

Note of Clarification

Report title: Commissioning of Specialist Adoption and Special Guardianship Order Support Services

Forward Plan ref number: FP/373/02/19

Following publication of the above decision the following addition is to be noted as a clarification to paragraph 3.21 of the report:

If any safeguarding concerns are raised, whether through an Ofsted inspection or our internal quality checks, then we would investigate, stop provision if necessary and suspend the provider until they give evidence and assurance that practice has improved. we have systems in place to keep abreast of whether a child is safe in provision and would not keep any child in a provision where there are concerns about their safety.
