**PROGRESSING ACTIONS FROM THE TRAINING DAY HELD ON 19 JANUARY 2018 TO DISCUSS THE HOSC APPROACH TO THE DEVELOPMENT OF SUSTAINABILITY AND TRANSFORMATION PARTNERSHIP (STP) PLANS**

**Background**

A training day was held on 19 January 2018 to discuss the HOSC's approach to Essex now being over-laid by three STP footprints. This includes the development of longer-term Joint HOSCs (with other HOSCs) to scrutinise these STP footprints.

A report on the day was included in the agenda pack for the HOSC meeting held in February which can be accessed using the following link - [February 2018 HOSC agenda pack](#)

A number of actions were identified and agreed at the training day around work planning for STPs, relationships, and planning and resources. The HOSC Chairman and Vice Chairmen have since discussed how to progress these. A document recording progress to date against each of the actions is attached as **Appendix A**. This was first presented to the Committee last month and it was agreed that there should be a standard item on this for the near future. Members are invited to discuss the actions further, identifying where further consideration is still needed.

**Action required:**

**To consider the document in Appendix A, recording progress to date against agreed actions from the training day in January 2018, and members are invited to discuss these further, identifying where further action is needed.**
