**Subject:** CQC: Report into the standards of care that older people receive in hospital

Dear Colleague,

CQC today publishes a report into the standards of care that older people receive in hospital – and calls for a system-wide response to combat the failings identified.

This report, [available here](#), summarises the findings of 100 unannounced inspections of NHS acute hospitals which took place between March and June this year, looking at whether the essential standards of dignity and nutrition were being met on wards caring for older people.

CQC inspectors have since returned to hospitals where concerns were identified to check that improvements have been delivered.

The press release and a summary of our findings for each Trust are copied below.

Kind regards,

Elliott

Elliott Ward  
Public Affairs Officer  
Care Quality Commission  
Finsbury Tower  
103 - 105 Bunhill Row  
London EC1Y 8TG

### **Summary of findings**

Outcome 1 relates to 'respecting and involving people who use services'. Outcome 5 relates to 'meeting nutritional needs'.

#### **Hospitals where we had a major concern**

- Alexandra Hospital, Worcestershire Acute Hospitals NHS Trust (major concern 5, moderate 1)
- Sandwell General Hospital, Sandwell and West Birmingham Hospitals NHS Trust (major concern 5, moderate 1)

#### **Hospitals where we had a moderate concern**

- Barnsley Hospital, Barnsley Hospital NHS Foundation Trust (5)
- Bedford Hospital, Bedford Hospital NHS Trust (5)
- Colchester General Hospital, Colchester Hospital University NHS Foundation Trust (1 and 5)
- Conquest Hospital, East Sussex Hospitals NHS Trust (1 and 5)
- Darent Valley Hospital, Dartford and Gravesham NHS Trust (1 and 5)

- Eastbourne General Hospital, East Sussex Hospitals NHS Trust (1 and 5)
- Great Western Hospital, Great Western Hospitals NHS Foundation Trust (1)
- Ipswich Hospital, Ipswich Hospital NHS Trust (1 and 5)
- James Paget Hospital, James Paget University Hospitals NHS Foundation Trust (1 and 5)
- John Radcliffe Hospital, Oxford Radcliffe Hospitals NHS Trust (5)
- Norfolk and Norwich University Hospital, Norfolk and Norwich University Hospitals NHS Foundation Trust (5)
- Ormskirk and District General Hospital, Southport and Ormskirk Hospital NHS Trust (1)
- Royal Preston Hospital, Lancashire Teaching Hospitals NHS Foundation Trust (5)
- Royal Free Hampstead Hospital, Royal Free Hampstead NHS Trust (1 and 5)
- South Tyneside District Hospital, South Tyneside NHS Foundation Trust (1)
- Stepping Hill Hospital, Stockport NHS Foundation Trust (5)
- University Hospitals Bristol site, University Hospitals Bristol NHS Foundation Trust (5)
- Whiston Hospital, St Helen's and Knowsley NHS Trust (5)

