### **Executive Summary**

## Title of policy/decision

Enter the title as it appears on the decision paperwork

Essex Cares Limited – West Sussex County Council's Community Reablement Contract New 16 Month Contract

Date

Enter date submitted to Equalities & Partnerships Team

23.11.23

Policy/decision type

Cabinet Member Action (CMA)

**Overview of policy/decision** 

Summarise here the purpose and aims of the policy / decision (e.g. the proposed issue or change that you are equality impact assessing). Provide brief relevant contextual information, e.g. if the decision is to create a new service, describe the aims of the service and why it is being proposed; Or, similarly, if the proposal is to cease a service or buy a product, explain why this is.

Approval for ECL to enter into a 16 month contract with West Sussex County Council to provide a Community Reablement Service. This is a matter reserved to the Shareholder.

What outcomes is the policy/decision hoping to achieve

Describe what difference the decision will make on people, communities, localities.

West Sussex is a strategically important location for ECL as it provides an opportunity for shared learning on reablement and spreading overheads across more income streams to improve value for money for ECC and the residents of Essex.

**Executive Director responsible for policy/decision** 

Peter Fairley, Managing Director

**Cabinet Member responsible for policy/decision** 

Cllr Kevin Bentley (Leader of the Council)

Is this a new policy/decision or a change to an existing one?

This is a new decision.

How will the impact of the policy/decision be monitored and evaluated?

Factors to consider include the systems set up to monitor any resulting Impact; timetable for action; how the findings will influence policy, practice and delivery.

The contract includes Key Performance Indictors.

The contract includes key Perio		//3.		
Will this policy/decision impac	t on:	Yes	No	
Service Users		Х		
Employees		Х		
Wider community or groups of	users		Х	
What strategic priorities will t	nis policy/decis	ion support?

### **Equalities - Groups With Protected Characteristics**

For more information on protected characteristics https://www.equalityhumanrights.com/en/equalityact/protected-characteristics

### Nature of impact

Select whether the policy / decision will have a positive or negative impact, or if there is no expected impact

Characteristic	Positive	Negative	None
Age	Х		
Disability (including learning disability, mental health issues, physical impairment and sensory impairment)	x		
Gender reassignment			Х
Marriage / Civil Partnership			Х
Pregnancy / maternity			Х
Race			Х
Religion / belief			Х
Sex			Х
Sexual orientation			Х

### Extent of impact

Select whether the extent of impact of the policy / decision will be high, medium or low e.g.

- Scale of the activity - does it affect a large number of the population?

- Scale of the impact - does it affect people in one or more important aspects of their lives?

- Severity of the impact (even if it affects only a small number of people) - can it put some people in the community at a severe disadvantage?

If no impact identified above, select N/A for that characteristic.

Characteristic	High	Medium	Low	N/A
Age	Х			
Disability (including learning disability, mental health issues, physical impairment and sensory impairment)	х			
Gender reassignment				Х
Marriage / Civil Partnership				Х
Pregnancy / maternity				Х
Race				Х
Religion / belief				Х
Sex				Х
Sexual orientation				Х

Rationale for assessment, including data used to assess the impact

Outline how the assessments relating to impact were made. Describe the approach to the consultation and research: the methods used; who was consulted, why and how; and sources of data/evidence collected. What does the data tell you?

N/A

# (If negative impact assessed) What actions will be undertaken to mitigate negative impacts, including timescales

If any negative impacts have been identified, it is important to outline the steps that been have put in place to mitigate against these impacts. If no mitigation is practicable and the changed policy /decision will inevitably affect some group(s) more than the population in general, you must seek advice on the legality of the change.

N/A

## What actions have already been taken to mitigate any negative impacts?

For certain decisions, activity will have been taken prior to this assessment being undertaken to address any immediate issues. It's important to capture all actions taken to mitigate negative impacts.

# Levelling Up - Priority Areas & Cohorts

For more information on Levelling Up Plans and strategies <u>click here</u>.

## Nature of impact

Select whether the policy / decision will have a positive or negative impact, or if there is no expected impact

mpace			
Cohort / Area	Positive	Negative	None
Children and adults with SEND, learning disabilities or mental			v
health conditions (taking an all-age approach)			Х
Children on Free School Meals			Х
Working families			Х
Young adults (16-25 who have not been in education, training or			v
employment for around 6-12 months			Х
Harlow			Х
Jaywick and Clacton			Х
Harwich			Х
Basildon (Town) housing estates			Х
Canvey Island			Х
Colchester (Town) - Housing Estates			Х
Rural North of the Braintree District			Х
Fordered of Second at			

## **Extent of impact**

Select whether the extent of impact of the policy / decision will be high, medium or low e.g.

- Scale of the activity - does it affect a large number of the population?

- Scale of the impact - does it affect people in one or more important aspects of their lives?

- Severity of the impact (even if it affects only a small number of people) - can it put some people in the community at a severe disadvantage?

If no impact identified above, select N/A.

If no mitigation is practicable and the changed policy /decision will inevitably affect some group(s) more than the population in general, you must seek advice on the legality of the change.

