

Essex County Council

## Corporate Policy and Scrutiny

10:15	Thursday, 27 January 2022	Council Chamber County Hall, Chelmsford, CM1 1QH
-------	------------------------------	---

**For information about the meeting please ask for:**

Graham Hughes, Senior Democratic Services Officer

**Telephone:** 033301 34574

**Email:** democratic.services@essex.gov.uk

### Essex County Council and Committees Information

All Council and Committee Meetings are held in public unless the business is exempt in accordance with the requirements of the Local Government Act 1972.

Members of the public will be able to view and listen to any items on the agenda unless the Committee has resolved to exclude the press and public from the meeting as a result of the likely disclosure of exempt information as defined by Schedule 12A to the Local Government Act 1972.

#### ECC Guest Wifi

For members of the public, you can now access free wifi in County Hall.

- Please log in to 'ECC Guest'
- Follow the instructions on your web browser

#### Attendance at meetings

Most meetings are held at County Hall, Chelmsford, CM1 1LX. [A map and directions to County Hall can be found on our website.](#)

#### Access to the meeting and reasonable adjustments

County Hall is accessible via ramped access to the building for people with physical disabilities. The Council Chamber is accessible by lift located on the first and second floors of County Hall. However, access and space for the public is extremely limited due to COVID secure requirements.

Induction loop facilities are available in most Meeting Rooms. Specialist headsets are available from Reception.

#### Accessing Documents

If you have a need for documents in, large print, Braille, electronically or in alternative languages and easy read please contact the Democratic Services Officer before the meeting takes place. For further information about how you can access this meeting, contact the Democratic Services Officer.

The agenda is also available on the Essex County Council website, [www.essex.gov.uk](http://www.essex.gov.uk). From the Home Page, click on 'Running the council', then on 'How decisions are made', then 'council meetings calendar'. Finally, select the relevant committee from the calendar of meetings.

### **Audio recording of meetings**

Please note that in the interests of improving access to the Council's meetings, a sound recording is made of the public parts of many of the Council's Committees. The Chairman will make an announcement at the start of the meeting if it is being recorded.

We are experimentally streaming some meetings on the [ECC Democracy YouTube Channel](#). You may wish to see if this meeting is being streamed but please remember that this is an experimental service. There is also an [audio broadcast accessible via our website](#).

If you are unable to attend and wish to see if the recording is available, you can visit the ECC Democracy YouTube Channel or, for the audio recording check the [Calendar of Meetings](#) any time after the meeting starts. Any audio available can be accessed via the box in the centre of the page, or the links immediately below it.

Should you wish to record the meeting, please contact the officer shown on the agenda front page.

### **Pages**

**\*\***

#### **Private Pre-Meeting for CPSC Members Only**

Please note that there will be a private pre-meeting for committee members on Wednesday 26 January 2022 at 4.00pm via Zoom.

**1**

#### **Membership, Apologies, Substitutions and Declarations of Interest**

**5 - 5**

**2**

#### **Minutes: 8 December 2021**

To approve as a correct record the minutes of the meeting held on 8 December 2021 and consider matters arising.

**6 - 14**

- 3 Questions from the Public**  
A period of up to 15 minutes will be allowed for members of the public to ask questions or make representations on any item on the agenda for this meeting.  
Please note that members of the public wishing to ask a question must email [democratic.services@essex.gov.uk](mailto:democratic.services@essex.gov.uk) by noon on the day before the meeting (Wednesday 26 January 2022) and that questions must relate to an item on the agenda for the meeting.

### **Exempt Items**

(During consideration of these items the meeting is not likely to be open to the press and public)

The following items of business have not been published on the grounds that they involve the likely disclosure of exempt information falling within Part I of Schedule 12A of the Local Government Act 1972. Members are asked to consider whether or not the press and public should be excluded during the consideration of these items. If so it will be necessary for the meeting to pass a formal resolution:

**That the press and public are excluded from the meeting during the consideration of the remaining items of business on the grounds that they involve the likely disclosure of exempt information falling within Schedule 12A to the Local Government Act 1972, the specific paragraph(s) of Schedule 12A engaged being set out in the report or appendix relating to that item of business.**

**10            Urgent Exempt Business**

To consider in private any other matter which in the opinion of the Chairman should be considered by reason of special circumstances (to be specified) as a matter of urgency.

## Agenda item 1

**Committee:** Corporate Policy and Scrutiny Committee

**Enquiries to:** Graham Hughes, Senior Democratic Services Officer

### Membership, Apologies, Substitutions and Declarations of Interest

#### Recommendations:

To note

1. Membership as shown below
2. Apologies and substitutions
3. Declarations of interest to be made by Members in accordance with the Members' Code of Conduct

#### Membership (Quorum: 4)

Councillor C Pond	Chairman
Councillor T Cunningham	
Councillor J Fleming	
Councillor P Gadd	
Councillor M Garnett	
Councillor I Henderson	
Councillor S Kane	
Councillor D Land	
Councillor M Mackrory	Vice-Chairman
Councillor A McQuiggan	
Councillor C Siddall	
Councillor M Steptoe	Vice-Chairman
Councillor M Vance	
Councillor A Wiles	

---

**Minutes of the meeting of the Corporate Policy and Scrutiny Committee, held at 10am on Wednesday, 8 December 2021 in the Council Chamber, County Hall, Chelmsford.**

**Present:**

*County Councillors:*

M Mackrory (Vice Chairman - in the Chair)

T Cunningham

P Gadd

I Henderson

S Kane

D Land

A McQuiggan

M Steptoe (Vice Chairman)

M Vance

A Wiles

Richard Buttress, Democratic Services Manager, and Graham Hughes, Senior Democratic Services Officer, were also present. Councillor Pond also participated in the meeting via Zoom until 11.05am.

**1 Membership, Apologies, Substitutions and Declarations of Interest**

The report on Membership, Apologies, Substitutions and Declarations was received and noted.

Apologies for absence had been received from Councillors, Fleming, Garnett and Siddall. Councillor Pond was unable to attend in-person and joined the meeting remotely.

**2. Minutes**

The notes of the meeting held on 30 September 2021 were approved as a true record and signed by the Chairman of the meeting.

**4. Questions from the public**

There were no questions from the public.

**5. 2021/22 Financial Overview as at the Half year Stage and Budget Setting Process**

The Committee considered report CPSC/15/2021 comprising the 2021/22 Half Year Financial report presented to Cabinet on 15 October 2021, an overview of the budget process for 2022/23, including how the budget was

built, the Comprehensive Spending Review headlines, and outlining the uncertainty driving the medium term.

The following people from Essex County Council joined the meeting to introduce the item and respond to questions:

Councillor Christopher Whitbread, Cabinet Member for Finance, Resources and Corporate Affairs;  
Stephanie Mitchener – Director of Finance

The process for setting the 2022/23 budget and the medium-term resource strategy had been underway since the beginning of the financial year. The final budget for 2022/23 would be presented to Cabinet in January, followed by Full Council in February 2022.

During questioning and discussion, the following was acknowledged, highlighted and/or noted:

- (i) Currently, the provisional settlement from Government was outstanding which prevented the budget being finalised. The Council was required to set a balanced budget. Once the council were able to fully understand the budget cost drivers and compare them to expected income then a political discussion would finalise approach, review efficiencies needed, consider different choices, encourage innovation and then determine the level of council tax.
- (ii) The budget and Medium-Term Resource Strategy (MTRS) was based on the current year forecast and identified expenditure and income cost drivers. In terms of gap modelling for the MTRS, the scenarios and processes identified at the time of the current year budget approval in February 2021 remained appropriate.
- (iii) £46 million of savings had been identified in 2021/22 with £6.8 million at risk of non-delivery. It was stressed that this was not an uncommon position to be in at a half year stage of a budget process and that it was expected to be able to report further progress against that gap at the time of the third quarter financial outturn.
- (iv) There was a full year forecast revenue under spend of £3.9m (0.4% against a net budget of £1bn). The overall under spend position was predominantly driven by Adult Social Care and Health, where there were lower volumes compared to budget assumptions for both cash payments and nursing placements, partially offset by increasing volumes of residential and domiciliary care packages.
- (v) ECC had received windfall funding, which had been unbudgeted, of £3.1 million from Health to support hospital discharge.

- 
- (vi) There was a capital underspend of £4.6million (1.5%) against the latest budget of £300 million.
  - (vii) The current financial impact of the pandemic was estimated to be in the region of £100 million of spending pressures and income losses.
  - (viii) Total COVID grant funding available from 2021/22 grants and 2020/21 carry forwards was currently around **£120m**, although new grants continued to be announced. However, given the level of uncertainty around ongoing restrictions and the unquantified risks faced, there could be further cost pressures and income losses that materialise in the remaining months of the year or carry on into future financial years.
  - (ix) Under the current budget planning scenarios, the highest risk was government funding. The provisional government settlement for 2022/23 was due in December. The settlement would confirm referendum principles and social care precept for the forthcoming year as well as also confirming grant levels. ECC had been hoping for a three-year Government funding settlement but were not now expecting the provisional Government settlement to include this and that there were some indications that would be a one-year settlement. It was expected that the referendum threshold would be 2% and the social care levy of 1%.
  - (x) The Comprehensive Spending Review had not changed any current grant assumptions.
  - (xi) It was expected that ECC's increased national insurance employer contributions would be funded by Government grant and that assumption had been included in budget modelling. There was no indication that there would be financial support from Government for service providers to local government and it was expected that those costs would eventually be passported to ECC. The increase in National Living Wage would also have an impact.
  - (xii) 70% of ECC's total funding came from Council Tax (over £700 million a year). The remainder came from redistributed business rates and a small amount of approximately £100m came from fees and charges with approximately £90million in relation to Adult Social Care.
  - (xiii) The impact of inflation on the budget was primarily contract driven and increased costs for providers could be passported to ECC. For example, increased provider costs were part driven by positive changes in the level of national living wage.

- (xiv) The Government Public Health grant was to be maintained in real terms. There was no top-up from ECC.
- (xv) The impact of the ending of Government furlough support/rates support scheme and any potential unemployment impact on tax base was uncertain.
- (xvi) Adult Social Care was the largest cost component of the budget. The potential escalation of the cost of care was probably one of most significant risks to the budget although, in the short term, there was some resilience and mitigation available through the Adults Risk Reserve but this was very limited. There were also some significant demand pressures.
- (xvii) The publication of the White Paper on social care was awaited and although some headline numbers had been announced there was no insight on detailed expectations or local allocations.
- (xviii) ECC continued to evaluate the impact of the increasing cost of borrowing. If interest rates changed significantly then that could have a material impact.
- (xix) There was a property investment portfolio which had been frozen over the last couple of years to ascertain the impact of the pandemic and proposals for changes to government regulation in the area. There had been a positive internal audit opinion on the current ECC approach. The Cabinet Member offered to bring a more detailed report on commercial investments to a future meeting of the Committee.
- (xx) A reserve had been established in connection with meeting the actions arising from the recent Climate Commission report and recommendations.
- (xxi) An Everyone's Essex reserve had been created by consolidating three different reserves. Some members queried whether this impacted on being able to meet the original purposes of those three separate reserves.

Conclusion:

It was **agreed** that:

- (i) To bring more finalised 2022/23 budget proposals to the scheduled Thursday 27<sup>th</sup> January 2022 meeting of the Committee (ahead of February Full Council).

- (ii) Provide a further progress update on savings being delivered against the targets set in the MTRS. This would be included as part of the third quarter outturn update at the next meeting.
- (iii) Whilst acknowledging that some detail on concurrent savings and one-off savings had been included in the Budget setting agenda papers, this would be further broken-down for the Committee.
- (iv) Further detail to be provided on the reprofiling of expenditure and over-spend in the Highways Maintenance and Sustainable Transport account relating to 3-year delivery programme for Local Highways Panels.
- (v) That a future more detailed agenda item on reserves and provisioning be scheduled.
- (vi) Further detail to be provided about the impact of the proposed CIPFA / Government restrictions on property investments, the level of provisioning required and its impact on the 2022/23 budget.

The witnesses were thanked for their attendance and left the meeting.

## **6. Work Programme**

The Committee received report CPSC/16/21 comprising the current work programme of the Committee which was noted.

It was agreed:

- (i) that the following items would be added to the work programme:
  - financing the delivery of the Climate Commission report recommendations.
  - information on the section 106 process and why some monies were not used or reallocated - particularly in relation to Health schemes.
- (ii) That a Matters Arising report proforma be developed to assist the tracking of actions agreed at meetings.

## **7. Date of Next Meeting**

It was noted that the next meeting was scheduled to be held on Thursday 27 January 2022.

There being no further business the meeting closed at 11.25am

---

<b>Report title:</b> 2021/22 Financial Overview as at the Third Quarter and 2022/23 Everyone's Essex Annual Plan and Budget 2022/23	
<b>Report to:</b> Corporate Policy and Scrutiny Committee	
<b>Report author:</b> Cllr Christopher Whitbread, Cabinet Member for Finance, Resources and Corporate Affairs	
<b>Date:</b> 27 January 2022	<b>For:</b> Consideration
<b>Enquiries to:</b> Nicole Wood, Executive Director, Corporate Services <a href="mailto:nicole.wood@essex.gov.uk">nicole.wood@essex.gov.uk</a> or Adrian Osborne, Head of Strategic Finance and Insight email <a href="mailto:adrian.osborne2@essex.gov.uk">adrian.osborne2@essex.gov.uk</a>	
<b>County Divisions affected:</b> All Essex	

## **1. Purpose of report**

- 1.1 This item is to consider the 2021/22 Third Quarter Financial report, and the 2022/23 Everyone's Essex Annual Plan and Budget as presented to Cabinet on 18<sup>th</sup> January 2022.

## **2 Background**

- 2.1 The Council presented its Third Quarter Financial position for 2021/22 to January Cabinet. At this stage of the year there is a forecast under spend of £5.8m (0.6%), against a net revenue budget of £1bn. For the Capital Programme there is an under spend £58.9m (20%) on the capital programme against a budget of £295.4m.
- 2.2 The final budget for 2022/23 was presented to January Cabinet. It proposes a 2022/23 revenue budget of £1,083m, and a capital programme of £283.6m, and will be taken to Full Council in February.

