Suffolk & North East Essex Integrated Care System

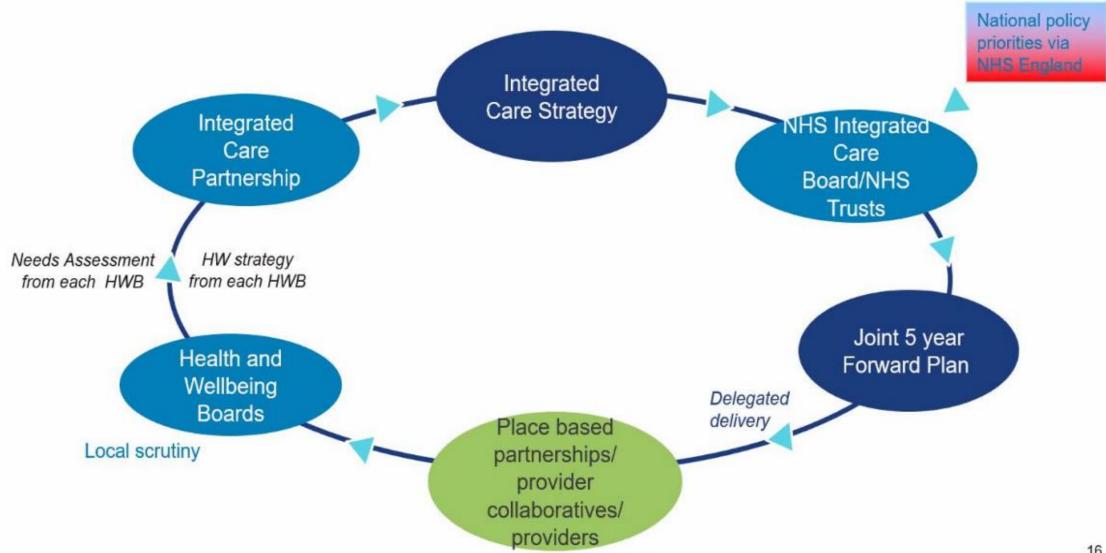

The Development of Integrated Care Strategies

Background

- There are three Integrated Care Systems servicing the population of Essex;
 - Mid and South Essex
 - Suffolk and North East Essex
 - Hertfordshire and West Essex
- Each has to prepare an Integrated Care Strategy by December 2022
- Leaders from each system meet together regularly
- The Integrated Care Strategies of each system will define, in common terms, how and where we will work together to ensure consistency of experience for Essex residents
- In addition to regular networking, sharing of intelligence and joint commissioning (where appropriate) it is anticipated each Integrated Care Partnership will commit to a number joint partnership initiatives

Mid and South Essex Integrated Care Partnership

ICP's central role is in the planning and improvement of health and care. They should support place-based partnerships and coalitions with community partners which are well-situated to act on the wider determinants of health in local areas. ICP's should bring the statutory and non-statutory interests of places together.

Integrated Care Partnership Engagement Document: Integrated Care System Implementation

