

DISTRICT NAME	EVIDENCE AND RATIONAL THAT THE PROPOSALS MEET THE STATUTORY CRITERIA
Basildon	<p>Proposal to maintain nine members, replacing the current five divisions, four of which return two members with nine single member divisions, maintaining community ties and areas. The proposals seek to maintain the integrity of the urban area of Basildon, and to largely respect the A127, and where this has not been possible the locations are near junctions and in the case of polling district DJ it is not well connected with other places. Most of the housing closest to the town centre which was formerly in a different division is now in the same division as the town centre.</p> <p>Within Basildon we have kept as much as possible of Laindon together, respected community ties in Westley, Vange and Pitsea as well as in the town centre.</p> <p>The semi-rural area of Bowers Gifford, lying to the east of Basildon feels more affinity with Wickford and many residents in this area have a Wickford postal address.</p>
Braintree	<p>We have tried to group divisions within Braintree district into communities who face similar issues and have tried to make the divisions manageable, due to the number of parish councils within the district.</p> <p>The proposed Braintree Eastern aligns the three district council wards of Coggeshall, Feering, Kelvedon and the Three Colnes wards. These are coterminous with the parliamentary boundary.</p> <p>The proposals bring together towns and areas with communities ties that look to Braintree, Witham or Halstead for key services and tries to align communities along the A131 trunk road or the Braintree branch line. The divisions have been designed to be urban, semi urban and largely rural.</p> <p>Towns such as Witham have grown significantly over recent years, so the proposal seeks to maintain community ties whilst accommodating housing growth.</p>
Brentwood	No changes are proposed as the boundaries continue to work well for communities and the numbers are fairly well balanced.
Castle Point	<p>Proposed to maintain five members. Although the two Canvey Island divisions are larger than the ‘mainland’ divisions, we propose that it is important to maintain the island as a boundary. There are no changes proposed for the Canvey Island divisions, but we are proposing to amend the mainland.</p> <p>It’s proposed that the AY polling district split is between Hadleigh and Thundersley at Wensley Road to increase the population of the Thundersley division.</p>
Chelmsford	<p>Proposing minimal change to half the divisions, but made some adjustments in the more rural divisions to balance numbers including moving Woodham Ferrers and Bicknacre from Stock to South Woodham Ferrers and adding some other rural villages to Stock as these two divisions were significantly undersized compared to other Chelmsford divisions.</p> <p>We are proposing a small change to a polling district at the A138 to make the divisions look more sensible.</p>
Colchester	<p>Proposing to maintain the same number of members.</p> <p>However, significant housing growth in the Colchester area has meant some changes are necessary. A realigned Abbey division following the river of Rowhedge includes the whole of the Old Heath and Hythe ward with existing polling districts in New Town and AF in Castle and there are clear links between Rowhedge and that part of Colchester. Drury division would remain the same with the addition of Polling District AT – Braiswick. There are clear links between Lexden and Braiswick, both of which are in the same city council ward and there is a road link between the two places. We would propose a variation in polling districts to demonstrate this.</p> <p>The proposed Constable division including the villages adjacent to the A12 with a slight encroachment into the urban area at AP Highwoods, facilitated by a redrawing of the polling district border of AO moving Severalls Business Park into AP would be workable in terms of numbers.</p> <p>In addition, the current confusing boundaries of Mersea and Tiptree and Stanway and Pyefleet are changed to create a Mersea and Stanway and Tiptree and Marks Tey better demonstrating community ties in this area.</p> <p>It is not proposed to change the Wivenhoe St Andrew Division as this is constrained by the river Colne, with crossing only possible by boat, and the boundary with Tendring DC.</p>
Epping Forest	Rebalancing of divisions to even numbers including adding more rural areas to Ongar Rural. Although it may look unnatural to have Epping and High Beeches together, local intelligence suggests that residents of High Beeches generally look more to Epping for services than they do to Waltham Abbey, which as a parish now too large to have its own division.
Harlow	<p>Proposal to increase the number of members to five as a result of significant forecast growth. It is also proposed to remove the current two member division.</p> <p>The five proposed five divisions are balanced as evenly as the communities allow. Harlow is mainly an urban area, the proposal brings together Old Harlow, Netteswell and Marks Hall in the north of the town, bringing together Church Langley, Harlow Common and Bush Fair East, these use the Church Langley shopping centre and Passmores School. Toddbrook and Little Parndon are natural neighbours and the last proposed division brings the areas that use Staple Tye shopping centre, library and Stewards School.</p>
Maldon	<p>Rebalancing the divisions to accommodate a fourth division. We have sought to maintain natural community links and infrastructure whilst accommodating new housing into rural parts of the district. The proposed divisions maintain Burnham and Southminster, Maldon Town and the north and south areas of Maldon district, bringing together neighbouring villages. We are continuing to work with the members on the suggested names for the divisions. It is not possible to have a single division for Maldon and Heybridge.</p> <p>Langford and Ulting would be in the proposed south west division and although they are predominantly on the north side of the Chelmer and Blackwater Navigation, they are connected by road to Woodham Walter on the south side of the navigation.</p>
Rochford	<p>Proposed to maintain five members. The divisions are small compared to the County average.</p> <p>The proposal maintains divisions which are either largely urban or largely rural.</p> <p>We propose to reduce the disparity between the two Rayleigh divisions by splitting polling district PA along the High Street, Rayleigh.</p>
Tendring	rather than spreading it across four as is currently the case.
Uttlesford	The number of seats in the district has been increased from four to five as a result of significant growth. There are no settlements which are large enough to take up a whole division. Much of the significant growth has been in Takeley, so we are proposing a division centred on this, as well as continuing to have divisions focussed on Great Dunmow, Saffron Walden, Stansted and Thaxted.