## **3 2021/22 Third Quarter Report**

- 3.1 As we move towards the final quarter of the financial year the Council faces increasing risks and challenges. The rate of inflation continues to rise, and is predicted to increase further. This will have a much greater impact from 2022/23 as we renew contracts notably across care and energy. Alongside this the December interest rate rise by the Bank of England and potential further rate rises in the future could put pressure on the revenue cost of borrowing for the capital programme.
- 3.2 There is a full year forecast under spend of £5.8m (0.6% against a net budget of £1bn). The overall under spend position is driven by under spends across portfolios and an improved Funding position, as a result of greater certainty in the level of grant to be received from government for the Tax Income Guarantee scheme

- 3.3 The Council has continued to be proactive in its response to Covid-19. Known costs are in the region of £120m for 2021/22 or an additional 6% of planned expenditure, and we have sufficient funding for this. Should the current situation surrounding the pandemic deteriorate further, this funding position will be re-evaluated.
- 3.4 Over 60% of our Covid-19 costs have been met through the use of specific government grants. The remainder will continue to be funded via the balance sheet and the Covid Equalisation reserve, which is retained to meet the higher costs we face. To date in 2021/22 £11.1m has been drawn down from the Covid Equalisation Reserve to support Covid-19 pressures and income losses. There are a further £1.2m of approvals sought in this report from the reserve.
- 3.5 It is currently forecast that the full 2021/22 savings programme of £46m will be fully delivered by year end.
- 3.6 £10.3m of approvals were sought in the Third Quarter report to appropriate under spends to the Carry Forward Reserve to support the 2022/23 budget and specific risks. The opportunity to utilise under spends in the current financial year to support specific purposes in future years will continue to be considered for the remainder of the financial year.
- 3.7 The Capital Programme has a forecast under spend of £58.9m against the latest budget of £295.4m. This has been driven by a relatively small number of schemes, predominantly for reasons outside of the Councils control. After taking account of the budget change adjustments set out in the Half Year report, there is a small residual over spend of £205,000. The budget change adjustments are summarised as follows:
- Slippage of £56.8m
  - Budget additions of £7.6m
  - Budget reductions of £10.1m
  - Advanced works of £226,000

## **4 2022/23 Everyone's Essex Annual Plan and Budget**

- 4.1 The final budget for 2022/23 and a refreshed medium term resource strategy were presented to Cabinet in January. This recommended the revenue budget for 2022/23 at £1,083m, an increase of £45m (4%) from the 2021/22 original budget. This will enable delivery of the Council's statutory requirements, political priorities and Annual Plan and therefore achieve the Everyone's Essex Strategic Aims.
- 4.2 The 2022/23 capital programme has been set at £283.6m, and the current 4-year view of the programme to 2025/26 totals £1,315m. The longer-term capital programme aspirations remain significant, and it is recognised that investments are essential to meet future needs, generate additional income,

including capital receipts, and deliver revenue savings and reductions in costs.

- 4.3 The budget assumes £36m of savings to arrive at balance for 2022/23. Of these £32m are recurrent and £4m are one off savings. These include continuation of the Meaningful Lives Matter Programme supporting adults with learning difficulties, which is now in its second year, the ongoing Connect Programme that will continue to ensure the most appropriate support is offered to older people going into and leaving hospital, making better use of technology solutions in provision of care, improvements and efficiencies within the Essex Highways partnership, and more efficient use of our buildings.
- 4.4 The budget for 2022/23 has proposed a total council tax increase of 4.49%. This is made up of a 1.99% general council tax uplift, and 1% adult social care precept as set out by Government for 2022/23, plus an additional 1.5% adult social care precept, deferred from 2021/22 using the flexibility set out by Government for 2021/22. The precept is being used to insulate Adult Social Care from higher savings, and support growth in demographics and inflation. Taking these increases into account, the council tax for a band D property will be £1,401.12; this is an increase of £60.21 per year or £1.16 per household per week.
- 4.5 The medium range scenario for future years indicates a gap between the Council's expected funding streams and the Council's expenditure. After delivering 100% of all existing planned savings, the gap is expected to be £24m in 2023/24, rising to £119m by 2025/26, before further tax rises. The outlook for the authority is set out below, however this mid-range scenario is likely to change given the context of Fair Funding Reform for local government from 2023/24

- 4.6 As part of the presentation to the Committee further detail on changes to Portfolio budgets will be set out, as well as the pressures driving the budget, the current risk environment, and the options and choices we face to close the medium-term budget gap.

## 5 List of Appendices

- 2021-22 Financial Overview as at the Third Quarter Stage (FP/013/03/21)
- Everyone's Essex Annual Plan and Budget 2022-23 - Part 1 S151 Officer Report (FP/015/03/21)

  - Appendix A – Everyone's Essex Annual Plan and Budget 2022/23
  - Appendix B – Equality Impact Assessment 2022-23
  - Appendix C – Pay Policy Statement
  - Appendix D – Budget Consultation Report
  - Appendix E – Flexible Use of Capital Receipts Strategy Update

**Forward Plan Reference Number: FP/013/03/21**

<b>Report title:</b> 2021/22 - Financial Overview as at the Third Quarter Stage	
<b>Report to:</b> Cabinet	
<b>Report author:</b> Councillor Christopher Whitbread, Cabinet Member for Finance, Resources and Corporate Affairs	
<b>Date:</b> 18 January 2022	<b>For:</b> Decision
<b>Enquiries to:</b> Nicole Wood, Executive Director, Corporate Services <a href="mailto:nicole.wood@essex.gov.uk">nicole.wood@essex.gov.uk</a> or Adrian Osborne, Head of Strategic Finance and Insight email <a href="mailto:adrian.osborne2@essex.gov.uk">adrian.osborne2@essex.gov.uk</a>	
<b>County Divisions affected:</b> All Essex	

## 1. Everyone's Essex

- 1.1 The purpose of this report is to set out the current forecast financial position of Essex County Council's (ECC) revenue and capital budgets as at the third quarter stage of the 2021/22 financial year. The report will highlight that whilst there is a forecast small revenue under spend, the overall outlook remains very challenging and volatile, notably with demand pressures across social care, market volatility and rising inflation.
- 1.2 Despite the challenge the focus remains on prioritising resources to achieve the strategic aims outlined in Everyone's Essex. In the intervening quarter resources have been prioritised from the Everyone's Essex reserve notably to target the climate agenda (£6.2m), to support the Heritage and Arts sector (£1.6m) and for the financial wellbeing programme and community challenge fund (£1.1m).
- 1.3 There is a forecast under spend of **£5.8m** (0.6%) against a net revenue budget of **£1,041m** (gross £2,168m). The originally approved gross budget for 2021/22 was **£2,014m**, this is now **£2,168m**, an increase in our spending base of 8%, and which will increase further as more Covid related grants from government are announced.
- 1.4 This is an increased under spend since the Quarter 2 report of **£2m**. **The reasons for this movement are set out in section 5**. The overall under spend position is driven by an improved forecast Funding position due to an improved council tax overall position and minor under spends across portfolios.
- 1.5 While there is a minor under spend forecast, the outlook is volatile. We do not yet know the impact of the winter and potential surges in Covid-19 cases and discharge notably on Adult Social Care.

- 1.6 We have continued to receive further funding from Government since the previous quarter, for example the Adult Social Care Workforce Retention and Recruitment Fund (estimated circa £11m) and the Household Support Fund (£9.5m). We estimate our known Covid-19 related costs to be circa £120m for 2021/22, and the funding received from Government to date is adequate to meet this.
- 1.7 There is an under spend of **£58.9m** (20%) on the capital programme against the current budget of **£295.4m**. **This has been driven by a relatively small number of schemes, predominantly for reasons outside of the Councils control.** After taking account of budget change requests in this report there will be a small residual over spend of **£205,000**.

## 2. Recommendations

Approval is sought for the following:

- 2.1 To draw down funds from reserves as follows:
- i. **£383,000** from the Covid Equalisation Reserve to the Education Excellence, Life Long Learning and Employability portfolio due to pressures from reduced number of school attendance and absence penalty notices issued (**£253,000**) and reduced Adult Community Learning (ACL) tuition fees (**£130,000**) (section 5.7.ii)
  - ii. **£360,000** from the Covid Equalisation Reserve to the Community, Equality, Partnerships and Performance portfolio to support Covid-19 related income shortfalls within the Library service (section 5.3.iii)
  - iii. **£317,000** from the Covid Equalisation Reserve to the Children's Services and Early Years portfolio relating to pandemic related pressure on the equipment budget (**£215,000**) and additional Personal Allowance for care leavers (**£101,000**) (section 5.2.iv)
  - iv. **£209,000** from the Quadrennial Elections Reserve to the Finance, Resources and Corporate Affairs RSSS portfolio relating to costs of the May 2021 elections (section 5.15.iii)
  - v. **£127,000** from the Covid Equalisation Reserve to the Leader RSSS portfolio due to publications and promotions costs relating to Covid-19 within Communications and Marketing (section 15.16.iii)
  - vi. **£38,000** from the Bursary for Trainee Carers Reserve to the Education Excellence, Life Long Learning and Employability portfolio to ACL in respect of the Nightingale project (section 5.7.ii)

- vii. **£16,000** from the Covid Equalisation Reserve to the Finance, Resources and Corporate Affairs RSSS portfolio to cover additional staff within the HR Service Centre due to the pandemic (section 5.15.iii)
- viii. **£5,000** from the Everyone's Essex Reserve to the Finance, Resources and Corporate Affairs RSSS portfolio relating to a charitable contribution to Harwich Kindertransport (section 5.15.iii)

2.2 To appropriate funds to reserves as follows:

- i. **£10.3m** to the Carry Forward Reserve from the portfolios outlined below, to support the 2022/23 budget as detailed in section 5.

Portfolio	Amount £000
Adult Social Care and Health	5,500
Highways Maintenance and Sustainable Transport	1,900
Finance, Resources and Corporate Affairs RSSS	1,241
Other Operating Costs	837
Children's Services and Early Years	650
Leader RSSS	85
Community, Equality, Partnerships and Performance RSSS	70
<b>Q3 Carry Forward Request Total</b>	<b>10,283</b>

- ii. **£2m** to the Adults Transformation Reserve from the Adult Social Care and Health portfolio to support new burdens preparation costs (section 5.1.ix)
- iii. **£1.5m** to the Reserve for Future Capital Funding from Other Operating Costs in relation to interest rate risk (section 5.12.iv)
- iv. **£992,000** to the Technology and Digitisation Reserve from the Finance, Resources and Corporate Affairs RSSS portfolio for use in 2022/23 to support various projects (section 5.15.iii)
- v. **£853,000** to the Collection Fund Risk Reserve from the Finance, Resources and Corporate Affairs portfolio to support council tax funding deficits in future years (section 5.8.iv)
- vi. **£479,000** to be returned to the Covid Equalisation Reserve from the Community, Equality, Partnerships and Performance RSSS portfolio, due to an improved income position within Essex Outdoors (section 5.13.iii).

2.3 To approve the following adjustments:

- i. To create a new **Children's Risk Reserve** to set aside resources to help manage unbudgeted price and demand pressures that may arise from the changing landscape of Children's services
- ii. To rename the Technology Solutions Reserve to the **Technology and Digitisation Reserve** with the revised purpose to set aside resources to meet the future cost of replacing key council technology systems and the digitisation of public services
- iii. Vire **£439,000** within the Devolution, the Arts, Heritage and Culture Portfolio to realign the staffing budgets following the Organisational Redesign that has been undertaken within Culture & Green Space (section 5.4.iii)
- iv. Vire **£239,000** within the Highways Maintenance and Sustainable Transport portfolio to align with staffing movement from Essex Highways to Essex Highways Commissioning (section 5.9.ii)
- v. Vire **£85,000** from the Leader RSSS portfolio to the Community, Equality, Partnerships and Performance RSSS portfolio (**£65,000**) and Leader portfolio (**£20,000**) to realign under spends to support the carry forward request for Communications and Marketing (sections 5.16.iii, 5.13.iii & 5.10.ii)
- vi. Vire **£76,000** within the Finance, Resources and Corporate Affairs RSSS portfolio from Executive Director to Procurement in order to support interim staffing working on service change projects (section 5.15.iii)
- vii. Vire **£42,000** from the Finance, Resources and Corporate Affairs portfolio to the Finance, Resources and Corporate Affairs RSSS portfolio in order to correct Staff pay inflation within the Pension service (section 5.8.iv & 5.15.iii)
- viii. To draw down the following into 2022/23. These have been previously approved but not drawn down within the approved timescale (financial regulation 4.3.4). New approval is therefore sought:
  - **£293,000** from the Transformation Reserve to the Finance, Resources and Corporate Affairs RSSS portfolio relating to the delivery of the Workforce Strategy CMA FP/271/10/18 (section 5.15.iii)
  - **£1.794m** from the Covid Equalisation Reserve to the Community, Equality, Partnerships and Performance RSSS portfolio relating to Transformation Delivery Resourcing CMA FP/880/11/20 (section 5.13.iii)
- ix. To amend the capital budget as shown in Appendices C (i) and C (ii) which allows for capital slippage of **£56.8m**, capital budget additions of

**£7.6m**, capital budget reductions of **£10.1m** and advanced works of **£226,000** (see section 7.2).

### **3. Executive Summary: Revenue**

- 3.1 Appendix A summarises the revenue budgets and forecast outturn for each portfolio. There is a full year forecast under spend of **£5.8m (0.6%** against a net budget of **£1bn)**. The overall under spend position is driven by under spends across portfolios and an improved Funding position, as a result of greater certainty in the level of grant to be received from government for the Tax Income Guarantee scheme.
- 3.2 As we move towards the final quarter of the financial year the Council faces increasing risks and challenges. The rate of inflation continues to rise, and is predicted to increase further. This will have a much greater impact from 2022/23 as we renew contracts notably across care and energy. Alongside this the December interest rate rise by the Bank of England and potential further rate rises in the future could put pressure on the revenue cost of borrowing for the capital programme.
- 3.3 The Council has continued to be proactive in its response to Covid-19. Known costs are in the region of £120m for 2021/22 or an additional 6% of planned expenditure, and we have sufficient funding for this. Should the current situation surrounding the pandemic deteriorate further, this funding position will be re-evaluated.
- 3.4 Over 60% of our Covid-19 costs have been met through the use of specific government grants. The remainder will continue to be funded via the balance sheet and the Covid Equalisation reserve, which we retain to meet the higher costs we face. To date in 2021/22 **£11.1m** has been drawn down from the Covid Equalisation Reserve to support Covid-19 pressures and income losses. There are a further **£1.2m** of approvals sought in this report from the reserve. There is also an appropriation back to this reserve of **£479,000** relating to funding no longer required to compensate for lost income, due to an improved financial position within Essex Outdoors. Further drawdowns from the Covid Equalisation Reserve will be requested as part of the Provisional Outturn report, as well as through individual decisions.
- 3.5 With the end of the Government's Coronavirus Job Retention scheme on 30 September 2021, we are mindful that the 2022/23 Council Tax base could be negatively impacted by unemployment in the early part of 2022, which could result in a significant funding reduction for the Council. We currently assume a return to pre-pandemic growth of 1% per annum in the tax base for 2022/23. This will be monitored closely throughout the remaining months of the year and into 2022/23.
- 3.6 The revenue position is built on a budgeted savings programme of £46m and the current forecast for year end is the programme will be fully delivered.

