Trends

In 2019 Colchester, Basildon and Chelmsford accounted for the top 3 areas for victims seeking support. In 2023/24 Colchester and Basildon remained the top 2, with Tendring at number 3 (previously 6th) and Chelmsford at number 4

4% (153) of victims in the community in 2019 were men. The numbers have increased slowly year on year, with men representing 6% (281) in 2023/24

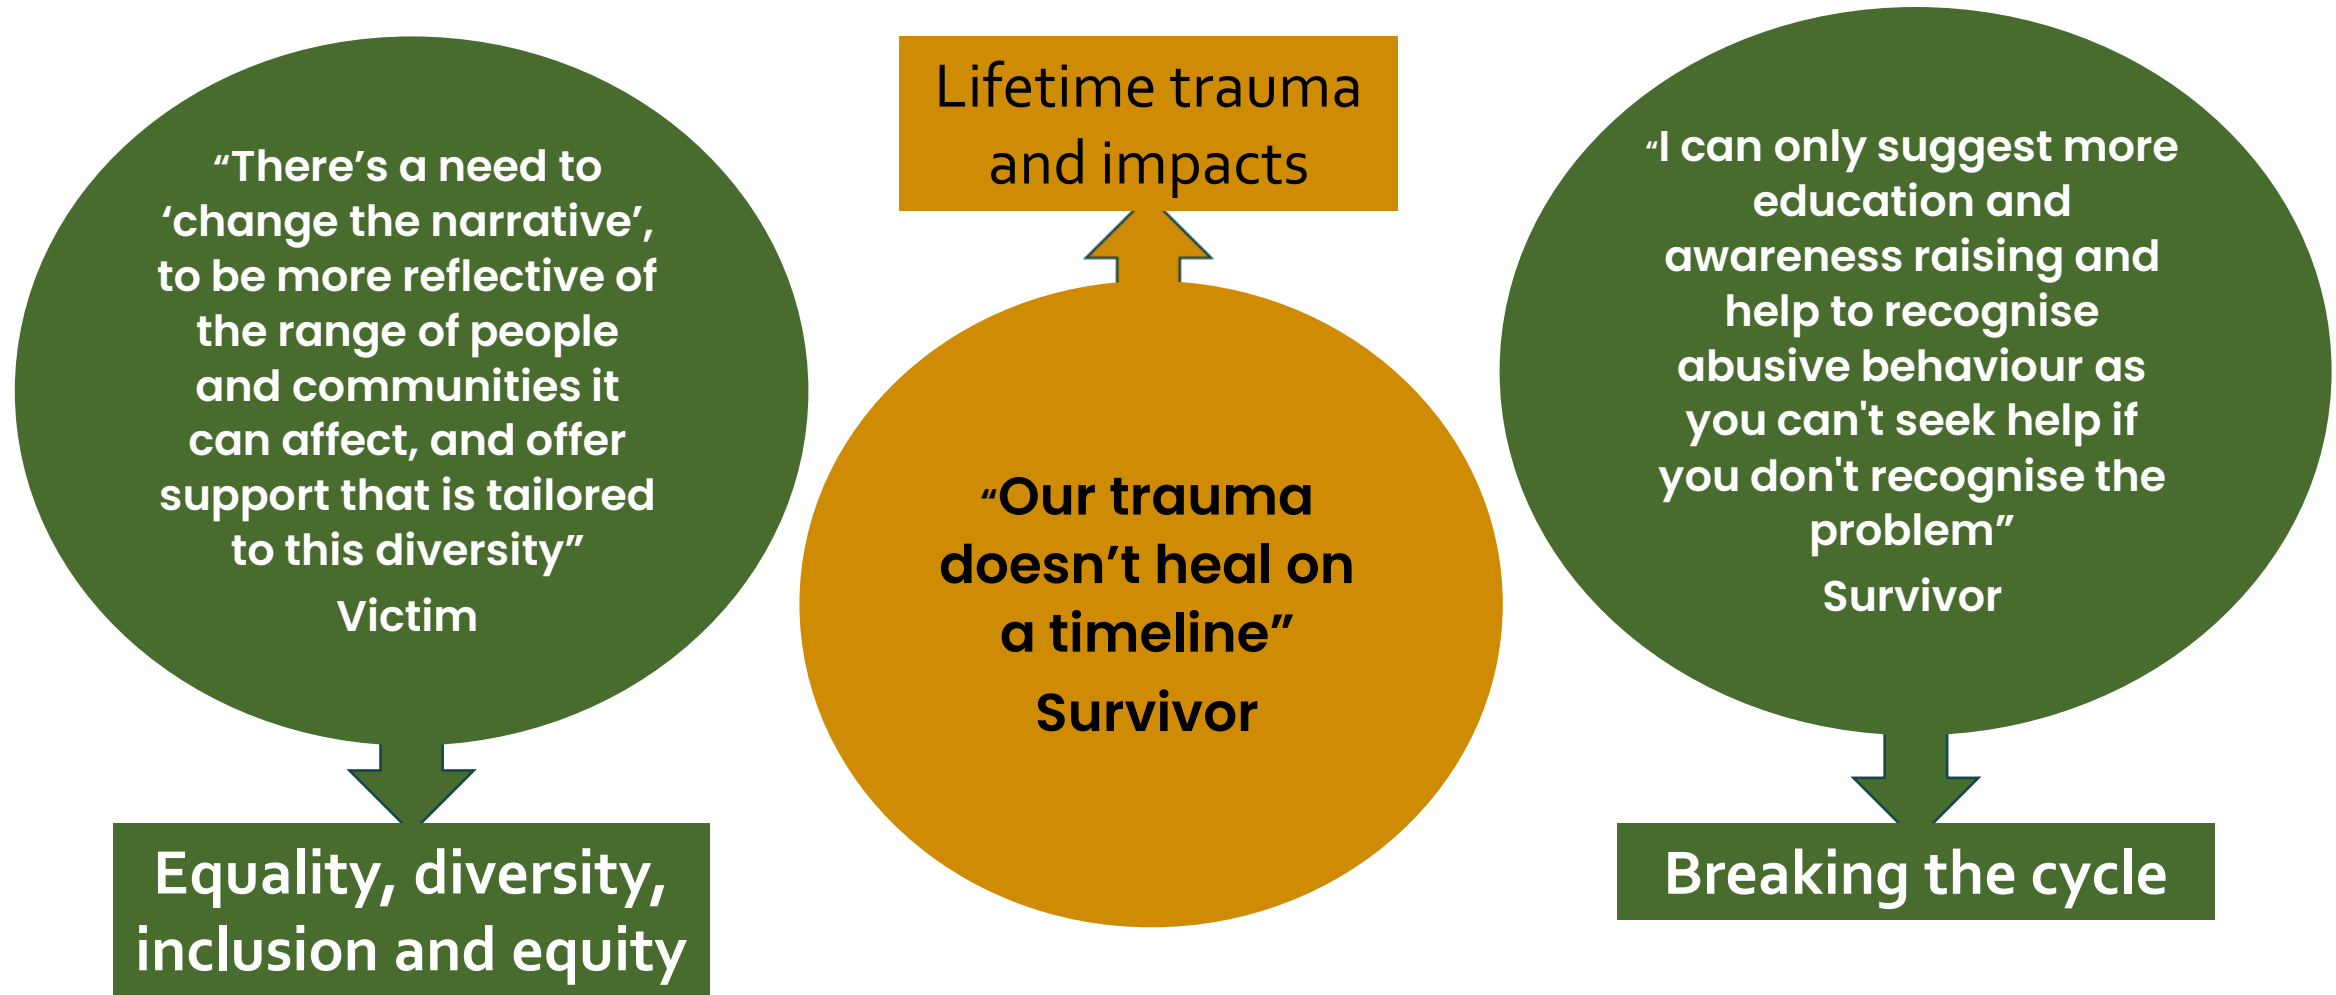

10% (472) of victims in the community in 2023/24 were Black African/Caribbean, Asian and other multiple ethnic groups. These demographics have been consistent since each year since 2019

22% (1,036) of victims in the community in 2023/24 identified as having a disability. This is consistent with previous years

31 – 35-year-olds are the primary age group each year, with 65+ years the lowest represented group; no significant changes each year

In 2019 the average case length for high-risk victims was 3 months, this has increased to an average of 6 months in 2023/24, primarily due to the increase in complexities and the backlog in cases going to court