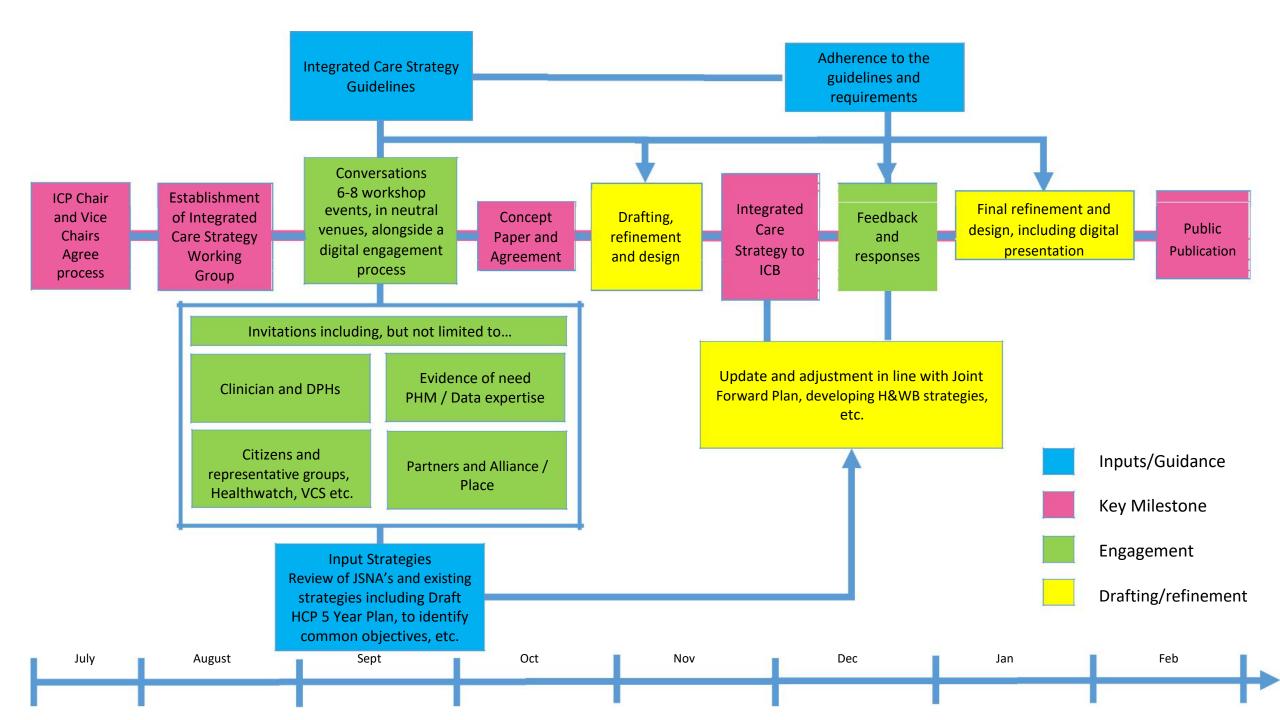

MSE strategy development

Strong involvement of;

- NHS and local authority partners
- The four Alliances
- VCFSE and infrastructure bodies
- The three Healthwatch organisations
- Wider partners including housing, higher education, policing, etc.
- Citizens experts by experience
- The Healthwatch bodies have strongly recommended a mixed approach to engagement, with a wide range of partners and stakeholders included in open dialogue and 'conversation-style' events in neutral community settings
- Process designed and agreed by the ICP, with specific input from the Chairs of the three Health and Wellbeing Boards and the three Healthwatch bodies
- An open and engaged process, with ample opportunity for contribution
- Building on the existing strategy, identifying shared outcomes and priorities

Component parts

Working Group

A small, agile working group meeting fortnightly, with Terms of Reference and operational support provided by the Strategy and Partnerships Directorate. Membership includes Directors or Public Health, Directors of Adult Social Care, Healthwatch lead officers and NHS Clinical leads.

• Partner, alliance and place engagement

Meaningful engagement with our partners and Alliances, ensuring that subsidiarity is clearly incorporated into the Strategy

• Citizen engagement

There is a strong commitment to strengths-based (ABCD) work and co-production with citizens and representative groups, Healthwatch, VCS. This will grow the scope and range of our partnerships, which is essential for effective prevention and early intervention work.

Clinical input

Input from ICP clinical leads and DPH's, alongside providers, primary, secondary/acute and community, will be essential to aid prioritisation and delivery.

Workshops and digital engagement

A series of mixed-group 'conversations' with a variety of formats/times/venues will be facilitated over September and early October, alongside a digital engagement process, both offering the opportunities for diverse groups and individuals to contribute to the Strategy development.

Component parts

• Review of existing 'Input Strategies'

A comprehensive review of existing strategies will ensure effective focus on shared objectives and where possible, seamless alignment across partners. 25 'Input Strategies' have been identified and are under review.