Continued focus and delivery upon savings, efficiencies and income remains critical to financial sustainability for both the current year and future years budgets.

- 3.7 The position reported in section 5 is written on the assumption that the recommendations in sections 2.1 to 2.3 of this report are approved.

#### **4. Executive Summary: Capital**

- 4.1 The original capital programme for 2021/22 as set by Full Council in February 2021 was **£290.3m**. The forecast outturn is **£236.5m**, before adjustments proposed within this report. This represents an under spend of **£58.9m (20%)** against the latest budget of **£295.4m**. After taking account of budget change requests in this report, there is a residual over spend of **£205,000**. More detail is set out in Section 7.

- 4.2 The **£58.9m** under spend in the Capital Programme position relates to the following requests in this report:

- Slippage: **£56.8m**
- Additions: **£7.6m**
- Reductions: **£10.1m**
- Advanced Works: **£226,000**

The nature, size and complexity of the schemes within the capital programme are changing. Significant movement has been driven by a relatively small number of schemes with the primary reasons for this movement being complex land negotiations, delays with planning determinations and impact of Covid-19; most of which are outside of the Council's control. Around 70% of the schemes being slipped are funded from external sources.

- 4.3 Appendix C (i) summarises current year forecasts and changes to the Capital Programme for 2021/22 since approval of the original programme in the Budget Report to Council in February 2021. Appendix C (ii) contains the detail of the budget adjustments seeking approval.

#### **5. Revenue Position**

##### **5.1 Adult Social Care and Health – £2.1m (0.5%) under spend**

- i. The Adult Social Care portfolio budget is the area most materially impacted by Covid-19 across the Council during 2021/22. The original approved budget was £699m gross, and with additional Covid-19 monies is forecast to be £740m. Whilst there is a small under spend of 0.5% on the revised budgeted position, there has overall been significantly greater spend on the portfolio than originally budgeted of £47.8m due to Covid-19 related expenditure. It is also the case that it is difficult to predict the full

year position before the extent of winter pressures and Covid-19 surges occur.

- ii. It is important to understand the current position in context of the significantly heightening financial risks facing the portfolio due to market capacity and workforce pressures, volatile demand, inflation and cost of care escalation as well as NI rises from 1st April.
- iii. Adult Social Care continues to meet the significant impact of the Covid-19 pandemic. In particular, the consequences of paused work and backlog on teams, and of reviews and assessments, changing demographic projections and the demand for services. The majority of funding that flows to the care market also manages the impact with both care home resident population and staff recruitment and retention a factor. It should be noted that this reported position is in the context of £14m being applied from ECC Covid specific funds and core budget, and £34m of government funds being passported directly to providers to support Covid-19 related costs in this financial year.
- iv. Public Health is forecast to spend in line with budget. Within this position are additional 'Contain Outbreak Management' funding and 'Track & Trace' funding received from Government, totalling £15.9m. At this stage, it is anticipated that all such funding will be fully spent; with the exception of **£236,000** of Contain Outbreak Management funding, which will be appropriated to the Grant Equalisation reserve in the Provisional Outturn report. This position will continue to be monitored throughout the course of the year. Central Government have also awarded ECC self-isolation grant funding of **£2.3m**. Spending plans are currently being drawn up and will be reflected in the forecast once known.
- v. There remain significant risks around the impact of Covid-19 on the cost and demand for Adult Social Care services. Any placements made on the Hospital Discharge pathway over and above the normal placement trend are claimable for up to 28 days from Health funding up until 31 March 2022, when it has been indicated that the funding will come to an end. To give an indication of scale we have received £3.4m funding from the NHS for 2021/22. The Hospital Discharge Pathway funding guidance was issued after the current year budget was agreed and therefore the monies recovered from this source are driving some of the under spend.
- vi. Within the overall forecast position reported for Adult Social Care, there are **£4m** of savings reflected as not deliverable, within a total savings programme of £25.6m, predominantly due to slippage in the Connect Programme because of Covid-19 related delays and the revised Hospital Discharge model, Choice & Control and business as usual activities in Physical and Sensory Impairment.
- vii. The overall under spend position is driven by under spends in Nursing (where less people moved over to social care from the Continuing

Healthcare cohort than was expected at budget setting) and Cash Payments (where there are lower volumes and greater levels of surplus return). There has also been an increase against budget in non-residential income (£3.3m) and receipt of unbudgeted income from Health in relation to the Hospital Discharge Pathway (£3.4m). However, this has been offset by over spends in Residential and Domiciliary Care due to increased demand. Residential volumes to date are 2.4% higher than budgeted, and 16% more hours of domiciliary care are being provided compared to January 2020.

- viii. There has been a small favourable movement from Quarter 2. This is predominantly driven by additional surplus fund returns from Cash Payment accounts, additional income from the Clinical Commissioning Group (CCG) in relation to clients on the Hospital Discharge Pathway and a reduction in the Bad Debt Provision requirement, these are all current year only changes and do not impact the assumptions included within the 2022/23 budget forecast. At Quarter 3 there is a request to carry forward **£5.5m** and appropriate **£2m** to reserves as set out below, resulting in an adjusted movement of **£1.6m**.
- ix. Approval is sought in this report for the following:
  - **£5.5m** to the Carry Forward Reserve: **£2.5m** to support staffing pressures in areas such as Adult Mental Health Practitioners (AMHPs), the Safeguarding Triage, Apprenticeships including the Nightingale Bursary and Deprivation of Liberty Safeguards (DoLS) backlog and the set aside of **£3m** to support workforce recruitment and retention in the care market
  - **£2m** to the Adults Transformation Reserve to support new burdens preparation costs expected as a result of the Adult Social Care Reform White Paper; 'People at the Heart of Care' with full implementation of the new system by October 2023 with consequent impact across assessment capacity, technology solutions and implementation costs.

## 5.2 Children's Services and Early Years:

- **Non Dedicated Schools Grant (DSG) - £724,000 (0.5%) under spend**
- **DSG - £9,000 (2.3%) over spend**
- i. The portfolio reports an overall under spend of **£715,000** of which there is an under spend of **£724,000** within Non DSG. The main driver for this under spend is a lower than budgeted client count for children with disabilities who are in care. The forecast is made up of current 32 placements when compared to a budgeted 42. The position will continue to be monitored since placements are a volatile area of spend, a small volume adjustment could have a material financial impact.
- ii. It will be proposed the forecast residual under spend will be used to support the volatility of the service in 2022/23 (particularly around potential increases in referrals following the recent nationally publicised

child abuse cases), subject to the 2022/23 budget being secure. A decision on this will be recommended in the Provisional Outturn report.

- iii. Within DSG there has been an adverse movement of **£366,000** in the Early Years Block due to the Education and Skills Funding Agency (ESFA) announcing the final adjustment for the 2020/21 financial year; a reduction of £504,000. This is partially offset by the autumn term claims for three-year-olds from early years providers being lower than anticipated. After this adjustment the forecast closing balance on the Early Years Block is a surplus of **£4.3m**.
- iv. Approval is sought in this report for the following:
  - **£650,000** to the Carry Forward Reserve for additional staff recruitment required to support newly arrived Unaccompanied Asylum Seeking Children (**£450,000**) and to support the 2022/23 Family Innovation Fund saving (**£200,000**)
  - **£317,000** from the Covid Equalisation Reserve relating to pandemic related pressure on the equipment budget (**£215,000**) and additional Personal Allowance for care leavers (**£101,000**).

### **5.3 Community, Equality, Partnerships and Performance - £198,000 (0.7%) under spend**

- i. The portfolio reports an under spend of **£198,000** which is attributable to vacancies in the Libraries and Youth Services and over achievements in income in regard to Deputyships and Emergency Planning.
- ii. This is a favourable movement of **£241,000** since the Quarter 2 report due to a reduction in planned recruitment and a request for Covid Equalisation reserve funding to mitigate income pressures in Libraries. This position is partly offset by an adverse movement in Registrations where the funding anticipated from the final Income Loss Guarantee Scheme claim was lower than previously estimated.
- iii. Approval is sought in this report for the following:
  - **£360,000** from the Covid Equalisation Reserve to offset Libraries income pressures related to the pandemic.

### **5.4 Devolution, the Arts, Heritage and Culture - £190,000 (4.2%) over spend**

- i. There is a **£190,000** forecast over spend, and an adverse movement of **£182,000** since Quarter 2.
- ii. The key driver of the over spend position is the additional security costs being incurred at one of the traveller sites to ensure the safety of both residents and ECC staff, coupled with higher than budgeted utility costs across a further four sites, totalling **£123,000**. A future strategy paper for Gypsies and Travellers is currently in progress and will be coming forward shortly. A further **£90,000** is due to the service redesign, across Leisure,

Heritage and Culture, becoming operational from 1 September where savings were budgeted to be achieved from the 1 April 2021.

- iii. Approval is sought in this report for the following:
  - Vire **£439,000** within the portfolio to realign the staffing budgets following the Organisational Redesign that has been undertaken within Culture & Green Space.

#### **5.5 Economic Renewal, Infrastructure and Planning - £26,000 (0.1%) under spend**

- i. There is a small under spend forecast of **£26,000**, which represents a favourable movement of **£109,000** since Quarter 2. Within this position the portfolio has continued to provide support for businesses throughout the pandemic by distributing Covid-19 specific grant funding and prioritising budgets to support economic recovery activity.
- ii. The favourable movement of **£109,000** is a result of two elements. The first is due to the transfer of a saving to the Highways Maintenance and Sustainable Transport portfolio where it will be delivered. The second element is a result of successful mitigation of previously reported pressures in relation to retrospective pay increases.
- iii. Before adjustments there is an underlying over spend resulting from a technical accounting treatment, previously reported to Cabinet, which does not result in a real cash impact to ECC. We must treat the accumulated capital expenditure on Essex Housing projects as abortive. The developments will be completed by Essex Housing Development LLP. The Council will transfer the housing development sites to the LLP during 2021/22 at a price that reflects the current market value of the sites and includes the pre-construction costs being treated as abortive by the Council. The Council's reserves will therefore be replenished via the sales proceeds agreed for these sites, ensuring that the Council remains in a cost neutral position overall as a result of transferring its housing development activity to the LLP. Formal approval will be sought as part of the Provisional Outturn report to Cabinet once the true cost is known.

#### **5.6 Education Excellence, Life Long Learning and Employability (Dedicated Schools Grant) - £1.6m under spend**

- i. The High Needs Block (HNB) increased by **£18.2m** for 2021/22. The HNB is forecasting a **£5.3m** in-year under spend, this will leave a **£600,000** deficit balance overall. This is a favourable movement of **£1.3m** since Quarter 2 due to:
  - A reduction in places in Independent Schools due to unexpected leavers (**£649,000**), fewer Post 16 Further Education learners than forecast (**£356,000**) and a reduction in special school residential top-up funding due to a delay in expansion of residential provision (**£239,000**)

- A reduction in the costs of educating excluded pupils (**£268,000**)
  - Staff vacancies across the service (**£119,000**)
  - A favourable movement in the import / export adjustment which increases funding (**£106,000**)
  - Partly offset by a continued increase in demand for Education, Health and Care Plans (EHCP) in mainstream schools and academies (**£463,000**)
- ii. The Central School Services Block (CSSB) is forecasting a **£3.8m** over spend, which is an adverse movement of £1m since Quarter 2. This is due to a planned increase in the historic commitments revenue contribution to the High Needs and Pupil Referral Unit capital project and so reduces the opening surplus balance. The block is forecast to close with a deficit a forecast balance which is due to a reduction in funding from the DfE for ongoing responsibilities. A review is underway to make this block sustainable in 2022/23.
- iii. The Schools Block is forecasting a **£66,000** over spend, which is an adverse movement of **£341,000** since Quarter 2 due to a reduction in funding which is being investigated as there have been no academy conversions.

#### **5.7 Education Excellence, Life Long Learning and Employability (Non-DSG) - £149,000 (0.6%) over spend**

- i. This is a favourable movement of **£63,000** since Quarter 2 due to an anticipated reduction in commitments within the Skills Strategy.
- ii. Approval is sought in this report for:
- **£253,000** from the Covid Equalisation Reserve due to pressures from a reduced number of school attendance and absence penalty notices issued
  - **£130,000** from the Covid Equalisation Reserve due to reduced ACL tuition fees
  - **£38,000** from the Bursary for Trainee Carers Reserve to Adult Community Learning (ACL) in respect of the Nightingale project.

#### **5.8 Finance, Resources and Corporate Affairs - £866,000 (7.8%) under spend**

- i. The portfolio is reporting an under spend of **£866,000**. This is a favourable movement from Quarter 2 of **£858,000**.
- ii. The movement is due to a **£858,000** under spend against the centralised pay pot as it is no longer expected to be required.
- iii. The underlying position reflects a change to forecasts on commercial property where, to be prudent, expected tenancy voids are being allowed for. There is however a **£40,000** opportunity flagged in this area which could mitigate this over spend.

- iv. Approval is sought in this report for the following:
  - **£853,000** to the Collection Fund Risk Reserve from the Finance, Resources and Corporate Affairs portfolio to support council tax funding deficits in future years.
  - Vire **£42,000** to the Finance, Resources and Corporate Affairs RSSS portfolio in order to correct staff pay inflation within the Pension service.

#### **5.9 Highways Maintenance and Sustainable Transport - £513,000 (0.5%) under spend**

- i. The forecast under spend of **£513,000** and favourable movement from Quarter 2 of **£364,000** are mainly as a result of in-year vacancies in addition to a net under spend within Passenger Transport following a re-negotiated Concessionary Fares fixed pot, based upon a continued downward trajectory in passenger numbers.
- ii. Approval is sought in this report for the following:
  - Vire **£239,000** within the portfolio to align with staffing movement from Essex Highways to Essex Highways Commissioning
  - **£1.9m** to the Carry Forward Reserve to enable purchase of fleet in 2022/23.

