## **Members Code of Conduct**

Arising out of consideration of a case review at its last meeting, the Committee asked that a report be prepared for the next meeting outlining how best to inform Members of the Councils' Code of Conduct.

This matter is being picked up in a number of ways.

Specific reference is being made in the training given on the Code of Conduct.

The work being done on the Council's Constitution and Code of Corporate Governance will make the Members Handbook, which currently contains advice and guidance for members beyond that specifically set out in the Code of Conduct, a document that in future will be approved by Council (Agenda item 7 refers).

A new Corporate Governance site is being developed for the Intranet that will include a site specific to members that will draw all guidance for members together in one place (Agenda item 7 refers).