### **Hospitals where we had minor or no concerns**

- Addenbrooke's Hospital, Cambridge University Hospitals NHS Foundation Trust
- Aintree Hospital, Aintree University Hospitals NHS Foundation Trust
- Airedale General Hospital, Airedale NHS Foundation Trust
- Bradford Royal Infirmary, Bradford Teaching Hospitals NHS Foundation Trust
- Cannock Hospital, Mid Staffordshire NHS Foundation Trust
- Chapel Allerton Hospital, Leeds Teaching Hospitals NHS Trust
- Clatterbridge Centre for Oncology, Clatterbridge Centre for Oncology NHS Foundation Trust
- Clatterbridge Hospital, Wirral University Teaching Hospital NHS Foundation Trust
- Countess of Chester Hospital, Countess of Chester Hospital NHS Foundation Trust
- Croydon University Hospital, Croydon University Hospitals NHS Trust
- Cumberland Infirmary, North Cumbria University Hospitals NHS Trust
- Derriford Hospital, Plymouth Hospitals NHS Trust
- Doncaster Hospital, Doncaster and Bassetlaw Hospitals NHS Foundation Trust
- Dorset County Hospital, Dorset County Hospital NHS Foundation Trust
- Ealing Hospital, Ealing Hospital NHS Trust
- East Surrey Hospital, Surrey and Sussex Healthcare NHS Trust
- George Eliot Hospital, George Eliot Hospital NHS Trust
- Good Hope Hospital, Heart Of England Foundation Trust
- Grantham and District Hospital, United Lincolnshire Hospitals NHS Trust
- Halton Hospital, Warrington And Halton NHS Trust
- Hereford County Hospital, Hereford Hospitals NHS Trust
- Homerton University Hospital, Homerton University Hospital NHS Foundation Trust
- Huddersfield Royal Infirmary, Calderdale and Huddersfield NHS Foundation Trust
- Kettering General Hospital, Kettering General Hospital NHS Foundation Trust
- King George Hospital, Barking, Havering and Redbridge University Hospitals NHS Trust
- Kingston Hospital, Kingston Hospital NHS Trust
- Leighton Hospital, Mid Cheshire Hospitals NHS Foundation Trust
- London Road Community Hospital, Derby Hospitals NHS Foundation Trust
- Manor Hospital, Walsall Hospitals NHS Trust
- Musgrove Park Hospital, Taunton and Somerset NHS Foundation Trust
- Newark Hospital, Sherwood Forest Hospitals NHS Foundation Trust
- New Cross Hospital, Royal Wolverhampton Hospitals NHS Trust
- Northern General Hospital, Sheffield Teaching Hospitals NHS Foundation Trust
- North Hampshire NHS Trust Treatment Centre, Basingstoke and North Hampshire NHS Foundation Trust

- North Manchester General Hospital, Pennine Acute Hospitals NHS Trust
- North Middlesex Hospital, North Middlesex University Hospital NHS Trust
- Northwick Park Hospital, North West London Hospitals NHS Trust
- Nuffield Orthopaedic Centre, Nuffield Orthopaedic Centre NHS Trust
- Ormskirk and District General Hospital, Southport and Ormskirk Hospital NHS Trust
- Peterborough City Hospital, Peterborough and Stamford Hospitals NHS Foundation Trust
- Princess Alexandra Hospital, Princess Alexandra NHS Trust
- Princess Royal University Hospital, South London Healthcare NHS Trust
- Queen Alexandra Hospital, Portsmouth Hospitals NHS Trust
- Queen Elizabeth the Queen Mother Hospital, Margate, East Kent Hospitals University NHS Foundation Trust
- Queen Elizabeth II Hospital, East and North Hertfordshire NHS Trust
- Queen's Hospital, Burton Hospitals NHS Foundation Trust
- Queen Victoria Hospital, Queen Victoria Hospital NHS Foundation Trust
- Royal Blackburn Hospital, East Lancashire Hospital NHS Trust
- Royal Bolton Hospital, Royal Bolton Hospitals NHS Trust
- Royal Bournemouth General Hospital, Royal Bournemouth and Christchurch Hospitals NHS Foundation Trust
- Royal Devon and Exeter Hospital, Royal Devon and Exeter NHS Foundation Trust
- Royal Liverpool University Hospital, Royal Liverpool and Broadgreen University Hospitals NHS Trust
- Royal Orthopaedic Hospital, Royal Orthopaedic Hospital NHS Foundation Trust
- Royal Shrewsbury Hospital, Shrewsbury and Telford Hospital NHS Trust
- Royal Surrey County Hospital, Royal Surrey County NHS Foundation Trust
- Salford Hospital, Salford Royal NHS Foundation Trust
- Scunthorpe General Hospital, North Lincolnshire and Goole NHS Foundation Trust
- Southlands Hospital, Western Sussex Hospitals NHS Trust
- Southmead Hospital, North Bristol NHS Trust
- St George's Hospital, St George's Healthcare NHS Trust
- St Mary's Hospital, Imperial College Healthcare NHS Trust
- Stoke Mandeville Hospital, Buckinghamshire Hospitals NHS Trust
- St Thomas' Hospital, Guy's and St Thomas' NHS Foundation Trust
- Torbay Hospital, South Devon NHS Trust
- Trafford General Hospital, Trafford Healthcare NHS Trust
- University College Hospital and Elizabeth Garrett Anderson Wing, University College London Hospitals NHS Foundation Trust
- University Hospital Coventry and Warwickshire, University Hospital Coventry and Warwickshire NHS Trust
- University Hospital Lewisham, Lewisham Healthcare NHS Trust
- University Hospital of Liverpool, North Tees and Hartlepool NHS Foundation Trust
- University Hospitals Bristol main site, University Hospitals Birmingham Foundation Trust
- Warwick Hospital, South Warwickshire NHS Foundation Trust
- West Cumberland Hospital, North Cumbria University Hospitals NHS Trust
- Wexham Park Hospital, Heatherwood and Wexham Park Hospitals NHS Foundation Trust
- Walkergate Hospital, Newcastle Upon Tyne Hospitals NHS Foundation Trust
- West Middlesex University Hospital, West Middlesex University Hospital NHS Trust
- Whipps Cross University Hospital, Whipps Cross University Hospital NHS Trust
- The Whittington Hospital, Whittington Hospital NHS Trust
- Wythenshawe Hospital, University Hospital of South Manchester NHS Foundation Trust
- York Hospitals NHS Trust HQ, York Hospitals NHS Foundation Trust