#### **5.10 Leader - £5,000 (0.2%) under spend**

- i. The portfolio reports an immaterial under spend of **£5,000**. This is an adverse movement of **£19,000** since Quarter 2 due to the transfer of under spends to Leader RSSS to support a carry forward request.
- ii. Approval is sought in this report for the following:
  - Vire **£20,000** from the Leader RSSS portfolio to realign under spends to support a carry forward request for Communications and Marketing.

#### **5.11 Waste Reduction and Recycling - £83,000 (0.1%) over spend**

- i. The portfolio reports an over spend of **£83,000** and an adverse movement of **£11,000** since Quarter 2.
- ii. This forecast pressure is attributable to the non delivery of prior year's savings which are in the baseline of the 2021/22 budget. Previously, mitigations have been found for this saving from one off in year initiatives such as project or grant funding. The service will need to identify a mitigation in the current financial year.

#### **5.12 Other Operating Costs – £53,000 (0.1%) over spend**

- i. There is a small over spend of **£53,000** reported with an adverse movement from Quarter 2 of **£50,000**.

- ii. This is due to reflecting decreased interest receivable from loans to Essex Housing LLP where there have been delays to the start-up of the organisation.
- iii. It should be noted that within the position there is a high level of risk and opportunity. There is further opportunity in the interest payable budgets as well as either risk or opportunity of uncertain amount within the Insurance Cost Recovery Account (ICRA). In particular, ICRA is likely to create a year-end swing for the organisation when the level of claims against ECC in year and the future provision needed are assessed by the actuary in March 2022. Until that point, ICRA can only be reported as online.
- iv. Approval is sought in this report for the following:
  - **£1.5m** to the Reserve for Future Capital Funding in relation to interest rate risk: interest rates have risen in December and there is a high risk of further rate rises with consequent impact on PWLB rates; this will provide some resilience to in year increased borrowing costs.
  - **£837,000** to the Carry Forward Reserve to support the following in 2022/23:
    - **£407,000** Procurement staffing: to provide short term capacity for peak workloads over next 18 months due to increased liquidity and market activity across all categories
    - **£150,000** Procurement due to the number of known stresses around social care market shaping and management
    - **£150,000** review of Transactional Services to identify opportunities for increased productivity and savings
    - **£80,000** Pressure created by the inflationary increase in Levies to third parties
    - **£50,000** minor movement against baseline 2022/23 ECL dividend saving.

#### **5.13 Community, Equality, Partnerships and Performance Recharged Strategic Support Services - £17,000 (0.1%) over spend**

- i. There is an immaterial forecast over spend of **£17,000**.
- ii. This is an adverse movement of **£80,000** since the Quarter 2 report, which can be attributed to slippage in recruitment in Performance, Business Intelligence, Planning and Partnerships, offset by reduced staff recharge income in Legal Services. There are other small movements across the portfolio.
- iii. Approval is sought in this report for the following:
  - **£1.794m** from the Covid Equalisation Reserve to be drawn down into 2022/23 relating to the Transformation Delivery Resourcing CMA, FP/880/11/20, previously approved but not drawn down within the approved timescale
  - **£479,000** returned to the Covid Equalisation Reserve, due to an improved income position within Essex Outdoors

- **£70,000** to the Carry Forward Reserve to fund the extension of an Intelligence Manager role for data development for 2022/23 – particularly essential as we move forward onto a new data storage and reporting solution and to help us deliver against the data strategy
- Vire **£65,000** from the Leader RSSS portfolio to realign under spends to support the carry forward request for Communications and Marketing.

#### **5.14 Economic Renewal, Infrastructure and Planning Recharged Strategic Support Services - £3,000 (0.3%) under spend**

- There is an immaterial forecast under spend of **£3,000** and small favourable movement from Quarter 2 of **£1,000**.

#### **5.15 Finance, Resources and Corporate Affairs Recharged Strategic Support Services - £103,000 (0.1%) under spend**

- The portfolio reports an under spend of **£103,000** and a favourable movement from Quarter 2 of **£102,000**
- This is due to staffing under spends in Information Services and Procurement and also to increased income being received by Procurement for collaborative work with districts.
- Approval is sought in this report for the following:
  - **£1.2m** to the Carry Forward Reserve to support the following in 2022/23:
    - **£642,000** for interim staffing and training across the Portfolio
    - **£228,000** Rental Costs at Rowan House due to delays with the move
    - **£200,000** Reprofile 'Beyond Corporate Systems Programme' funds - Financial Services Review
    - **£130,000** Partial mitigation of known pressures in the People and Transformation 2022/23 budget; an 'at risk' saving and Management Team staffing costs
    - **£41,000** Digital Inclusion
  - **£992,000** to the Technology and Digitisation Reserve for use in 2022/23 to support: future Technology projects (**£568,000**), Azure (**£300,000**), Print savings (**£100,000**) and Project staffing (**£24,000**)
  - **£293,000** from the Transformation Reserve to be drawn down in 2022/23 relating to the delivery of the Workforce Strategy CMA FP/271/10/18 approved but not drawn down within the approved timescale
  - **£209,000** from the Quadrennial Elections Reserve relating to costs of the May 2021 elections
  - Vire **£76,000** within the portfolio from Executive Director to Procurement in order to support interim staffing working on service change projects

- **£16,000** from the Covid Equalisation Reserve to cover additional staff within the HR Service Centre due to the pandemic
- Vire **£42,000** from the Finance, Resources and Corporate Affairs portfolio in order to correct Staff pay inflation within the Pension service
- **£5,000** from the Everyone's Essex Reserve relating to a contribution to Harwich Kindertransport.

#### **5.16 Leader Recharged Support Services - £56,000 (2.9%) over spend**

- The portfolio reports a forecast over spend of **£56,000** due to a Communications and Customer Relations staffing pressure.
- This is an adverse movement of **£32,000** since the Quarter 2 due to increased promotions and publications activity.
- Approval is sought in this report for the following:
  - **£127,000** from the Covid Equalisation Reserve due to costs within Communications and Marketing of publications and promotions relating to Covid-19
  - **£85,000** to the Carry Forward Reserve to extend a Communications and Marketing Manager post supporting Adults and Children teams
  - Vire **£85,000** to the Community, Equality, Partnerships and Performance RSSS portfolio (**£65,000**) and Leader portfolio (**£20,000**) to realign under spends to support the carry forward request for Communications and Marketing.

### **6. Trading Activities**

- Trading activities as a whole are reporting a surplus of **£312,000** against the budgeted surplus of **£304,000**.
- Place Services is reporting an achievement of target of **£300,000**; this amount is planned to be appropriated to reserves.
- Music Services is reporting an over achievement of target of **£8,000**; of this **£4,000** is planned to be appropriated to reserves. The service forecasts an under spend of **£8,000**.
- These forecast positions will leave a net residual surplus in reserves of **£1.3m**, of which **£1.1m** relates to Place Services.
- Appendix B** shows the position by each Trading Activity.

## **7. Capital**

7.1 An under spend of **£58.9m** (20%) is forecast against the latest capital budget of **£295.4m**. After taking account of budget change requests in this report there is a residual over spend of **£205,000**.

7.2 Approval is sought for:

- i. Slippage of **£56.8m**
- ii. Budget additions of **£7.6m**
- iii. Budget reductions of **£10.1m**
- iv. Advanced works of **£226,000**

7.3 The key points to note are listed below, and the detailed requests are shown at Appendix C(ii).

### **7.4 Adult Social Care and Health – £716,000 under spend**

i. Approval is sought to reprofile £716,000 in future years - this relates to Independent Living due to delays in the planning process.

### **7.5 Children's Service and Early Years – £644,000 over spend**

i. Approval is sought to reprofile **£230,000** into future years driven by the Great Chesterfield Project with delays in the funding agreement with the Parish Council

ii. Approval is sought to add **£1m** into the programme to reflect the reassignment of part of the Runwell Hospital scheme for the Early Years portion that previously sat in the Education Excellence, Lifelong Learning and Employability portfolio. An offsetting reduction is sought in the Education Excellence, Lifelong Learning and Employability portfolio.

iii. Approval is sought to reduce **£171,000** of the programme mainly due to Rum Tum Tugger nursery project that will not go ahead due to a costly sprinkler system.

### **7.6 Deputy Leader & Community, Equity, Partnerships and Performance – on line**

i. There is no variance to budget

### **7.7 Devolution, the Arts, Heritage and Culture – £10,000 under spend**

i. There is an immaterial £10,000 variance to budget

### **7.8 Economic Renewal, Infrastructure and Planning - £44.5m under spend**

i. Approval is sought to reprofile **£41.4m** into future years. The drivers of the slippage are the following:

- Highways Major Schemes slipping **£16.5m**, mainly due to Active Travel (£6.7m) which requires redesign/rework leading to the project not being delivered as anticipated, A127 Fairglen (£4.6m) as there are on-going land enquiry negotiations, A127 Autonomous (£1.8m) where the construction start date has slipped following project options being expanded from the original scope and the Army & Navy (£1.1m) where delays in design and option decisions are impacting on delivery commencement.
  - Housing Infrastructure Fund slipping **£8.1m**, mainly due to the A133-A120 Link Road (£5m) as a result of increased delivery time and funding required - there are a matrix of decisions to be made pushing out the construction start date. Also the Colchester Rapid Transit System (£2.3m), with the Section A construction start date now being scheduled for the end of the financial year due to delays in determining the planning conditions.
  - Economic Growth slipping **£6.9m**, due mainly to Colchester Grow on Space (£2.2m) into 2022/23, in line with the revised spending plan and Jaywick Market and Commercial (£1.7m), where a request to extend the Getting Building Fund funding has been agreed to the end of September 2022 following delays relating to revised scheme design and consequently achieving planning permission.
  - Localities slipping **£5m** due to the delays in getting approval from HM Treasury and Places for People, which means there won't be sufficient time for the project to go into delivery mode before the end of the 2021/22 financial year for the Harlow Development Fund.
  - Superfast Essex Broadband Programme slipping **£4.4m** relating to Phase 3 of Essex Broadband due to delays in achieving the triggers for milestone payments regarding Phases 3.1 and 3.2 and Phase 2. This ensures that ECC only pays when contractual requirements have been delivered by providers.
- ii. Approval is sought for additions of **£3.5m** to the programme. £1.7m of this relates to Essex Housing Development LLP where funding is required for Essex County Hospital, Purford, and Hargraves developments. These are to be funded from borrowing and are expected to deliver a financial return to the Council. Also A127 Air Quality (£934,000) for works relating to grant funding that has been secured, with delivery expected as soon as possible.
- iii. Approval is sought to reduce **£6.6m** from the programme, which is mainly attributable to Essex County Hospital due to its imminent move from the ECC capital programme to Essex Housing Development LLP.

## 7.9 **Education Excellence, Life Long Learning and Employability - £11.5m under spend**

- i. Approval is sought to reprofile **£11.9m** into future years due to slippage for the following:

- Slippage (£2.9m) Temporary Accommodation mainly in relation to Copford Primary School (£1.3m) and Great Bardfield Primary School (£1.2m) to reflect the anticipated completion timelines of the projects.
  - Slippage (£2.5m) Special Schools mainly in relation to Wickford Pupil Referral Unit (£900,000) where contingency funds that are not required in this financial year will be used to help fund cost pressures in 2022/23 on this scheme, Southview (£400,000) due to work being delayed as a result of ongoing asbestos in the grounds and Fairview Pupil Referral Unit (£250,000) to 2023/24 due to planning issues where work is now not expected to start on site until July 2022.
  - Slippage (£1.9m) on Harlowbury Primary as this project has not yet progressed due to land transfer issues; this is now expected to start on site March 2022 at the earliest.
  - Slippage (£1.1m) on Rochford Primary Basic Need relating to issues with Barling Magna where there are cost escalations. As a consequence, an addition of (£402,000) from under spends within the capital programme is required, which will also be slipped to 2022/23.
  - Slippage (£1.1m) Tendring Secondary Basic Need in relation to Clacton County High School, where access to the site has been delayed due to Tendring District Council and PFI related works being carried out.
  - Slippage (£1m) Chelmsford Primary Basic Need mainly in relation to Trinity Road Primary School due to delays in the planning approval and agreement. Phase 1 works are due to commence in January 2022 and will take 3 months. Phase 2 and 3 works are not due to commence until April / May 2022.
- ii. Approval is sought to reduce a net **£22,000** to the programme mostly relating to reallocating budget within the portfolio. The main additions of £440,000 relates to Schools Capitalised Building Maintenance for Salix Schools Windows following a cost estimate from Mitie, and £402,000 relating cost escalation with Barling Magna School. This offset by the reduction of £798,000 for Runwell Hospital where the Early Years element has now been included in the Children's Service and Early Years portfolio, therefore this reduction has a net nil impact on the capital programme.
- iii. Approval is sought to advance **£222,000**, relating to a variety of works across Basic Needs and Special Schools

#### **7.10 Finance, Resources and Corporate Affairs – £553,000 under spend**

- i. Approval is sought to reduce a net **£441,000**, in order to return funding to the programme, as it is no longer needed, mainly in relation to the Core Estate Window project.

#### **7.11 Highways Maintenance and Sustainable Transport - £2.2m under spend**

- i. Approval is sought to reprofile **£2.4m** into future years mainly relating to Road Maintenance (£908,000) to cover Fleet purchases that have been

ordered but for which delivery has been delayed until 2022/23, which has not had an impact on service delivery. In addition, slippage of £300,000 for Local Highways Panels (LHP) additional funding received of £2.4m which is unable to be fully commissioned due to insufficient schemes reaching full agreement and the ability to be able to deliver in this financial year. It is anticipated that circa 90% of the current LHP budget will be fully spent this year which is in line with previous trends. This does not impact the 3 year programme of delivery.

- ii. Approval is sought to add a net **£93,000** to the programme relating to Section 106 to cover expenditure on various schemes

#### **7.12 Leader - £222,000 under spend**

- i. Approval is sought to reduce **£50,000** from the programme relating to Energy Efficiency Lighting funds no longer required
- ii. Approval is sought to reprofile **£107,000** into future years mainly relating to Local Energy Communities Interreg 2 Seas (LECSEA) in to 2022/23, as a 6 month extension that has been agreed as a result of Covid-19.

#### **7.13 Waste Reduction and Recycling - £124,000 over spend**

- i. Approval is sought to add **£124,000** to the programme relating to waste and recycling, due to the purchase of fleet as a result of in-housing the recycling centre service

#### **7.14 Controlled Elsewhere – on line**

- i. There is no variance to budget

#### **7.15 Appendix C** provides a comparison of approved and forecast outturn capital payments by Portfolio and sets out the variance plan which summarise the proposals for addressing the forecast budget variances.

