The grant may be made subject to any conditions that the PCC thinks appropriate.

The Elected Local Policing Bodies (Specified Information) Order 2011 requires information as to each crime and disorder reduction grant made by the PCC, including any conditions attached to the grant, the recipient of the grant, its purpose and the reasons why the PCC considers that the grant would secure, or contribute to securing, crime and disorder reduction in Essex to be published.

2013/14 PCC budget and allocation of Community Safety Grants

In total £2.528m was allocated in the 2013/14 revenue budget for community safety funding. This budget has been increased to £2.845m as further amounts of community safety grants made by the Force have transferred to the PCC. The progress to date made in the PCC deciding to allocate funds is shown in Appendix 1 alongside the budgeted amounts contained in the Police and Crime Plan.

To allocate all funds available the PCC needs to make a decision on the following items:

- 1. Wave 2 bids with £139k available
- 2. Amounts previously allocated to Safer Essex amounting to £180k

3. Net balance of funds available amounting to £33k largely spent on one-off items of support in the previous year.

A comparison of the grant monies allocated against the budget included in the Police and Crime Plan is shown in Appendix 3

The first wave of bids for the New Initiatives Fund attracted 131 bids totalling over £2.3m. In short, the total value of bids was almost five times the budget allocation of £500k. This was the first time that bids were invited for an allocation from this fund to support innovative community projects. Given the large interest shown the process of sifting the bids took longer than expected. However, the process was supported by the CSP Managers and professional advice from the Reference Group. The Reference Group consists of:

Domestic Abuse - Janice Logie /Alan Ray – ECC
Youth Offending - Tania Gillet, Head of Essex YOS
Re-Offending - Alex Bamber, Essex Probation
Alcohol & Drug Abuse - Ben Hughes, Essex DAAT

Victims - Victims Alliance

Roads - Casualty Reduction Board

Despite the large number of bids a robust approach was adopted in order to ensure that monies allocated met the criteria. As such, only £116k has been allocated to date although there is further work being undertaken on a range of bids submitted around domestic abuse. A provisional sum of £120k has been set aside for this purpose.

Given that only a small proportion of wave 1 bids have to date been successful it is useful to highlight the reasons for not taking forward applications for funding at this stage:

- Some bids simply did not address the priorities within the Police & Crime Plan
- Concerns that some bids reflected the bidding organisations core business
- That the bid duplicated existing arrangements
- That the bid was not sufficiently targeted or the need was not evidenced
- The bid was not innovative
- The activity not felt to be sustainable; and
- That while the bid maybe a good idea, the PCC NIF is not the most appropriate route e.g. bid for capital projects may be better suited to funding from the Proceeds Of Crime Act

It is hoped that feedback that is being provided to unsuccessful applicants does not discourage them from future attempts if they have a worthwhile initiative. Considerable knowledge and expertise on the grants process has been gained over a short period of time. To assist the entire process of application and selection of initiatives in the future points of good practice and areas to improve are being noted. A strategic Autumn conference is being planned which, in part, will also provide an opportunity to both explain

the intentions of the PCCs community grant awards and also to receive feedback from applicants in order to improve future grant allocation processes.

There are plans to support a number of initiatives in addition to the ones highlighted above. These initiatives are currently being examined and include:

- i) Crime Stoppers. Last year the Force supported the running costs of the 24/7 Bureau and made a contribution to the Eastern Region Manager's costs totalling a contribution of almost £37k. This resource will transfer from the Force. In addition. the PCC may provide a further contribution of £60k from the New Initiatives Fund.
- ii) Special Constabulary policing. £40k for rural crime & building stronger communities
- iii) A community messaging system in order to enhance the communication between Police and neighbourhood community groups. The plan is to share the £40k cost on a 50/50 basis between the New Initiative Fund and Proceeds of Crime Act monies.
- iv) 'Only Cowards Carry' knife crime initiative £5k.

Wave 2 bids for the New Initiatives Fund have begun with a closing date of 1st August. Based on activities to date the amount available for wave 2 is highlighted below:

New Initiative Fund Budget Less:	£500k	
Funds allocatedProvisional set asides:	-£116k	
 Domestic Abuse bids Crime Stoppers Specials Community messaging system Only Cowards Carry 	-£120k -£60k -£40k -£20k -£5k	
Amount available for Wave 2		

Integrity of Process

The processes followed for the complete cycle of grant awards comply with all legislative requirements. All grant awards are publicised and funding agreements are in place with recipients. Mechanisms for the monitoring of the use of grant monies are being implemented