## **Press Release**

### **CQC calls for action to improve care for older people**

13 October 2011

CQC today publishes a report into the standards of care that older people receive in hospital – and calls for a system-wide response to combat the failings identified.

This report summarises the findings of 100 unannounced inspections of NHS acute hospitals which took place between March and June, looking at whether the essential standards of dignity and nutrition were being met on wards caring for older people.

Around half of the hospitals needed to do more to ensure that they were meeting people's needs – with twenty of the hospitals visited failing to meet essential standards required by law.

Of the 100 hospitals inspected:

- 45 hospitals were fully compliant – meeting the essential standards relating to both dignity and nutrition.
- 35 met both standards but still needed to make improvements in one or both
- 20 hospitals did not meet one or both standards – with major concerns identified in two cases.

CQC inspectors have since returned to hospitals where concerns were identified to check that improvements have been delivered.

During the initial inspections, two hospitals were identified as having major concerns - Sandwell General Hospital, in West Bromwich, and Alexandra Hospital in Worcestershire.

A follow-up unannounced inspection to Alexandra Hospital found that action has been taken to address CQC concerns and the hospital is now meeting essential standards.

However, when CQC inspectors returned to Sandwell General, they found that, although standards around meeting people's nutritional needs had improved, people's dignity was not always respected. Inspectors visited two wards; the Emergency Assessment Unit (EAU) and Newton 4. Patients spoke highly of the care they received in EAU, but on Newton 4, inspectors observed incidents including a person who had been incontinent remaining unwashed for an hour and a half, despite asking staff for help.

Following this inspection, continuing concerns about the care provided on Newton 4 were raised with the Trust. In response, the Trust has subsequently closed Newton 4 and replaced it with two separate units for acute stroke and stroke rehabilitation. General

medical admissions to the ward also ceased immediately. As a result, CQC have not taken immediate enforcement action, although inspectors will be making another unannounced visit to check that this action has had a real impact on improving care and that problems do not emerge elsewhere.

CQC inspectors also revisited James Paget University Hospitals NHS Foundation Trust in September - having originally identified moderate concerns around both dignity and nutrition. They found people not being given appropriate support to eat and drink, and that people in need of intravenous fluids did not have infusions. As a result, a warning notice has been issued to James Paget which demands that the trust makes swift improvement or face serious consequences, which could include prosecution or restriction of services.