Concept paper

It is proposed that after the initial rapid engagement and 'ideation' phase, a concept paper will be presented to partners for agreement, establishing the overarching principles and approach proposed for the Strategy.

Guidance

At all stages development and delivery of the Integrated Care Strategy will meet Government guidance. Regular engagement with NHSE is taking places throughout the process.

Design and publication

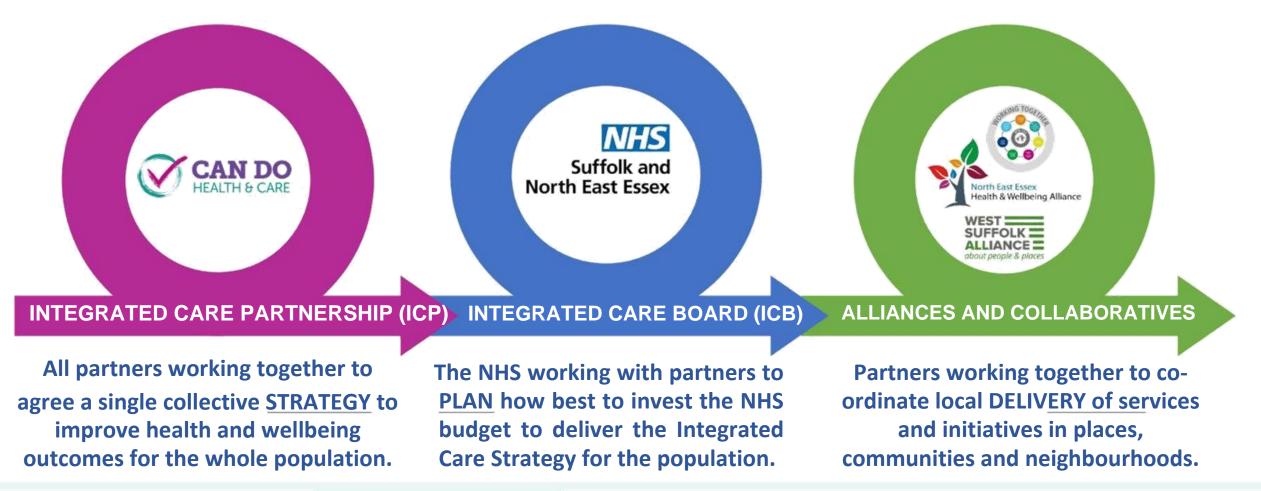

Communications (Media, Marketing, Campaigns & Design) will be essential in ensuring the Strategy is well presented and understood by the wider ranging partners and stakeholders.