N/A

What actions have already been taken to mitigate any negative impacts?

For certain decisions, activity will have been taken prior to this assessment being undertaken to address any immediate issues. It's important to capture all actions taken to mitigate negative impacts. N/A

Equalities - Geographi	cal Groups		
Deprivation: The Index of Multiple Deprivation (IMD) is the	e official measure of	relative depriva	ation in
England and is part of a suite of outputs that form the India	ces of Deprivation (lo	D). It follows a	n
established methodological framework in broadly defining	deprivation to encor	npass a wide ra	ange of an
individual's living conditions. People may be considered to	be living in poverty i	f they lack the	financial
resources to meet their needs, whereas people can be rega	arded as deprived if t	hey lack any ki	nd of
resources, not just income. Across Essex an estimated 123,	640 residents live in	the most depri	ved
quintile (20%) nationally, equivalent to 8.6% of the total			
population. https://data.essex.gov.uk/dataset/2w89n/ind	ices-of-multiple-depr	ivation-imd-20	)19-full-
report			
Rural/Urban: The Rural-Urban definition (DEFRA) introduc	ed in 2004, defines u	rban areas as s	ettlement
of over 10,000 people. Other settlements are defined as or	ne of three rural type	s: town and fri	nge, villag
or hamlet, and dispersed. https://www.gov.uk/governmen	t/statistics/the-rural	-urban-definiti	on
Coastal: ONS provides the following definition: Seaside tow	vns are those with a t	tourist beach a	nd
associated visitor attractions while the other coastal towns	s include those focuse	ed on other act	ivities suc
as being a port town or industrial town. For further inform	ation		
https://www.ons.gov.uk/businessindustryandtrade/tourisi	mindustry/datasets/c	oastaltownsin	englandan
dwales https://data.essex.gov.uk/dataset/e1kmd/essex-ec	conomic-commission-	dealing-with-c	hallenges-
of-coastal-communities-in-greater-essex			
Nature of impact			
Select whether the policy / decision will have a positive or r	negative impact, or if	there is no exp	ected
impact		<b>.</b>	
Group	Positive	Negative	None
People living in areas of high deprivation			Х
People living in rural or isolated areas			Х
People living in coastal areas			Х
People living in urban or over-populated areas			Х
Extent of impact			
Select whether the extent of impact of the policy / decision		or low e.g.	
- Scale of the activity - does it affect a large number of the	population?		

Scale of the activity - does it affect a large number of the population :

- Scale of the impact - does it affect people in one or more important aspects of their lives?

- Severity of the impact (even if it affects only a small number of people) - can it put some people in the community at a severe disadvantage?

If not impact identified above, select N/A.

Group	High	Medium	Low	N/A
People living in areas of high deprivation				Х
People living in rural or isolated areas				Х
People living in coastal areas				Х
People living in urban or over-populated areas				Х

Rationale for assessment, including data used to assess the impact

Outline how the assessments relating to impact were made. Describe the approach to the consultation and research: the methods used; who was consulted, why and how; and sources of data/evidence collected. What does the data tell you? Ensure that reference is made to each protected *characteristic* [*link to data repository*]

N/A

(If negative impact assessed) What actions will be undertaken to mitigate negative impacts, including timescales

If any negative impacts have been identified, it is important to outline the steps that been have put in place to mitigate against these impacts. If no mitigation is practicable and the changed policy /decision will inevitably affect some group(s) more than the population in general, you must seek advice on the legality of the change.

**What actions have already been taken to mitigate any negative impacts?** For certain decisions, activity will have been taken prior to this assessment being undertaken to address any immediate issues. It's important to capture all actions taken to mitigate negative impacts.

# Families

## Nature of impact

Select whether the policy / decision will have a positive or negative impact, or if there is no expected impact

input			
Group	Positive	Negative	None
Family formation (e.g. becoming or living as a couple, the ability			v
to live with or apart from children)			Х
Families going through key transitions (e.g. becoming parents,			
getting married, fostering or adopting, bereavement,			х
redundancy, new caring responsibilities, onset of a long-term			^
health condition)			
Family members' ability to play a full role in family life (e.g.			х
fulfilling parenting and other caring responsibilities)			^
Families before, during and after couple separation			Х
Families most at risk of deterioration of relationship quality and			v
breakdown			Х

## **Extent of impact**

Select whether the extent of impact of the policy / decision will be high, medium or low e.g.

- Scale of the activity - does it affect a large number of the population?

- Scale of the impact - does it affect people in one or more important aspects of their lives?

- Severity of the impact (even if it affects only a small number of people) - can it put some people in the community at a severe disadvantage?

If no impact identified above, select N/A.

Group	High	Medium	Low	N/A
Family formation (e.g. becoming or living as a couple, the				х
ability to live with or apart from children)				^
Families going through key transitions (e.g. becoming				
parents, getting married, fostering or adopting,				х
bereavement, redundancy, new caring responsibilities,				^
onset of a long-term health condition)				
Family members' ability to play a full role in family life (e.g.				х
fulfilling parenting and other caring responsibilities)				^
Families before, during and after couple separation				Х

and breakdown				Х

Rationale for assessment, including data used to assess the impact

Outline how the assessments relating to impact were made. Describe the approach to the consultation and research: the methods used; who was consulted, why and how; and sources of data/evidence collected. What does the data tell you?

