### Executive summary

**Title of policy or decision:** Replacement of temporary accommodation at Copford CE Primary School

**Describe the main aims, objectives and purpose of the policy (or decision):** The replacement of end of life temporary accommodation at Copford Primary School with fit-for-purpose, permanent accommodation.

**What outcome(s) are you hoping to achieve?:** Enable inclusive economic growth

**Which strategic priorities does this support? - Enable inclusive economic growth:** Help people in Essex prosper by increasing their skills

**Is this a new policy (or decision) or a change to an existing policy, practice or project?:** a new policy (or decision)

### Assessing the equality impact

**Use this section to record how you have assessed any potential impact on the communities likely to be affected by the policy (or decision):** Being a replacement of temporary accommodation with permanent class bases, there will be no adverse impact upon any of the protected groups mentioned. However, should the replacement of the temporary accommodation with a permanent teaching block not be delivered for 2021, there is a risk that children will be without school in their local area, that longer journeys will need to be made between home and school in order to find alternative provisions with spaces and that in an increased number of cases parental preference will not be satisfied.

The building works will be procured by the County Council using framework agreements which it is entitled to use. Contractors experienced in working on projects of this type will be used.

The premises to be provided will need to meet the statutory requirements of the Education (School Premises) regulations 1999 and the feasibility studies and the final programme will ensure that this happens.

As public buildings, schools and nurseries are required to provide full accessibility in order to obtain Building control sign-off. Essex County Council produces a set of employer's requirements which add further interpretation to ensure this is achieved from the early stages of design. Prior to planning permission application Building Control approval is sought to offer earlier compliance confirmation. Any works to expand the building will be fully compliant with the legislation. This builds in a future-proofing dimension to our buildings, ensuring they are accessible for disabled users.

A consultation was held with the community as part of the planning process, regarding the detailed design of the proposed building works, parking and traffic issues. The school will be engaged as a key stakeholder as part of the design process. This consultation showed support to the proposals.