### **8. Policy context and Outcomes Framework**

This report is an assessment of the financial position of the County Council against the budget. The budget and organisation plan were approved in parallel in February 2021, although they were set against the former organisation strategy.

### **9. Reserves**

#### **9.1** A summary of the forecast balances on reserves is provided in **Appendix D**.

- 9.2 Approvals totalling **£10.3m** are sought in this report to appropriate to the Carry Forward Reserve to support the 2022/23 budget and specific risks. This should be seen in the context of a gross budget of £2,168m. The breakdown of what this relates to specifically can be found in sections 5.1.ix, 5.2.iv, 5.12.iv, 5.13.iii, 5.15.iii and 5.16.iii.
- 9.3 To create a new **Children's Risk Reserve**. **Purpose:** to set aside resources to help manage price and demand pressures that may arise from the changing landscape of Children's services.
- 9.4 To rename the Technology Solutions Reserve to the **Technology and Digitisation Reserve**. **Revised purpose:** to set aside resources to meet the future cost of replacing key council technology systems and the digitisation of public services.

## **10. Financial Implications**

### **Finance and Resources Implications (Section 151 Officer)**

- 10.1 The report is provided by the Section 151 Officer. There are no further comments.

## **11. Legal Implications**

- 11.1 The Council is responsible for setting the budget each year. Once agreed the executive then have to implement the policy framework and keep within the budget, subject to the limits set by Financial Regulations.

## **12. Equality and Diversity implications**

- 12.1 Section 149 of the Equality Act 2010 creates the public sector equality duty which requires that when ECC makes decisions it must have regard to the need to:
- (a) Eliminate unlawful discrimination, harassment and victimisation and other behaviour prohibited by the Act
  - (b) Advance equality of opportunity between people who share a protected characteristic and those who do not
  - (c) Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.
- 12.2 The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, gender and sexual orientation.

- 12.3 The equality implications are assessed as part of budget setting process and as part of individual schemes.
- 12.4 There are no equality and diversity or other resource implications associated with this report.

### Prudential Indicators - Summary

		Approved Indicator	Provisional Outturn
Affordability			
Incremental impact on Council Tax of 2021/22 and earlier years' 'starts'	£	£103.43	£100.77
Ratio of financing costs to net revenue streams (excl. gen. govnt. grant )	%	9.7%	9.1%
Ratio of financing costs to net revenue streams (incl. gen. govnt. grants )	%	8.8%	8.0%
Prudence			
Net borrowing and Capital Financing Requirement		Net borrowing is below the medium term forecast of the CFR	
Capital Expenditure			
Capital expenditure	£m	290	236
Capital Financing Requirement (excluding credit arrangements )	£m	1,081	1,038
External Debt			
Authorised limit (borrowing only )	£m	1,030	N/A
Operational boundary (borrowing only )	£m	910	N/A
Actual external borrowing (maximum level of debt during year)	£m	N/A	628
Treasury Management			
Interest rate exposures			
Upper limit for exposure to fixed rates			
Net exposure	£m	1,030	515
Debt		100.0%	100.0%
Investments		100.0%	80.5%
Upper limit for exposure to variable rates			
Net exposure	£m	309	212
Debt		30.0%	1.8%
Investments		100.0%	73.6%
Maturity structure of borrowing (upper limit)			
Under 12 months	%	40.0%	2.3%
12 months & within 24 months	%	40.0%	1.7%
24 months & within 5 years	%	40.0%	7.2%
5 years & within 10 years	%	40.0%	16.3%
10 years & within 25 years	%	75.0%	29.7%
25 years & within 40 years	%	40.0%	30.0%
40 years & within 50 years	%	20.0%	0.0%
50 years & above	%	20.0%	12.8%
Total sums invested for more than 364 days			
Authorised limit	£m	50	N/A
Actual sums invested (maximum position during year )	£m	N/A	10
Summary			
All Treasury Management activities have been undertaken in accordance with approved policies and procedures.			
External debt is within prudent and sustainable limits.			
Credit arrangements have been undertaken within approved indicators			
Maturity Structure of borrowing: maturity dates for market loans are based on the next review date, not the final maturity date.			

**Forward Plan Reference Number: FP/015/03/21**

<b>Report title:</b> Annual Plan and Budget 2022/23 – Part 1: Section 151 Officer Report	
<b>Report to:</b> Cabinet	
<b>Report author:</b> Nicole Wood, Executive Director for Corporate Services	
<b>Date:</b> 18 January 2022	<b>For:</b> Discussion
<b>Enquiries to:</b> Nicole Wood, Executive Director for Corporate Services email Nicole.wood@essex.gov.uk	
<b>County Divisions affected:</b> All Essex	

**Purpose of the Report**

- 1.1 The report sets out the Section 151 (S151) Officer's statement on the adequacy of reserves; robustness of the 2022/23 revenue budget; the medium term financial outlook; Financial Strategy; and the Capital and Treasury Management Strategy. The S151 Officer for the Council is the Executive Director for Corporate Services.

**Recommendations**

- 2.1 To note this report before making recommendations to Full Council on the revenue budget and capital programme, included within the Annual Plan.

**Assurance Statement of the S151 Officer (Executive Director for Corporate Services)**

- 3.1 I have examined the budget proposals and, whilst the spending and service delivery proposals are challenging, they are achievable given the political and management track record and current plans to implement the changes. The resources available to the Council are being targeted to achieve the strategic aims outlined in Everyone's Essex. Since the new administration, new targeted investment has been made available, for example to climate and levelling up through the Everyone's Essex reserve.
- 3.2 The Council has a good track record on financial management and delivering savings. The Council's external auditor recently concluded that adequate arrangements are in place for budget monitoring and taking mitigating actions to eliminate the impact of any over-spends and undeliverable savings and that the Council is on track to deliver its required savings in 2021/22 of £46m against a £1bn budget. The external auditor also concluded that the medium-term resourcing strategy reflects known savings and cost pressures and that key assumptions are reasonable and hence that the Council has adequate arrangements in place to remain financially sustainable in the medium term.

- 3.3 The level of reserves is appropriate but requires continual monitoring given the risks and volatility of demand, prices and inflation. We will continue to report fully each quarter to Cabinet on the reserves position.
- 3.4 The 2022/23 revenue budget and the capital programme are included elsewhere on the agenda. Whilst the budget shown is balanced, there remains a gap between our estimated spend and assumed funding from 2023/24 and onwards.
- 3.5 There were early indications that local government would receive a multi-year settlement, however given new expectations for a Fair Funding review in 2023/24, there is only a one year settlement. The Council has certainty of government funding for 2022/23, although considerable uncertainty remains in the sector around the funding structures for local government beyond 2022/23. With the Fair Funding Review now due for 2023/24, it is expected that this will result in a multi-year settlement which will enable better medium term certain planning. However, this also presents risk to the Council notably around the potential of redistribution of grants within the sector, if, as we expect, there is no overall increase to the funding envelope for the sector in the medium term.
- 3.6 It is imperative the Council maintains focus on financial sustainability and continues the drive to deliver a balanced budget over the medium term.

### **Background**

- 4.1 The S151 Officer is required to make a statement on the adequacy of reserves and the robustness of the budget. This is a statutory duty under section 25 of the 2003 Local Government Act.
- 4.2 The budget is a financial plan of the Organisation's Strategy and forms part of the Annual Plan. The budget is delivered through Cabinet Members who have a portfolio responsibility for several services, which will deliver the strategic aims and priorities of the Everyone's Essex plan.
- 4.3 This report concentrates on the draft 2022/23 revenue budget, level of reserves and capital programme as set out elsewhere on this agenda. It considers key medium-term risks and issues faced by the Council in arriving at the recommended budget and reserves.

### **Current Financial Context**

- 5.1 Covid-19 has continued to have an enormous impact on our patterns of spend and activity. During 2021/22 we expect to have incurred additional exceptional expenditure and lost income of circa £120m against our £1bn 2021/22 budget, an increase of 12% against the approved budget. Most of these costs have

been met through additional exceptional government grants to local authorities. The majority of the additional expenditure has flowed to support the external market with exceptional price and demand pressures.

5.2 Social Care and Health portfolios represents £987m of gross spend (65% of total budget) - the Adult Social Care and Health portfolio alone represents £737m gross or 47% of the budget\*. During 2021/22, it is expected that the social care portfolios will remain broadly on budget, however that has been dependent on very significant government underpinning of the market and with a backdrop of increasing demand:

- £39m of temporary funding from national Covid-19 and ECC specific funds has underpinned the adults social care market in 2021/22 which is due to end in March 2022 (building on similar support in 2020/21)
- the trajectory is one of increasing demand, before any further surges in Covid-19. For example the domiciliary market is supporting 16% more hours of care than at the same time in 2020
- higher referrals and new contacts significantly increased

*\*`excluding pass through DSG*

5.3 For 2022/23 and beyond, it is not possible to precisely forecast the demand patterns as new waves of the pandemic approach, but what we are experiencing is increased demand and price pressure, coupled with an inflationary outlook. We will need to closely monitor underlying pent-up demand that is still expected to materialise, as well as new patterns of demand that will emerge as the pandemic ends. Retaining appropriate levels of reserves to provide for exceptional demand and price increase is critical to the financial sustainability of the Council.

5.4 Before the pandemic, the Council was already experiencing increasing demand for our services notably progressively complex packages for children; increasing provision for home to school and special educational need transport; and higher demand across adult social care including adults with learning disabilities and older people. The pandemic has begun to change demand, however in light of the current situation, there will inevitably be further changes and we will need to monitor and respond to those emerging patterns closely.

## **Revenue Budget**

6.1 If it accepts the recommendations in the budget report, the Council plans to spend £2.1bn in 2022/23 (including schools). After income, this equates to a net expenditure budget of £1.1bn (£1,083.4m), an increase of £45.5m, (4.4%) on 2021/22.

- 6.2 The total pressures on the budget for 2022/23 are nearly £100m and the material pressures are outlined as below:
- 6.3 Recurring costs include:
- £6m pay inflation
  - £20m social care inflation, including the impact of increases to National Living Wage
  - £6m other inflation (e.g. on contracts)
  - £7m impact of the increase to the national insurance rate
  - £7m increase to the cost of financing the capital programme
  - £17m impact of demographic changes and “adult client activity” where packages of care end and may be replaced with more costly packages due to changes in need
  - £15m to provide for cost of care and demand risks in the care market
  - £7m where the 2021/22 budget was balanced using one off savings
  - £10m total impact of all other smaller pressures.
- 6.4 In addition to the known pressures reflected in the budget there are a series of risks that are being managed through the reserves strategy (see section 11 for details on reserves). Some of the emerging risks include:
- Inflation & borrowing risk on the capital programme
  - Fragility of our funding position given the ongoing pandemic and inherent uncertainty on funding beyond 2022/23, notably with rates and council tax
  - Demand and price pressures in Children’s social care.
- 6.5 Resource has also been set aside through the reserves strategy to enable additional strategic choices, including:
- New investments in strategic priorities
  - Resource to support change to our estate, unlocking revenue savings built into the medium term strategy
  - To meet the future cost of replacing key council technology systems and the digitisation of public services.
- 6.6 The combination of these pressures most significantly impacts the adults social care & health portfolio with a gross base revenue growth of £38m, in addition to increased capacity via reserves to manage the risk.
- 6.7 The budget assumes £36m of savings to balance the 2022/23 budget. Of these £32m are recurrent and £4m are one off savings. These include continuation of the Meaningful Lives Matter Programme supporting adults with learning difficulties, which is now in its second year, the ongoing Connect Programme that will continue to ensure the most appropriate support is offered to older people going into and leaving hospital, making better use of technology solutions in provision of care, improvements and efficiencies within the Essex Highways partnership, and more efficient use of our buildings.

## Funding and Taxation

### Taxation

- 7.1 In 2021/22, the Council determined to increase the social care precept tax but defer 1.5% of the raise to 2022/23. That deferral, combined with rates increases is expected to yield **£32.8m** in 2022/23.

	Tax Rise	Increased Tax Yield £m
Deferred 2021/22 Adult Social Care Precept	1.50%	10.9
2022/23 Adult Social Care Precept	1%	7.3
<b>Total Adult Social Care Precept</b>	<b>2.50%</b>	<b>18.2</b>
2022/23 Council Tax Rise	1.99%	14.6
<b>Total Increased Tax Yield for 2022/23</b>	<b>4.49%</b>	<b>32.8</b>

- 7.2 Upper tier local authorities have the power to raise tax by a total of 3% in 2022/23 without a referendum. Government has set the referendum cap for the core Council Tax element at 1.99%, and the Council is proposing to take up the option of raising Council Tax at this level. The 1.99% will yield **£14.6m** in 2022/23.
- 7.3 In addition, local authorities with social care responsibilities can increase council tax, if the money raised is spent on adult social care, through the 'adult social care precept' of up to 1%. This is in addition to the 1.5% adult social care precept the council approved but deferred in 2021/22. It is proposed the full combined adult social care precept of 2.5% is raised, yielding a further **£18.2m**.
- 7.4 Council tax collection has remained resilient during the pandemic and short term outlook remains robust, with a forecast increase in the collection rate of 0.2%. There is inherent risk around the volatility of the economy, which has been provided for through ensuring a balance on the collection fund risk reserve of 1.5% of the Council's annual at-risk tax funding.
- 7.5 The taxbase for 2022/23 is 545,042 Band D equivalents, which is a 1.86% increase from 2021/22. This brings in a total budgeted council tax of **£763.7m**. There has been 1% growth in housing across the county, and a decrease in households claiming Local Council Tax Support (LCTS) where their household income has fallen below a certain threshold. At present around 9% of households do not pay the full amount of council tax, with 4% exempt in whole, and 5% paying a substantially reduced rate due to their means or status.
- 7.6 It is estimated Non-Domestic rates for 2022/23 will yield **£177.9m**. However, this level of rates is underpinned through grants from government to offset the reliefs provided to businesses announced in the Spending Review – this gives

inherent risk in the sustainability of the base once reliefs end, particularly given the length of time reliefs have been applied for, and needs careful attention. It is also expected that non-domestic rates may form part of the Fair Funding review.

