04/10/2023	22/11/2023	Stephen Robinson	Cllr Tom Cunningham	Parking enforcement: what steps will the Cabinet Member take to ensure that TROs are in place to prevent petrol/diesel vehicles from parking in EV charging spaces?	Firstly, please accept my sincere apologies for the delay in responding to this query which was initially sent to Cllr Scott. It appears there was an issue that resulted in the query not being received. Parking enforcement is not carried out by ECC, but instead is done so through our Parking Partnerships NEPP and SEPP, who would also be responsible for the application of any relevant TRO's.
