

Question Raised by	Question	Response from Cabinet Member
Cllr Mike Mackrory	6.1.5 can the cabinet member confirm that Chelmsford CC have offered £1.5m towards the delivery of a Baddow to city centre cycle route and will that be referred to in the MoU?	<b>I can confirm that CCC have offered a contribution of £1.5m Community Infrastructure Levy funding towards cycling and walking schemes and the intention is that this will be included in the MOU between Chelmsford City Council and ECC. Any such projects will be explored separately to the Army &amp; Navy package.</b>
Cllr Mike Mackrory	6.1.10 is there a business plan to increase use age of the P&R service and is the blank in the shortfall in P&R services because it is commercial?	<b>Park and Ride services have a key role in enabling people to make sustainable journeys into Chelmsford and Colchester. We continue to review the change in travel patterns that has resulted from the covid pandemic and will bring forward new measures shortly to ensure passengers and taxpayers are getting the best value from these services. The unadjusted income shortfall for Park and Ride services for 2022/23 is £1.3m. The figure had been included in an earlier draft but was omitted in error in the final papers.</b>