### **Government Grants**

- 7.7 The Provisional Local Government Finance Settlement from Central Government confirmed the majority of announcements in the Spending Review. A new one-off “Services grant” was outlined by government. This is an un-ringfenced one year grant, and the Council will receive £12.2m. It was also announced there will be additional funding for social care, from which the Council will receive an extra £15m compared to 2021/22 allocations. Combined with the yield from the adult social care precept (£18m), funding for social care in 2022/23 has increased by £33m. This has enabled the Councils investment in social care given the pressures faced, where the combined adults and children’s social care net expenditure budgets have increased by £33m to £594m, as well as the creation of the Children’s Risk reserve for potential additional cost risks (£2.5m).
- 7.8 The Provisional Settlement also confirmed the continuation of the Revenue Support Grant (RSG) of £19m. The medium-term strategy assumes that RSG will continue at this level, however there is no formal confirmation from government of funding beyond 2022/23, so this presents an inherent uncertainty from 2023/24 and will no doubt be tied into the Fair Funding review for local government.
- 7.9 The uncertain funding position makes it more complicated to plan for the long term. We expect to receive £170m of specific government grants in 2022/23, aside from grants passported to schools. These grants are only guaranteed to 31 March 2023. Without certainty of multi-year agreements we need to plan on a broad range of funding assumptions.
- 7.10 In addition to this, for the Dedicated Schools Grant (DSG), an additional £21.9m in respect of the High Needs Block was received. There was only a one year funding announcement for DSG.

### **Other**

- 7.11 Further, we rely on a significant amount of income from fees and charges, budgeted at £122m in 2022/23. As the pandemic continues, inevitably a number of these charges have been negatively impacted. Whilst we are confident that the services raising these charges will recover as the economy bounces back and have budgeted for that recovery, there is inherent risk which can be supported in the short term through retained Covid-19 reserves. We will manage this through close monitoring of fees and charges (of which there are just under 700) to ensure we are able to act as and when issues of sustainability arise.

## Financial Strategy

- 8.1 This report proposes a balanced budget for 2022/23. There is reliance on one off savings to close the budget gap of £36m, resulting in a structural deficit of £4m or less than 0.5% which will need to be permanently resolved in future years. The reliance on one off savings is less than in recent years and it is the opinion of the s151 that it carries an acceptable level of risk, however this will still need to be appropriately managed through the 2023/24 budget.
- 8.2 The medium range scenario for future years indicates a gap between the Council's expected funding streams and the Council's expenditure. After delivering 100% of all existing planned savings, the gap is expected to be £24m in 2023/24 rising to £119m by 2025/26, before further tax rises. The outlook for the authority is set out below, however this mid range scenario is likely to change given the context of Fair Funding Reform for local government from 2023/24:

- 8.3 The Council has a robust savings, income and efficiency programme which enables setting a balanced budget for 2022/23 and with a further £14m of savings out into 2023 to 2026. In 2022, there will be renewed focus on looking at further ways to transform the Council and identify ways to drive further savings, including through use of technology and digitisation. The Council must continue to explore the redesign of services and different ways of working with its partners, local communities and the voluntary sector to ensure essential services can be provided within the context of increasing demand. The realignment of resources to ensure they are focused on the aims set out in Everyone's Essex will also continue to be a key focus.

## **Capital Programme and Treasury Management**

- 9.1 The Council has indicated, within the budget proposals, an aspiration to invest considerable sums through the capital programme over the next four years. The capital programme aspirations will deliver a range of schemes to maintain, enhance and deliver new assets, such as investment in Chelmsford's proposed new Beaulieu Park Train Station and North Eastern Bypass and Colchester/Tendring A120 A133 link road, as well as highways maintenance and providing new school places. The capital programme also includes schemes to help to deliver revenue savings, such as the Essex Housing Programme to redevelop redundant Council property. To the extent that the Council must borrow to pay for this investment, it will incur borrowing costs, which must be funded from the revenue budget.
- 9.2 The revenue costs of borrowing to finance the capital programme will rise from 8% of the net budget in 2021/22, to an estimated 10.6% by 2025/26. This is before further rises in interest rates. There is inherent risk with cost escalation due to inflation and higher borrowing costs as base rates rise. However, it is key the Council continues to look to manage within the budgeted cost envelope of the capital programme, through reprioritisation and rescoping.
- 9.3 Whilst the Council can determine its own programmes for capital investment that are central to the delivery of quality public services, it must be satisfied, and able to demonstrate, that these programmes are affordable, prudent and sustainable. In doing so, the Council must have regard to the Chartered Institute of Public Finance and Accountancy (CIPFA) Prudential Code for Capital Finance in Local Authorities (the Prudential Code) and the CIPFA Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes (Treasury Management Code).
- 9.4 The Prudential and Treasury Management Codes require the Council to produce a Capital and Treasury Management Strategy which explains how the Council takes capital expenditure, investment and treasury management decisions and how it takes account of stewardship, value for money, prudence, sustainability and affordability. The full strategy is shown in Appendix A, Annex 3. The Executive Director for Corporate Services is required to report explicitly on the affordability and risk associated with this strategy.
- 9.5 In order to demonstrate that capital expenditure and investment decisions are taken in line with service objectives and properly take account of stewardship, value for money, prudence, sustainability and affordability, the Capital and Treasury Management Strategy:
- Sets out the long-term context in which capital expenditure and investment decisions are made and gives due consideration to both risk and reward and impact on the achievement of priority outcomes.

- Provides an overview of the governance process for approval and monitoring of capital expenditure. These processes are well established and have been highly effective in recent years in ensuring the delivery of the Council's capital investment plans.
  - Provides a projection of the Council's capital financing requirement, how this will be funded and repaid.
  - Sets out the Council's borrowing strategy and explains how the Council will discharge its duty to make prudent revenue provision for the repayment of debt.
- 9.6 The Capital and Treasury Management Strategy, and the indicators provided in Annexes 3A and 3B, show that the capital financing requirement, external borrowing levels and costs of borrowing are all on an upward trajectory. This reflects the substantial level of capital investment being undertaken by the Council. A focus of some of the capital programme is upon 'invest to save' initiatives and upon economic regeneration. Hence, the increases in borrowing, and the costs associated with this borrowing, may be partly mitigated by revenue savings and additional income generation (e.g. additional housing and businesses providing tax revenues).
- 9.7 In the longer term, it will not be possible to sustain this level of capital investment without the greater achievement of savings, generation of income and increased funding.
- 9.8 The Council's approach to treasury management investment activities is set out in Appendix A (Annex 3 page 81) and includes the criteria for determining how and where funds will be invested to ensure that the principal sums are safeguarded from loss and that sufficient liquidity is maintained to ensure that funds are available when needed. The treasury management investment strategy proposed for 2022/23 is consistent with that applied in previous years.
- 9.9 The Council has a good track record with regard to its treasury investment activity, adhering to statutory guidance by giving priority to security and liquidity over yield. In addition, Internal Audit has consistently issued 'good' assurance opinions on the management of these activities, confirming that internal controls are in place and adhered to.
- 9.10 The Council's policies, objectives and approach to risk management of its treasury management activities is set out in the Strategy, alongside the knowledge and skills available to the Council, and provides confirmation that these are commensurate with the Council's risk appetite.
- 9.11 The Capital and Treasury Management Strategy also provides an overview of the Council's current approach to other investment activities.
- 9.12 All other investment activities entered into so far have been subject to approval in accordance with the Council's governance framework for decision making and giving due regard to risk and proportionality.

- 9.13 The distinct, but inter-related, elements of the Capital and Treasury Management Strategy collectively demonstrate that the Council's capital expenditure and investment decisions properly take account of stewardship, value for money, prudence, sustainability and affordability, by setting out the long term context in which capital expenditure and investment decisions are made, and by having due consideration to both risk and reward and impact on the achievement of priority outcomes.

### **Dedicated Schools Grant (DSG)**

- 10.1 The DSG is part of the Council's budget and is made up of 4 blocks: Schools, High Needs, Early Years and Central School Services. The Schools Block is passported directly to schools and is managed by schools. A significant proportion of the Early Years Block is passported to early years providers. The High Needs and Central School Services blocks are managed by the Council.
- 10.2 Total funding for 2022/23 increases by £53.4m, the Schools Block increases £37.8m, the High Needs Block increases £14.4m, the Early Years Block increases £1.2m and the Central School Services Block decreases £119,000
- 10.3 In addition to this, further funding was announced in the 2021 Spending Review which will be paid as a Schools Supplementary Grant for 2022/23 but will be baselined in DSG for 2023/24. Mainstream schools receive an additional £29.8m and funding for high needs will increase a further £7.5m. This results in a total increase in funding of £90.7m for 2022/23.
- 10.4 The increased funding is expected to return the High Needs Block to a surplus balance, however the demand for Education, Health and Care Plans continues to increase. Further increases are anticipated from £1.5bn increases in school funding in 2023/24 and 2024/25.
- 10.5 The Department for Education (DfE) has stated that with the increase in funding to the High Needs Block it expects local authorities to only request transfers from the Schools Block in exceptional circumstances. The Council has not made any requests for 2022/23. Should the increase in funding in future years not be sufficient the Council will request a transfer from the Schools Block.
- 10.6 The DSG currently has an under spend due to the Early Years Block, this position will be monitored for future volatility in the number of take up hours, plus may allow potential plans for early intervention projects to be drawn up. It should be noted that the increased demand for special educational needs and disabilities also impacts on Non DSG services, namely, Home to School Transport and Transitions.

### **Reserves**

- 11.1 Reserves are defined in Sections 31A, 32, 42A and 43 of the Local Government Finance Act 1992. This requires local authorities to have regard to the level of reserves needed for meeting estimated future expenditure when calculating their budget requirement.
- 11.2 Reserves play an essential part in the financial strategy and provide a cushion against the significant risks the Council faces, and a source of funding of business cases to change the way it provides services and achieves future savings. The continued provision of adequate reserves is essential in medium term planning. Without these, it may be necessary to take remedial urgent action in-year to mitigate challenges that arise, which could lead to longer term consequences.
- 11.3 We define our reserves in two ways:
- **Restricted reserves** – reserves where the authority to commit the funds rests elsewhere (e.g. amounts held on behalf of schools and partnerships) and those held for managing cyclical spending and long term financial commitments (e.g. those associated with long term contracts such as Private Finance Initiative (PFI) and the waste reserve). These total £200m.
  - **Unrestricted reserves** – reserves earmarked to support the medium to longer term plans of the Council (e.g. those earmarked to enable it to transform and invest to save); and contingent reserves (amounts that are available to the Council to meet contingent expenditure, including Covid-19 related exceptional expenditure). This category of reserves total £226m.

The ability to draw on unrestricted reserves has been particularly important over the last two years when significant additional costs have been incurred in response to the Covid-19 pandemic. In 2020/21 £113m was drawn down to support exceptional spending and in 2021/22 we are forecasting £117m to be applied to one-off costs. Over the next four years the Council is anticipating that this draw down trend will continue with the purpose of the funds shifting away from emergency responses towards investment in developing strategic priorities in line with the ambition of the Everyone's Essex plan.

- 11.4 During 2022/23, £107m is expected to be drawn down from unrestricted reserves – a significant proportion of this (£23m) is from the Covid Equalisation Reserve to utilise funding received from central government to manage the ongoing pandemic. £15m is expected to be applied from the Everyone's Essex Reserve to deliver short term or pilot initiatives associated with the strategic priorities of the Everyone's Essex plan. This will include positive Climate Change activities, supporting the Levelling Up agenda, Economic Recovery and Heritage and Arts investments. It is anticipated that there will be calls on the Reserve for Future Capital Funding of up to £15m to meet unavoidable inflation on the capital programme and enable carbon reduction in building, the Transformation Reserve (£13m) and Technology and Digitisation Reserve

(£8m) both to finance investment in innovation and ongoing change across the Council, the Carry Forward Reserve (£12m) where services have carried forward unspent budget from the 2021/22 financial year to support the 2022/23 budget position and the Emergency Reserve (£9m) where we have budgeted to mitigate the potential wider impact of cost pressures arising from the increase to national insurance rates. Within the budget plans are in place for net contributions of £66m to reserves in 2022/23. The largest contributions are to the Reserve for Future Capital Funding (£15m), Transformation Reserve (£12m), Technology and Digitisation Reserve (£10m) and Emergency Reserve (£9m).

- 11.5 By 2024/25 it is anticipated that the balance of unrestricted reserves will have reduced to £138m (a reduction of £87m). The reduction mainly relates to the Everyone's Essex Reserve (£44m) as it is utilised to fund strategic priorities, the Covid Equalisation Reserve where it is assumed that all remaining government funding will have been utilised (£24m), and the Carry Forward Reserve (£12m) where all amounts carried forward from 2020/21 will have been utilised.
- 11.6 Whilst the level of unrestricted reserves is not enough to cover the funding gaps longer term, as set out earlier in this report, the authority's record on financial management and delivery of savings is such that it is highly unlikely that this level of usage of reserves would be required to fund the gap.
- 11.7 The authority also has a General Balance, which is an un-ringfenced reserve set aside to allow the Council to deal with unexpected events or costs at short notice. The general reserve balance is held at 6% of net revenue budget in recognition of the level of risk associated with the pandemic response and pressures the Authority may face. The balance is £68m, which is enough to fund the Council's activities for 23 days.
- 11.8 The 2021/22 Third Quarter report, elsewhere on the agenda, requests approval to create one new reserve:
- Children's Risk reserve: to set aside resources to help manage price and demand pressures that may arise from the changing landscape of Children's services

## **Risks**

- 12.1 There are several risks associated with the budget:
- 12.2 The ongoing pandemic and focus on recovery results in non-delivery of savings in 2022/23 with a knock-on impact in 2023/24. Officers carry out a delivery risk assessment before the budget is set to test the readiness to deliver the savings as planned in the budget. At this stage, 35% (£12.5m) have a high level of confidence, with 46% medium risk and 19% of savings have a high level of

delivery risk. At this stage these planned savings have a weaker delivery confidence than at this point last year.

