Dear Health Overview and Scrutiny Chair,

RE: Proposed move of site for Moorfields Eye Hospital (City Road, London)

We are writing to you in partnership with your local CCG partners to start a process of consultation with local health scrutiny.

Background and introduction

On 25th February we wrote to your NHS Clinical Commissioning Group to advise them of a proposed site move. Moorfields Eye Hospital NHS Foundation Trust is proposing to relocate all the services currently provided at Moorfields' City Road site in Islington, London (along with the UCL Institute of Ophthalmology and Moorfields Eye Charity) to a brand new integrated, purpose-built hospital on land that has become available at the St Pancras Hospital site in Camden, London, subject to public consultation.

The Trust's ability to provide modern, efficient and effective treatment pathways is compromised on the current site due to the physical limitations of the historic building in City Road. The buildings at City Road, some of which are over 125 years old, are impacting negatively on patients and their experience at the hospital.

A new integrated site would enable the design and development of a purpose-built building that could enhance and improve patients' experience and staff satisfaction, and support integration of clinical care, research and education; facilitating the development of new practice, new technologies and new models of care, which in turn could improve outcomes for patients, attract and empower staff, and accelerate scientific research and discoveries. Potentially, the St Pancras Hospital site could offer better access for patients travelling from outside London, and improved transport links across the capital.

Services provided at Moorfields City Road site are commissioned by 109 NHS Clinical Commissioning Groups (CCGs) and by NHS England Specialised Commissioning. Of those 109 CCGs, 14 in London and Hertfordshire hold contracts with a material value (defined as >£2m per annum) with Moorfields for activity at the City Road site. These 14 CCGs, which comprise Barnet, Camden, City & Hackney, Ealing, Enfield, Haringey, Havering, Islington, Newham, Redbridge, Tower Hamlets, East & North Herts, Herts Valley and Waltham Forest will be undertaking a consultation process on the proposal to change the base of Moorfields' operations, which has been its long-term home on City Road.

It has been agreed that Camden CCG, on behalf of Islington CCG, will lead the consultation process, in partnership with NHS England London Region Specialised Commissioning. In order to oversee the consultation and subsequently reach commissioning decisions, a committee-in-common has been established whose membership is taken from the 14 main CCGs.

Any move of this kind is a long process, with many stages of formal assurance and approval, and these proposals have been in development for several years. Engagement has been ongoing during this time with patients, staff and stakeholders, helping to shape the plans for the future.

**Working with the people of Camden
to achieve the best health for all**

Legislative drivers

As you will be aware, NHS trusts and commissioners have a duty to involve people in service planning, including consultation on significant changes to services, Guidance on this is set out by NHS England in ***Planning, assuring and delivering service change for patients***, March 2018. We expect to publish the Moorfields proposal for public consultation during the spring of 2019/20 (although we are already listening to patient and public views to help shape the proposal).

The Local Authority (Public Health, Health and Wellbeing Boards and Health Scrutiny) Regulations 2013 also require NHS commissioners to consult local authorities on proposed substantial variations to health services; requiring each CCG to notify its local authority partners when it has such proposals under consideration.

We are therefore asking you, as the Health Overview and Scrutiny Committee, to consider your preferred arrangements for scrutiny and to respond to us with your requirements. Given that Moorfields Eye Hospital serves the national population, we are expecting local authorities to convene a joint scrutiny arrangement under section 30(5) of the regulations. To this end, the existing Joint Overview and Scrutiny Committee for North Central London is proposing to act as scrutiny lead and we would like to know your views on this.

As an indicator of how Moorfields' services are provided to people across the country, contract values and numbers of patients are detailed in Appendix 1, noting that specialised services are commissioned for the whole of England.

Immediate action to set up scrutiny arrangements

We would like to hear from you on how best to work with you. Please could you advise us of the following:

1. Whether and when you would require a written briefing on the proposed relocation for your scrutiny committee members.
2. Whether you would like to send a representative to attend a Joint Health Overview and Scrutiny session in London on 29th April 2019.
3. How your local authority scrutiny would prefer to be consulted following publication of the Moorfields proposal e.g. could the North Central London manage a scrutiny process on your behalf?

I would be grateful if you would formally acknowledge receipt of this letter for our files to Naa Akle Noi (naaakle.noi1@nhs.net). We would very much appreciate your response by 15 April. Should we not receive a response we will assume that you are content with NCL Joint Overview and Scrutiny Committee acting as the lead and managing the process on your behalf.

Should you require any further information, please contact Programme Director, Denise Tyrrell on 07818 291387 or denise.tyrrell@nhs.net.

Yours sincerely,

Sarah Mansuralli
Senior Responsible Officer – Moorfields Consultation Programme
Chief Operating Officer, NHS Camden Clinical Commissioning Group
