Oct/Nov	<ul style="list-style-type: none"> <li>• National and local assurance prior to consultation</li> <li>• Start of consultation</li> </ul>
Jan - Mar 2017	<ul style="list-style-type: none"> <li>• Outcome analysis, decision-making business case and assurance process</li> </ul>

# Localities & Primary Care

---

## Main strategic points

- Based around clusters of GP practices - 40-50,000 people
- Transformation of primary care (redefine the traditional)
- Integration (GP, community, mental health and social care)
- Collaboration with third sector
- Collaboration with wider local authority services (e.g. housing)
- Three components: high risk, rising risk and healthy patients
- Primary care is not just the GP practice
- Consistency across all 7 CCGs in Essex recognising slightly different pace of change

# Localities & Primary Care

## The journey of primary care transformation

Level 1

Patients see practices working collaboratively with greater consistency

Level 2

Patients see practices sharing services and start to access core services in different ways

Level 3

Patients see new interventions offered that would normally have been delivered from another setting (or never have been before)

Level 4

Patients experience a different way of receiving services that is joined up, and involves far greater range of professionals and support

## Developmental pace of change over next five years

- **Early views of service users and public in July-Sep and ongoing**
- **Continued engagement through implementation from 2017 onwards**

# Complex patients, LTCs, Frailty

---

## Main strategic points

- Greater emphasis on prevention – strengthening resilience – support for individuals and communities (*Live Well*)
- Early identification and care planning
- Risk stratification
- Coordination with urgent care services – 111, out of hours
- Proactive care closer to home, personalised approach and plan
- Integrated multidisciplinary support
- Holistic patient-centred care
- Better use of technology / innovation
- Developing future workforce

# Frailty and End of Life work in progress

## Identification and care planning

- Risk stratification
- Mutli-disciplinary teams
- Holistic care plans
- Information sharing

## Proactive care delivery

- Out of hospital services
- Single point of access
- Health and social care integration
- Care homes service development
- Falls services
- Coordination with 111 and ambulance

## Interface between community and hospital

- Blueprint for Frailty Assessment Units
- Integrated frailty assessment team
- Mental health reviews within 4 hrs
- Dementia support specialists
- Discharge to Assess
- Reablement at home

## End of life

- Blueprint for end of life pathways
- Identification and care planning
- System-wide education
- Outcomes aligned to 6 national ambitions
- Raising public awareness

- **Early views of service users and public in July-Sep and ongoing**
- **Continued engagement through implementation from 2017 onwards**

# In hospital

---

## **Main strategic points**

- Hospital group model for 3 acutes
- Shared back office and clinical support functions
- Evidence-based reconfiguration and service redesign:
  - Designation for specialist emergency care (re: Willetts)
  - Separation of elective and non-elective (re: Briggs)
  - Improving efficiency and reliability through consolidation (re: Briggs; Keogh)

## **Current process**

- Acute Leaders Group developing scenarios to shape options
- 12 back office and 9 clinical support workstreams in progress

# In hospital

---

## **Sequenced approach to decision-making**

- Working with community to develop new models of care – manage demand on hospitals
- Considering options for emergency care
- Separating elective surgery to avoid disruption of emergencies
- Identifying potential for further centralisation
- Redesign pathways and internal services to improve patient flow
- List of options for public consultation

**Priority for engagement July- Sep**

# Broad plan for whole SR/STP engagement – Phase 3