- 12.3 The emergence of as-yet unknown demand or cost pressures that arise as the pandemic recedes and the possibility that pent up demand emerges, particularly in Children's services.
- 12.4 Pressures in the Adult Social Care market have increased steadily over the past 18 months and are now challenging the capacity of the market to meet demand, resulting in a destabilised market, with a heightened risk of provider failure. Circa £34m of government funds have been passported directly to providers to support pandemic related costs in the current financial year along with £14m of Council Covid-19 specific funds, and these funding streams are not expected to continue in to 2022/23, creating a high risk of additional cost pressures impacting the Council. Whilst this is currently predominantly focussed on the Adult Social Care market, there is a risk other markets may begin to be impacted.
- 12.5 The impact of the pandemic on the Council's tax base has been less than originally anticipated. However, there is still a risk that unemployment rates will rise in the new year, which may hit the local tax base and business rates. Our budget has assumed a continued economic recovery scenario based on the central projection published by the Monetary Policy Committee and OBR macroeconomic data. If economic recovery is slower than this scenario, this could create further pressure on the medium term budget. This could therefore hit our 2023/24 budgets more severely, particularly on the potential impact to the level of council tax and business rates collected. These funding sources are 87% of our total funding, with a 1% fall in council tax reducing funding by £8m.
- 12.6 If there is any material impact on fees and charges as a result of an economic downturn. The fees and charges budget for 2021/22 is £122m.
- 12.7 Any consequential impacts to recurrent government grants (which are currently assumed as continuing at 100%). The one year provisional financial settlement for 2022/23 has created uncertainty around this, as well as the expected fair funding reform, which will look at redistribution of government funding to areas of need, and could result in the Council receiving a reduced level of funding from government in the medium term.
- 12.8 The extent and management of social care demand is a significant risk given that people are living longer, may have greater care needs, and the Council is experiencing more complex cases within Children's services too. However, these areas are monitored closely to allow action to be taken at the earliest opportunity to manage this risk position. The Council has a good record of managing this risk as is evident from the financial review reports provided to Cabinet during the year.

- 12.9 The current high level of the CPI rate (5.1% for November) and the uncertainty around how high the rate may go, and over what period of time it prevails. The single greatest inflationary pressure in the budget is National Living Wage; there are assumptions made about the increase in rate however any change to this by government will have a significant financial impact on the budget, because there will be increased demand for rate increases from contractors. The Conservative manifesto guarantee is to achieve a £10.50 hourly wage by 2024, an increase of 11% on the rate set for 2022/23. The precise profile of this is unknown however the assumed implications for supply chain costs are forecast within the draft budget numbers.
- 12.10 Further potential increases to the Bank of England interest rate may create cost pressures for the Council, particularly in relation to borrowing for the capital programme, where we have an ambitious aspirational programme. This will continue to be monitored both for short term impact, and potential medium term scenarios.

### **Control environment**

- 13.1 In building the budget and considering the risks inherent within it, it is important that the Council considers not only the level of reserves available to support it, but the wider control environment which will help to manage and minimise those risks. This includes:
- a. the approach to financial planning and monitoring with budget holders
  - b. a strong accountability framework which sets out clear roles and responsibilities in terms of financial management
  - c. regular and accurate reporting to Members and senior officers
  - d. performance reporting
  - e. internal audit function assessing controls and processes.
- 13.2 These processes are robust, and it is important that continued focus is given to these by the senior leadership of the Council to ensure this remains the case. These processes provide an early warning system to potential problems to enable appropriate action to be taken if necessary, in a calm and measured way.
- 13.3 However, it must be recognised that these steps will not eliminate risk entirely, especially for those that come externally. There are further measures that can be taken to diminish the overall financial effect of these risks, including:
- a. slowing down or stopping spending
  - b. increasing income elsewhere; or
  - c. moving funds around the organisation.

**Forward Plan Reference Number: FP/015/03/21**

<b>Report title:</b> Everyone's Essex Annual Plan and Budget 2022/23 – Part 2: Budget and Plan	
<b>Report to:</b> Cabinet	
<b>Report author:</b> Councillor Christopher Whitbread, Cabinet Member for Finance, Resources and Corporate Affairs and Councillor Louise McKinlay, Cabinet Member for Community, Equality, Partnerships and Performance	
<b>Date:</b> 18 January 2022	<b>For:</b> Decision
<b>Enquiries to:</b> Nicole Wood, Executive Director for Corporate Services (Nicole.Wood@essex.gov.uk) or Richard Puleston, Director, Policy (Richard.Puleston@essex.gov.uk)	
<b>County Divisions affected:</b> All Essex	

## 1 Everyone's Essex

- 1.1 Everyone's Essex sets out the Council's strategic aims and commitments for the period of the current administration along with key principles for how we operate as an organisation including commitment to ensuring excellent service delivery. In line with Everyone's Essex, this budget seeks to align our financial resources to ensure delivery against our commitments over the next three years whilst also maintaining well-funded and sustainable core and statutory services that can continue to deliver improved outcomes to our local residents.

## 2 Purpose of the Report

- 2.1 The report asks that the Cabinet make a recommendation to the Council that it adopts the Everyone's Essex Annual Plan and Budget 2022/23 including the revenue budget, capital programme, financial strategy and capital strategy. In doing so, the report of the Section 151 (S151) Officer on the robustness of the 2022/23 Budget and adequacy of reserves, included elsewhere on this agenda, should be considered.
- 2.2 The Annual Plan publishes the Council's plans for 2022/23, highlighting those actions that the Council will focus on.
- 2.3 The report includes the Council's proposed financial strategy from 2022/23 to 2025/26, which is informed by the best information available regarding future funding and demand, whilst noting the risks and mitigations approach as outlined in the report. In the continued absence of a multi-year funding settlement for local government, there is inevitably significant uncertainty from 2023/24.

- 2.4 To note that whilst the budget proposed for approval for 2022/23 is balanced, there is not yet a balanced and sustainable budget for the medium term 2023/24 to 2025/26. Further plans and saving opportunities will be developed during 2022 to ensure financial sustainability.

### 3 Decision Areas and Recommendations

**Everyone's Essex Annual Plan and Revenue Budget: Cabinet is asked to make the following recommendations to Full Council:**

- 3.1 That the Everyone's Essex Annual Plan be approved in the form appended to this report (Appendix A).
- 3.2 The net cost of services to be set at **£1,083.4million (m)** for 2022/23 – Appendix A (page 19).
- 3.3 The net revenue budget requirement to be set at **£959.7m** (net cost of services less general government grants) for 2022/23 – Appendix A (page 23).
- 3.4 The total council tax funding requirement be set at **£763.7m** for 2022/23 – Appendix A (page 23).
- 3.5 That Essex County Council's element of the council tax be increased by 4.49%. This is made up of a 1.99% general council tax precept, and 1% adult social care precept as set out by government for 2022/23, plus an additional 1.5% adult social care precept, deferred from 2021/22 using the flexibility set out by government for 2021/22. Therefore, the Essex County Council element of the council tax charge for a Band D property in 2022/23 will be **£1,401.12**. A full list of bands is as follows:

Council Tax Band	2021/22 £	2022/23 £
Band A	893.94	934.08
Band B	1,042.93	1,089.76
Band C	1,191.92	1,245.44
Band D	<b>1,340.91</b>	<b>1,401.12</b>
Band E	1,638.89	1,712.48
Band F	1,936.87	2,023.84
Band G	2,234.85	2,335.20
Band H	2,681.82	2,802.24

- 3.6 That the proposed total schools budget be set at **£576.1m** for 2022/23 which will be funded by the Dedicated Schools Grant, Universal Free School Meals Grant, Pupil Premium Grant, PE and Sports Premium Grant, Sixth Form Grant, Teachers Pay and Pension Grants and the COVID-19 Recovery Premium Grant. The majority of this will be passed through to maintained schools.
- 3.7 That the underlying balance on the General Balance be set at **£68.1m** as at 1 April 2022 (Appendix A, Annex 1, page 51).
- 3.8 That the capital payments guideline be set at **£283.6m** for 2022/23 and that the Executive Director for Corporate Services, in consultation with the Cabinet Member for Finance, Resources and Corporate Affairs, be authorised to make adjustments to the phasing of payments between years (should that be necessary) as the capital programme is finalised, and to report any impact on the Prudential Indicators at the subsequent quarterly review to Cabinet in July 2022. Any requests to change the prudential borrowing indicators would be brought back before Full Council.

**Cabinet are asked to agree the following:**

- 3.9 That the Cabinet Member for Finance, Resources and Corporate Affairs, in consultation with the Executive Director for Corporate Services, may adjust the recommendations to Full Council upon receipt of:
- (a) the final tax base and forecast business rates receipts for 2022/23 from the billing authorities (due by 31 January 2022)
  - (b) the final Local Government Finance Settlement from Government (expected early February 2022)
- 3.10 That the report by the Executive Director for Corporate Services (S151 officer) on the robustness of the estimates, reserves and capital strategy be noted (see the separate item on this agenda).

**Capital Strategy: Cabinet are requested to make the following recommendations to Full Council:**

- 3.11 That the 2022/23 to 2025/26 Prudential Indicators and limits, together with updated limits for 2021/22 as set out in Annexes 3A and 3B of the Capital Strategy (Appendix A) be approved.
- 3.12 That the Treasury Management Strategy for 2022/23 be approved, comprising:
- a. Borrowing strategy, as set out in Annex 3 of the Capital Strategy (Appendix A, Annex 3, page 76).
  - b. Treasury management investments strategy, as set out in Annex 3 and Annex 3D of the Capital Strategy (Appendix A, Annex 3, page 82).
  - c. Indicative strategy for commercial investment activities, as set out in Annex 3 of the Capital Strategy (Appendix A, Annex 3, page 85).

- 3.13 That the policy for making a prudent level of revenue provision for the repayment of debt, (the Minimum Revenue Provision policy) as set out in Annex 3C of the Capital Strategy (Appendix A, Annex 3, page 94), be approved.
- 3.14 That the revised Treasury Management Policy Statement (Appendix A, Annex 3, page 100) and Treasury Management Practices (Appendix A, Annex 3, page 101), which set out the policies, objectives and approach to treasury management, are adopted.

**Pay Policy Statement: Cabinet are requested to make the following recommendation to Full Council:**

- 3.15 Recommend that the Council adopts the Pay Policy Statement for 2022/23 as set out in Appendix C.

**For Cabinet to note:**

- 3.16 The medium term (2023/24 to 2025/26) revenue issues facing the Council as set out in the report (Appendix A, page 13); at present we do not have a balanced budget from 2023/24 and further action will be necessary to identify plans and savings to ensure financial sustainability. The position is based on the best intelligence available today including future funding, price rises and demand. However, in the absence of a government funding settlement beyond 2022/23 and the inherent uncertainty notably given the pressures arising as the pandemic recedes, the financial outlook is volatile.
- 3.17 That the recommendations in this report present a balanced budget for 2022/23. The Council's plans for 2023/24 to 2025/26 are not sufficiently firm as to allow for a balanced budget to be set. Further opportunities for improving income and funding, plus greater efficiencies, will need to be secured in the medium term which will be achieved by a focus on prioritisation and outcomes based commissioning and transformation.
- 3.18 That the above figures are based on a Band D equivalent tax base of **545,042** properties (see Appendix A, page 23).
- 3.19 That the Capital Strategy, which is presented as Annex 3 in Appendix A, sets out the long-term context in which capital expenditure and treasury management investment decisions are made by the Council and gives due consideration to both risk and reward and impact on the achievement of priority outcomes. It comprises a number of distinct, but inter-related, elements as follows:
- **Capital expenditure** – this provides an overview of the governance process for approval and monitoring of capital expenditure, including the Council's

policies on capitalisation, and an overview of its capital expenditure and financing plans.

- **Capital financing requirement and borrowing** – this provides a projection of the Council's capital financing requirement, how this will be funded and repaid, sets out the Council's borrowing strategy and explains how the Council will discharge its duty to make prudent revenue provision for the repayment of debt.
- **Treasury management investments** – this explains the Council's approach to treasury management investment activities, including the criteria for determining how and where funds will be invested to ensure that the principal sums are safeguarded from loss and that sufficient liquidity is maintained to ensure that funds are available when needed.
- **Other investments** – this provides an overview of the Council's intended approach to investment activities, including processes, due diligence and defines the Council's risk appetite in respect of these, including proportionality in respect of overall resources.

- 3.20 The assessment of the impact of the Corporate Systems Programme expenditure funded by the 2020/21 Flexible Use of Capital Receipts Strategy, totalling £3.4m (Appendix E).

#### **4 Statement of the Executive Director Corporate Services (S151 Officer)**

- 4.1 The Executive Director Corporate Services is the Chief Finance Officer appointed under S151 of the Local Government Act 1972 and is also the Chief Financial Officer for regulatory and statutory purposes.
- 4.2 The report by the Executive Director Corporate Services (S151 officer) on the robustness of the estimates, reserves and capital strategy is set out in the separate report elsewhere on this agenda.
- 4.3 It should be noted that this report will see council tax increased by 4.49%, of which 2.5% is to be spent on adult social care using the adult social care precept.

#### **5. Other Issues**

- 5.1 An equality impact assessment has been undertaken on the budget in line with the public sector equality duty. The findings of the Equality Impact Assessment (EIA) carried out are included at Appendix B of this report.
- 5.2 The review of the fees and charges schedule is an annual process with fees and charges being agreed by officers or by the relevant Cabinet Member. The

proposed fees and charges for 2022/23 budget are published on the Council's website. These are provided for information only and none of the recommendations in this report ask the Cabinet to set these fees and charges. [www.essex.gov.uk/spending-and-council-tax/finance-and-spending-breakdowns](http://www.essex.gov.uk/spending-and-council-tax/finance-and-spending-breakdowns)

## **6. Relevance to the Council's Everyone's Essex Strategy and Plan**

- 6.1 The Annual Plan for 2022/23 covers the action the Council will take next year to contribute to Everyone's Essex, alongside the Budget. The Annual Plan is set out in Appendix A.

## **7. Internal and External Consultation**

- 7.1 All Executive Directors and Directors have been involved in the preparation of the Annual Plan and the Budget.
- 7.2 Through budget consultation meetings the Council engages with representatives from the unions.
- 7.3 Public consultation was undertaken during October and November 2021, for a period of 4 weeks. Through this exercise, the Council gathered the views of residents and those who run businesses within the county. The consultation was promoted via the Essex residents panel, through the Council's corporate communications channels and through digital / social media. As well as gathering responses to consultation questions, the Council convened three focus groups to enable deeper discussions and the exploration of key themes.
- 7.4 There were 1,228 responses to the consultation (including both residents and self-employed/business owners). The full report on the budget consultation is shown in Appendix D. The key messages from respondents to the consultation are that:
- the most important issues facing Essex today included:
    - National Health Service/Healthcare (42% of residents and 45% of those who are self-employed/ businesses)
    - Social Care Provision (34% across both groups)
    - Crime/Community Safety (29% of residents; 36% of self-employed/ businesses)
  - the areas of greatest concern to individuals are:
    - Condition of roads and pavements (51% of residents and 47% of business respondents)
    - Climate change (29% and 33%)
    - The local environment/pollution (28% and 33%)

- Levels of crime in my town/neighbourhood (25% and 26%)
- When asked about things that should be prioritised for immediate action, participants identify:
  - Developing Essex infrastructure (41% of residents and 45% of business respondents)
  - Supporting those who care for sick or vulnerable people (40% and 32%)
  - Minimising the amount of waste generated in Essex (33% and 31%)
  - Protecting vulnerable children (32% and 37%)
  - Securing high standards in education (31% and 27%)
- Respondents (residents and the self-employed/ business owners) generally want ECC to strike a balance between spending on long-term and short-term needs. They want to find the middle ground between serving the needs of people/places facing greatest difficulty with the priorities of the county as a whole. They also have a clear appetite to see spending decisions taken as close to local communities as possible.
- When faced with financial pressure, respondents are most supportive of moves to:
  - strengthen independence - reducing the need for individuals/ families/ communities to rely on public-funded support
  - prioritise resources for the vulnerable.