#### N/A

(If negative impact assessed) What actions will be undertaken to mitigate negative impacts, including timescales

If any negative impacts have been identified, it is important to outline the steps that been have put in place to mitigate against these impacts. If no mitigation is practicable and the changed policy /decision will inevitably affect some group(s) more than the population in general, you must seek advice on the legality of the change.

N/A

What actions have already been taken to mitigate any negative impacts?

For certain decisions, activity will have been taken prior to this assessment being undertaken to address any immediate issues. It's important to capture all actions taken to mitigate negative impacts. N/A

## **Digital Accessibility**

Accessibility regulations mean public sector organisations have a legal duty to make sure their websites and mobile applications meet accessibility requirements. Further guidance can be found in the council's <u>Digital Accessibility Policy</u>

Is the new or revised policy / decision linked to a digital service (website, system or application)? *Delete as applicable* 

No

(If yes) What steps have you taken to meet the accessibility requirements?

Outline the specific actions taken to meet the digital accessibility requirements – for further information visit <u>https://accessibility.campaign.gov.uk/</u> or contact <u>accessibility@essex.gov.uk</u>

(If yes) How have you tested accessibility?

Outline the actions taken to test accessibility.

(If yes) How will you monitor and maintain accessibility once it has gone live

Outline how accessibility will be monitored and maintained

Climate			
For more information on Energy, Climate and the Environment visit			
https://www.essex.gov.uk/topic/energy-climate-environment			
Does your decision/policy involve elements connected to the built	: environmer	nt / energy?	
Delete as applicable			
No			
(If yes) Do you know what products, materials, and qualified built	environmen	t professiona	ls you will
be using?			
	Yes	No	N/A
Are you maximising the opportunity to source materials locally			
and maximise use of sustainable materials such as wood?			
Are you using a qualified architect/design team/consultant with			
the experience and capability to design and secure planning			
permission to deliver to the highest carbon zero building			
standards?			
Are you clear that the builder, sub-contractor is qualified and			
capable of delivering climate resilient buildings (noting risks			
including subsidence, flooding, overheating), to the highest net			
zero carbon build quality?			
(If yes) Is your proposed development / building using the best pra	actice guidan	ice and advic	e on design
quality, climate change and health?			
Addressing the building quality, including addressing climate change	-	-	
future retrofit costs, it will also reduce the operational running costs	s of your scho	oi, nomes or	business
and will directly reduce the impact on fuel poverty.

Are you able to utilise repurposed (second-hand) equipment				
when delivering this decision?				
Are the materials being used easy to recycle at the end of their				
life?				
Have you selected materials that minimise environmental				
impacts – e.g. minimising one use plastics?				
Are you purchasing in bulk to reduce the number of trips?				
(If yes) How much waste are you expecting this activity to ger produced the greater the greenhouse gas impact. It is therefore		-		
avoid waste when designing services, buying goods and delive	-		-	ou can
		Yes	No	N/A
Are you able to measure the amount of waste being generated				
and set targets to reduce?				
Can the service be operated in a digital way or redesigned to				
reduce the use of material resources?				
If purchasing goods, are they durable and long lasting, and can				
they be easily maintained and repaired?				
Are you able to share goods and service with others to reduce				
resource use?				
Are you avoiding over-packaged or difficult to recycle goods ar	d			
single use items?				
Can you donate or sell materials and products that are no long	er			
required?				
(If yes) Will any waste be generated by this decision?				
Delete as applicable				
Yes / No				
(If yes) Most of our activities will generate waste so it is impo				
to reduce greenhouse gas emissions. What approaches are in	place to	maximis	e reuse, recyc	ling and
composting of any waste generated by this decision?				
(If we all Millions is weather being tweather and all an analysis)				
(If yes) Where is waste being treated and disposed of?	tohioh	ia likalu t		
Using local disposal points minimises the transportation of was	te which	IS IIKEIY T

Sustainable Transport / Travel

Waste					
Rationale for assessment, including data used to assess the impact					
Outline how the assessments relating to impact were made. Describe the approach to the consultation					
and research: the methods used; who was consulted, why and how; and sources of data/evidence					
collected. What does the data tell you?					
N/A					
(If negative impact assessed) What actions will be undertak	en to mitig	ate negativ	e impacts, i	ncluding	
timescales					
If any negative impacts have been identified, it is important t	to outline th	e steps that	been have	put in	
place to mitigate against these impacts. If no mitigation is practicable and the changed policy /decision				decision	
will inevitably affect some group(s) more than the population	n in general,	you must s	eek advice d	on the	
legality of the change.					
N/A					
What actions have already been taken to mitigate any nega	ative impact	:s?			
or certain decisions, activity will have been taken prior to this assessment being undertaken to address		address			
any immediate issues. It's important to capture all actions taken to mitigate negative impacts.
