

MAFHI/02/10

Committee Mid Area Forum - Health Inequalities Across Mid-Essex Scrutiny Task and Finish Group

Date 8 September 2010

Further evidence from NHS Mid Essex

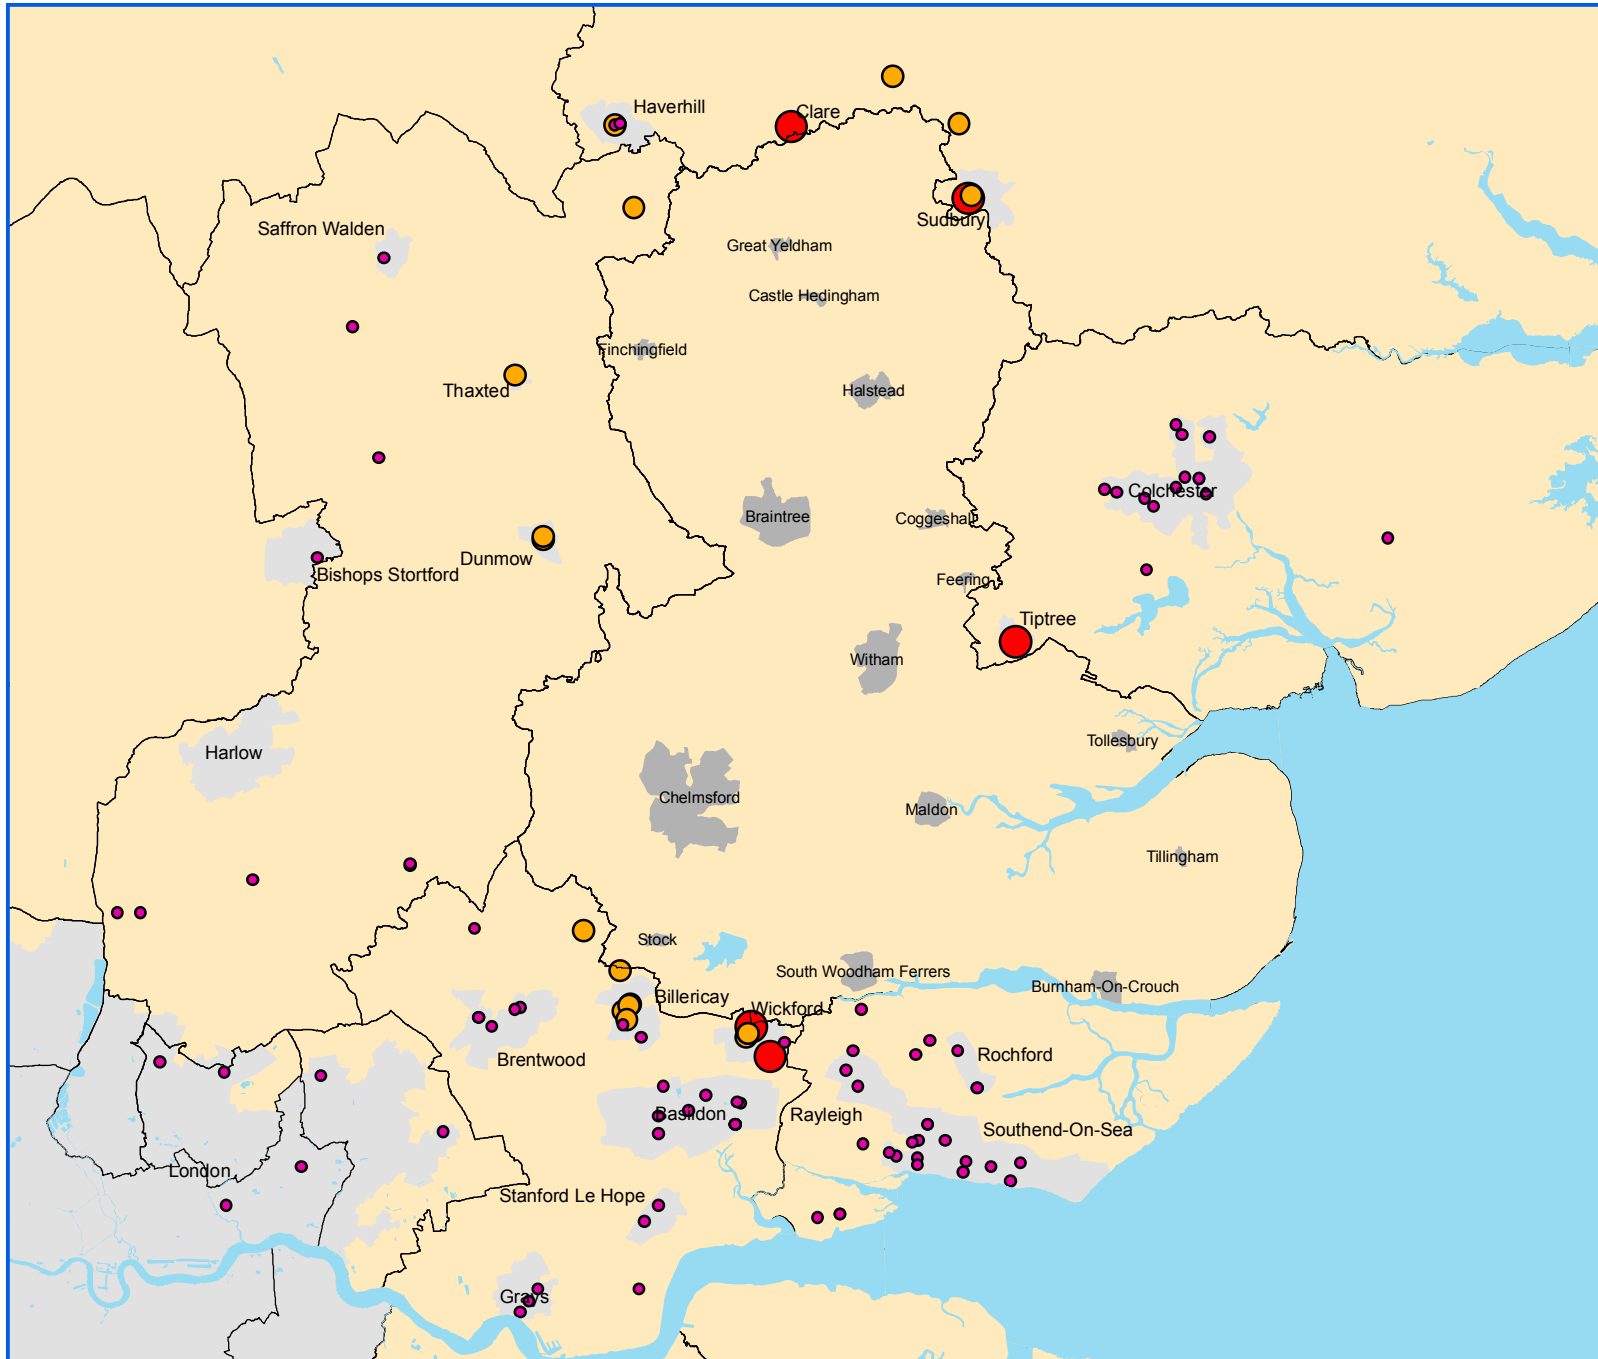

Attached is a map provided by NHS Mid Essex in response to questions at the previous meeting of the Task and Finish Group. The map shows GP Practices Outside Mid Essex with Patients Resident in the NHS Mid Essex Boundary.

With regard to the mapping of the "other " referrals against areas of deprivation NHS Mid Essex advise that this will not provide any consistent evidence about the relationship of deprivation with number of referrals due to those other sources being predominantly dentists and opticians

An oral update will be given on other issues and questions raised at the last meeting.

Jane Richards, Assistant Director of Public Health (*Health Improvement & Health Inequalities*), NHS Mid Essex will be in attendance at the meeting.

GP Practices Outside Mid Essex with Patients Resident in the NHS Mid Essex Boundary

Number of Patients

- 100 or fewer
- 101 - 1,000
- 1,001 or more

NHS Organisation Boundaries

The locations of GP Practices outside of the NHS Mid Essex Boundary which have registered patients who have a resident address within the NHS Mid Essex boundary. The Practices are symbolised on a graduated scale to depict the number of NHS Mid Essex residents registered as patients.