Partner Engagement Workshops

AGREED PRINCIPLES FOR DEVELOPMENT OF THE SUFFOLK AND NORTH EAST ESSEX INTEGRATED CARE STRATEGY

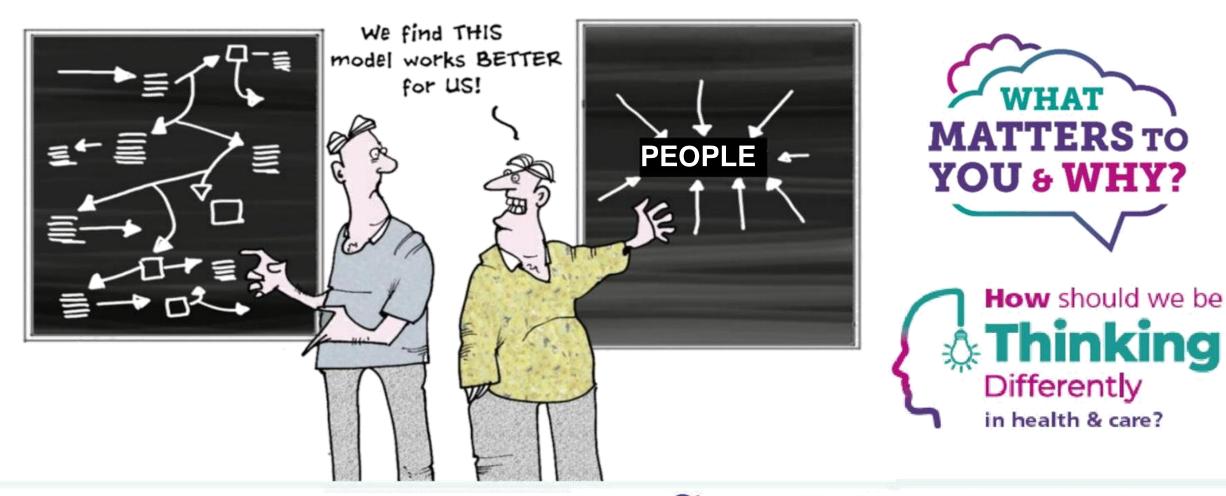

- **1. Build on what we have done previously**
- 2. Look at whole population through a range of different lenses
- 3. Recognise, bring together, build on and amplify existing strategies across key stakeholders
- 4. Use an outcome based approach
- 5. Articulate in language that is meaningful to the people that we serve
- 6. Use this as an opportunity to further deepen and embed collaboration
- 7. Integrate measurement throughout
- 8. Dovetail development of our Integrated Care Strategy with the planning mechanisms for the NHS and County Councils
- 9. Provide opportunities for everyone to be involved
- 10. Use this opportunity to drive genuine change and challenge our thinking in health and care.

OUR INTEGRATED CARE STRATEGY IN SIX NUMBERS

ONE MILLION PEOPLE

Our overall ambition is 'Thinking Differently Together' to make the best possible health outcomes a reality for every one of the **ONE** million people that we serve

TWO COUNTIES

We work flexibly with wider partners across the **TWO** counties of Suffolk and Essex

THREE LOCAL ALLIANCES

We co-ordinate delivery as locally as possible through our **THREE** local place-based alliances

FOUR KEY AIMS

We are united around our **FOUR** Key Aims to enable:

- the best health and wellbeing for all health
- equality, equity, inclusion and social justice
- everyone to 'Live Well' start well, be well, stay well, feel well, age well, die well.
- a 'Can Do' Health & Care System

FIVE EQUAL SECTOR PARTNERS

We believe in parity between all **FIVE** sectors in the ICS – NHS, primary care, social care, public health, VCSE

SIX CORE VALUES

We work together in line with our **SIX** core values: Collaborative, Creative, Compassionate, Courageous, Cost Effective, Community Focused

Strategy Update – November 2022

- Strategy steering group set up in July to develop our draft strategy.
- Desktop research undertaken of previous engagement activity to inform priorities
- ICP Strategy presented at numerous boards and shared with groups across Herts and West Essex
- Focus groups undertaken with under-represented groups
- Survey circulated to staff working across the partnership
- Further engagement to occur over the next few weeks ahead of strategy sign off.

Vision:	A healthy Hertfordshire and West Essex, enabling everyone to live fulfilled, healthy and quality lives, with the greatest possible independence.				
Principles:	A decisive shift in integration	Prioritisation of and early inter		Addressing health inequalities	Involve our citizens
Strategic Priorities:	1. Jointly develop our health and care workforce to deliver our vision for the future of health and care	2. Achieve a reduction in health inequalities	3. Increase the number of people that are physical active, eat health and maintain a healthy weight	ly	
	6. Enable our residents to age well and support people living with dementia	7. Improve support to people living with Life -Long Conditions, Long Term Health Conditions, physical disabilities and their families	8. Improve our residents' mental health and outcomes for tho with learning disabilities and autism	services	to 10. Reduce the harm caused by smoking, alcohol, other harmful substances and addictions
Enablers	Our Anchor Workforce institutions		a and sight become a sight become a sight become a sign be	and Innovation	Collaborative and joint commissioning

Views and Next steps

- Are there any key gaps or concerns?
- How can partners support with delivering the ambitions?
- What do we need to do differently to deliver the strategy?
