

Equality Impact Assessment

Context

1. under s.149 of the Equality Act 2010, when making decisions, Essex County Council must have regard to the Public Sector Equality Duty, ie have due regard to:
 - eliminating unlawful discrimination, harassment and victimisation, and other conduct prohibited by the Act,
 - advancing equality of opportunity between people who share a protected characteristic and those who do not,
 - fostering good relations between people who share a protected characteristic and those who do not, including tackling prejudice and promoting understanding.
2. The characteristics protected by the Equality Act are:
 - age
 - disability
 - gender reassignment
 - marriage/civil partnership
 - pregnancy/maternity
 - race
 - religion/belief
 - gender and sexual orientation.
3. In addition to the above protected characteristics you should consider the cross-cutting elements of the proposed policy, namely the social, economic and environmental impact (including rurality) as part of this assessment. These cross-cutting elements are not a characteristic protected by law but are regarded as good practice to include.
4. The Equality Impact Assessment (EqIA) document should be used as a tool to test and analyse the nature and impact of either what we do or are planning to do in the future. It can be used flexibly for reviewing existing arrangements but in particular should enable identification where further consultation, engagement and data is required.
5. Use the questions in this document to record your findings. This should include the nature and extent of the impact on those likely to be affected by the proposed policy.
6. Where this EqIA relates to a continuing project, it must be reviewed and updated at each stage of the decision.
7. The EqIA will be published at:
<http://cmis.essexcc.gov.uk/essexcmis5/Home.aspx>
8. All **Cabinet Member Actions, Chief Officer Actions, Key Decisions** and **Cabinet Reports must be** accompanied by an EqIA.
9. For further information, refer to the EqIA guidance for staff.

Section 2: Policy to be analysed

2.1	Is this a new policy (or decision) or a change to an existing policy, practice or project? No. The report seeking approval to enter into a contract with Network Rail for the next stage of development of Beaulieu Park Station.
2.2	Describe the main aims, objectives and purpose of the policy (or decision): The single objective of the decision is to allow officers to draw down grant funding and progress the two projects. What outcome(s) are you hoping to achieve (ie decommissioning or commissioning a service)? Approval for ECC to enter into contract with Network Rail.
2.3	Does or will the policy or decision affect: • service users • employees • the wider community or groups of people, particularly where there are areas of known inequalities? Service Users / Wider Community Will the policy or decision influence how organisations operate? No
2.4	Will the policy or decision involve substantial changes in resources? No
2.5	Is this policy or decision associated with any of the Council's other policies and how, if applicable, does the proposed policy support corporate outcomes? It supports the councils aims to: - To reduce congestion on the network - To support economic growth and development - To make best use of existing public transport services

	To promote, encourage and support sustainable journeys along the corridors To improve safety To improve air quality in the area and reduce carbon emissions.

Section 3: Evidence/data about the user population and consultation¹

As a minimum you must consider what is known about the population likely to be affected which will support your understanding of the impact of the policy, eg service uptake/usage, customer satisfaction surveys, staffing data, performance data, research information (national, regional and local data sources).

3.1	What does the information tell you about those groups identified? The changes would have a universal impact and would not disproportionately impact any equalities group.
3.2	Have you consulted or involved those groups that are likely to be affected by the policy or decision you want to implement? If so, what were their views and how have their views influenced your decision? No. This is an early stage in all of the projects. If the bids are successful and the projects progress the individual project teams would run formal consultation exercises as part of the development of the projects.
3.3	If you have not consulted or engaged with communities that are likely to be affected by the policy or decision, give details about when you intend to carry out consultation or provide reasons for why you feel this is not necessary: Each project will be working on different timescales for consultation. We will be consulting with the following stakeholders: • Internal Department for Transport and Highways England • Local authorities • Emergency services • Strategic traffic generators • Business community • Local residents • Freight and passenger transport • Statutory environmental bodies • Statutory bodies and utilities • All road users • Equalities and vulnerable user groups.