The key themes observed in hospitals that were failing to meet the essential standard relating to dignity ('respecting and involving people who use services') were:

- Call bells put out of people's reach or not responded to in a reasonable time
- Staff speaking to people in a condescending or dismissive way
- Curtains not properly closed when personal care was given to people in bed
- Comments from patients and staff that there were not enough staff with the right training on duty to spend time giving care

The key themes observed in hospitals that were failing to meet the essential standard relating to nutrition ('meeting nutritional needs') were:

- People not given the help they needed to eat, meaning they struggled to eat or were physically unable to eat meals
- People interrupted during meals and having to leave their food unfinished
- People's needs not assessed properly, which meant they didn't always get the care they needed – for example, specialist diets
- Records of food and drink not kept accurately so progress was not monitored
- Patients not able to clean their hands before meals

Commenting on the report, Dame Jo Williams, chair of CQC said: "Too often, our inspectors saw the delivery of care treated as a task that needed to be completed. Those responsible for the training and development of staff, particularly in nursing, need to look long and hard at why the focus has become the unit of work, rather than the person who needs to be looked after - and how this can be changed.

"Care professionals need to strike the right balance between ensuring that people get the care they need in a safe way – recording how much they have eaten and drunk, what medications they have taken and when – while not prioritising processes over people. Task-focused care is not person-centred care. Often, what is needed is kindness and compassion...which cost nothing."

The report identifies three underlying conditions that can lead to poor care:

## **Leadership**

It was clear that in some hospitals unacceptable care had been allowed to become the norm. Leaders in hospitals must create a culture in which good care can flourish; boards of governors, chief executives, senior managers, health professionals and those who manage teams of nurses and healthcare assistants should foster an environment in which care staff understand the importance of dignity and good nutrition, and are supported to deliver this.

## **Staff attitudes**

Staff attitudes, and the training and management that nurture them, are critical. CQC inspectors saw too many cases where patients were treated by staff in a way that stripped them of their dignity and respect. People were spoken over, or not spoken to; people were left without call bells, ignored for hours on end, or not given assistance to do very basic things – to eat, drink, or go to the toilet.

## **Resources**

Having plenty of staff does not guarantee good care - inspectors saw unacceptable care on well-staffed wards, and excellent care on understaffed ones – but not having enough staff increases the risk of poor care. The best nurses and doctors can find themselves delivering care that falls below essential standards because they are overstretched. Staff must have the right support if they are to deliver high-quality care that is clinically effective. In the current economic climate this is harder to deliver; but hospital management must ensure that budgets are used wisely to support front line care staff.

Dame Jo Williams concluded: “The fact that over half of hospitals were falling short to some degree in the basic care they provided to older people is truly alarming, and deeply disappointing.

“This report must result in action. CQC will play its part by holding hospitals to account for poor care when we find it – our survey of trusts suggests many are already responding. But the system as a whole – those who are responsible for making sure care meets essential standards, and those who commission that care – must respond if we are not to find ourselves here, yet again, a few years down the line.”

The 100 inspections employed a collaborative approach, with CQC inspectors accompanied by a practising nurse and an ‘expert by experience’ (a person with direct experience of care services). We also worked closely with an external advisory group of key stakeholders throughout the process.

We sent a short survey to the trusts we visited as part of the inspection programme to evaluate the impact of the process. Three-quarters of them responded saying they had made changes to the way they looked at dignity and nutrition as a result of the

inspection programme. Impressively, 74 per cent agreed that the judgements were fair - despite many of the judgments being negative - and only six per cent disagreed.

-ends-

## Notes to editors

The individual inspection reports on every hospital inspected as part of the programme are available from the CQC website.

- [Find the inspection reports](#)

The national report is also available on our website.

- [Download the national report](#)

The 'Dignity and Nutrition' inspection programme was launched in response to a request by the Secretary of State following a report by the Patients Association. The inspection programme also addressed issues raised in the Parliamentary and Health Service Ombudsman's report and Age UK's 'Hungry to be Heard' campaign. It provides a snapshot of the quality of care that older people are receiving in hospitals; more reports will be published throughout the summer, with an overarching report looking at the findings of the programme published in the autumn.