But respondents were also supportive of moves to streamline services, work with partner organisations/third parties and encourage local people/communities to play a greater role.

Respondents were generally less supportive of strategies that involve the introduction of new charges for services that are currently free at the point of use. They are least supportive of moves to stop delivering services entirely.

- The majority (71% of residents and 67% of business owners/ self-employed participants) agreed that ECC should consider increases in council tax where these would protect services for the most vulnerable people. However, this should be considered only where opportunities to secure efficiencies from streamlined services have been exhausted (63% of residents and 59% of businesses), or where the alternative would be to stop delivering some services (64%).

7.5 Taken together, these results suggest that people who participated in the consultation recognise the continuing financial pressures facing the Council and the need to prioritise and make efficiencies. They also recognise the need to

balance spending on protecting the most vulnerable and on providing good universal services that most residents use.

- 7.6 In response to the key messages, the Council is investing an additional £51m in portfolio budgets for 2022/23 (£45m including other operating costs). The most significant part of the budget is spent on social care services (55% of gross expenditure, excluding dedicated schools grant (DSG)). The Council is also continuing to invest in the maintenance of roads and footways, children's services, economic regeneration and waste.
- 7.7 This report will also be reviewed by the Corporate Policy and Scrutiny Committee prior to final presentation of the Annual Plan to Full Council on 10th February 2022.

## **8. Legal Implications (Monitoring Officer)**

- 8.1 In each financial year the Council must make its budget calculation in accordance with sections 42A and 42B of the Local Government Finance Act 1992. In particular, it must calculate the total of:
- The expenditure the authority estimates it will incur in the year in performing its functions and will charge to a revenue account for the year
  - Such allowance as the authority estimates will be appropriate for contingencies in relation to expenditure to be charged to a revenue account for the year
  - The financial reserves which the authority estimates it will be appropriate to raise in the year for meeting its estimated future expenditure
  - Such financial reserves as are sufficient to meet any estimated revenue deficit for previous financial years which has not already been provided for.
- 8.2 Those calculations are then used to determine the council tax requirement for the year.
- 8.3 The Council is required to set a balanced budget and in considering the budget the Council must have regard to the advice of its Chief Finance Officer appointed under section 151 of the Local Government Act 1972.
- 8.4 The Council must issue any precept or precepts in accordance with section 40 of the Local Government Finance Act 1992. The section prescribes what must be included in the issue of the precept. It must be issued before 1 March in the financial year preceding the year for which it is issued but is not invalid merely because it is issued on or after that date.

- 8.5 Under section 25 of the Local Government Act 2003, the Chief Financial Officer (section 151 officer) is required to report to the authority on the robustness of the estimates made for the purposes of the calculations required to be made by the Council. These are the estimates which the Cabinet is required to determine and submit to Full Council and are contained within this report. The Chief Finance Officer is also required to report on the level of reserves.
- 8.6 In deciding its Capital Programme for the year, the Council must have regard to the 'Prudential Code' established by and under the Local Government Act 2003. This is addressed in the report.
- 8.7 The budget makes provision on the basis that a number of changes to Council services which are under consideration may be made. The budget does not itself authorise any changes to services and does not assume that changes will be made. Any changes to services will need to be the subject of appropriate consideration by the Cabinet Member or the Cabinet following, where appropriate, consultation and a full report setting out options for change, the impact of the proposed changes on service users, including in particular the impact on different equality groups. Where a decision is made not to implement any changes then budgetary adjustments may need to be made but the Council is confident that whilst savings over the 2022/23 budget are assumed, each can be implemented in a number of ways, thus no particular changes are assumed.
- 8.8 The setting of the budget is a function reserved to the Full Council, but the Cabinet is required to make recommendations it wishes to make to Full Council on the various calculations the authority is required to make. Once the budget is agreed by Full Council, the Cabinet cannot make any decisions which conflict with that budget, although variations and in year changes may be made in accordance with the Council's Financial Regulations. Similarly, any decision made by the Cabinet or by an officer exercising executive functions must be made in accordance with the policies, plans and strategies agreed by Full Council, including the Everyone's Essex Strategy.
- 8.9 Section 106 of the Local Government Finance Act 1992 restricts any member of the Council from voting on the budget or council tax requirement if they owe any amount of council tax to any local authority which has been outstanding for more than two months. If this applies to a member and they attend a meeting at which the council tax requirement is to be set they must declare this fact and they cannot vote. It is an offence to vote or to fail to make this declaration.
- 8.10 Section 52ZB of the Local Government Finance Act 1992 requires the Council, when setting council tax, to determine whether or not the increase is 'excessive'. An increase is excessive unless it is within parameters determined by the Secretary of State. If an increase is 'excessive' it can only be implemented if supported by a referendum.
- 8.11 The final decision on what is an 'excessive' increase for 2022/23 has not yet been made, and a decision is not expected until early February 2022. If the

Council sets council tax before the finance settlement, then it would need to reconvene to determine whether or not the increase is excessive. Based on what is currently known, the recommendations in this report would not lead to an increase in Council tax which is defined as 'excessive'.

- 8.12 The draft principles for 2022/23 published by the Secretary of State in December 2021 state that for the Council any increase of 2% or more (excluding 'social care precept') would be defined by the then Secretary of State as 'excessive'. The recommendations in this report would not see any increase in the council tax other than the social care precept.
- 8.13 In addition, social care authorities are permitted to levy a 'social care precept' of up to a further 4% over two years without the overall increase being considered 'excessive', although Essex used 1½% of this in 2021-22. There is no legal requirement for the money raised to be used for adult social care services, but the Secretary of State has previously indicated that he will ask local authorities how they have spent the money. If an authority is unable to demonstrate usage for social care purposes, he may restrict that authority's ability to raise council tax in future years.
- 8.14 This means that any increase by ECC of 4.5% or more would trigger a referendum.

## **9. Staffing and Other Resource Implications**

- 9.1 An element of reorganisation and reshaping will be required to support efficiency gains in some operational areas. Staffing implications which may arise as a result of operational plans flowing from this budget will be addressed under their specific implementation plans.

## **10. Equality Impact Assessment**

- 10.1 Section 149 of the Equality Act 2010 creates the public sector equality duty which requires that when the Council makes decisions it must have regard to the need to:
- (a) Eliminate unlawful discrimination, harassment and victimisation and other behaviour prohibited by the Act
  - (b) Advance equality of opportunity between people who share a protected characteristic and those who do not.
  - (c) Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.
- 10.2 The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, gender and sexual orientation. In addition, marital status is a relevant protected characteristic for 9.1(a).

- 10.3 The equality implications have been assessed as part of the budget setting process as detailed in Appendix B. Equality impact assessments will be carried out before any decision is taken to change any services in response to the budget or otherwise - please see paragraphs 4.1 and 7.7 of this report for further information.

## **11. List of Appendices**

**Appendix A – Essex County Council Annual Plan 2022/23**

**Appendix B – Equality Impact Assessment (Annual Plan and Budget)**

**Appendix C – Pay Policy Statement**

**Appendix D – Budget Consultation Report**

**Appendix E – Flexible Use of Capital Receipts Strategy - Update**

# Everyone's Essex Annual Plan

## 2022-2023

# Essex County Council Everyone's Essex Annual Plan 2022/23

## Contents

1. Everyone's Essex Strategic Aims
  - a. Aim 1: Strong, inclusive and sustainable economy
  - b. Aim 2: High quality environment
  - c. Aim 3: Health, wellbeing and independence for all ages
  - d. Aim 4: A good place for children and families to grow
  
2. Resources
  - a. Financial Strategy 2022/23 to 2025/26
  - b. 2022/23 Revenue Budget
  - c. 2022/23 Capital Programme
  
3. Annex 1: 2022/23 Revenue and Capital budgets  
Annex 2: Performance  
Annex 3: Capital and Treasury Management Strategy

## **1. Everyone's Essex Strategic Aims**

Aim 1: Strong, inclusive and sustainable economy

Aim 2: High quality environment

Aim 3: Health, wellbeing and independence for all ages

Aim 4: A good place for children and families to grow

## **Aim 1: Strong, Inclusive and Sustainable Economy**

Generating annual output of some £40 billion, larger than many City regions, Essex is a substantial, growing, and diverse economy. The County supports 700,000 jobs and 74,000 businesses and is home to world leading R&D in quantum technologies, medicine, data science and manufacturing – all underpinned by a strong corporate base and growing universities. Essex has excellent connections to London; Cambridge and the M11 Corridor; East Anglia; and the rest of the world – and we are growing rapidly as more people choose to make Essex their home. Essex also has a very significant small and medium size business sector, with a strong entrepreneurial culture highlighted by a sixth of workers in the county being self-employed.

We have strengths in a number of economic sectors including financial services, advanced manufacturing, and the knowledge economy, and are well positioned to take advantage of a growing potential in crucial growth sector sectors such as Clean Energy that will drive a more sustainable economy of the future. We will deliver and maintain high quality infrastructure to improve opportunities for people living in Essex as well as supporting a growing economy and the delivery of new homes and communities by investing in the region of £1 billion by the end of this council. With our partners we have secured £489m from the Housing Infrastructure Fund and Housing Investment Grant and £27m from Get Building Fund for projects enabling sustainable development of key places. On town centres we have worked with our partners to secure £42m investment into Colchester and Harlow from the Town's Fund and have held a successful High Street Summit. Across Essex there are ambitious plans to renew existing communities and build high quality new ones, like our 'garden communities', ECC will continue to play a full role in the delivery of these important projects.

Despite this strong position COVID-19 has had a dramatic impact on the local economy. The sectors most disrupted by the pandemic such as retail, accommodation & food services, and construction businesses employ more than 225,000 Essex residents and as a result over the past year the districts of Basildon, Braintree, Chelmsford & Epping Forest have recorded among highest proportion of furloughed workers in England. The disruption to employment, whether through furlough or the outright loss of a job has a real impact on people – we know over the course of the pandemic a fifth of unemployment claimants were aged 16-24, a group disproportionately impacted by losing employment.

The county also suffers from some long-term systemic economic challenges, exacerbated by COVID-19, which hold our residents back from achieving their full potential this includes: lower levels of productivity compared to some other areas; lower levels of residents with NVQ level 4 qualifications; gaps in earnings for people who live and work in the county and those who travel outside for work; challenges around the availability of quality housing to meet deprivation; and high levels of deprivation in pockets across the county.

We are already working hard to support businesses affected by the pandemic, so that they can protect jobs, resume profitable trading and grow sustainably in the future, and are working with partners to support those made unemployed to retrain. But our plans are not just about recovering from the impacts of the pandemic, we are also ambitious for the future of the Essex Economy. As well as supporting our existing businesses, we want to attract new medium sized and larger firms to locate to Essex, particularly those in rapidly emerging economic sectors. Working with

partners we want to support our whole workforce to upskill to enable it to progress into more gainful and sustainable employment in growing sectors of the economy. This will also deliver the necessary skilled labour supply to enable businesses to recover, adapt, innovate and grow.

***Where do we want to go to by the end of the plan?***

To tackle these challenges and grasp the opportunities that lie in front of us, this plan set outs a range of activity over the course of the Everyone's Essex plan for next 4 years until 2025. While we are delivering those initiatives and actions, we need set out our ambitions for the medium-term direction of our work and keep one eye on how we are progressing towards them. By 2025 we want to be able to say that we have:

1. Supported residents who become unemployed and increased the number of residents with training and skills qualifications aligned to the requirements of the Essex economy, through information, advice and guidance and job matching solutions to enable local people to access gainful employment and training opportunities
2. With partners, delivered place-based renewal and growth addressing the socio-economic determinants of health (income, education, employment, and housing) to reduce the proportion of Essex Population in the most deprived 20% of areas
3. Delivered infrastructure to support delivery of high-quality new homes & communities and sustainable growth of existing places using £516m of committed investment by 2025, using this to leverage additional funds to expand the programme
4. Created the conditions for growth for existing Essex economic sectors and those of the future, to attract high levels of new inward investment and business relocations
5. Work with employers to help them to drive local Higher, Further, and Adult Education provision and investments to meet their needs, as well as encouraging them to work with us to support unemployed people, and those with learning disabilities or Special Educational Needs and Disabilities (SEND) to (re-)enter the workforce

Across all of these ambitious end-states for the plan, collaboration with our partners will be crucial to achieving success. Anchor institutions, local businesses, education institutions like our 3 Essex Universities, and our District and Borough councils, both individually and through economic partnerships, will all play important roles in the delivery of our wider strategic aims and this is recognised throughout this delivery plan.

## Aim 2: High Quality Environment

The scientific evidence of climate change is overwhelming. The impacts of climate change – both globally and locally – could be severe without significant intervention. These impacts of climate change are already being felt today by Essex residents. We can expect to see warmer and wetter winters, hotter and drier summers and more frequent and intense weather extremes overall. Our long, low coastline makes us particularly vulnerable to rising sea levels, and many areas of the Essex coastline have already experienced significant impacts. As we look ahead, the number of homes at risk of flooding in Essex could double by 2050, and the water shortages we already experience in the summer could get worse still. These changes threaten our safety, our health and our economic wellbeing.

Essex will also play its part in delivering the UK's commitment to reduce its greenhouse gas emissions and to achieve net zero emissions by 2050. Meeting this commitment will require significant changes in the way we live, including shifts from private cars to more sustainable modes of transport, a move to low carbon heating in energy efficient buildings, the increased use of energy from renewable sources, and the development of a 'circular economy' in which both waste and the unnecessary use of natural resources is minimised. Government policy and investment, business decisions and changes to individual choices will all be required to enable these changes.

Strengthening our county's natural assets will also be a vital element in our strategy to combat climate change, both to absorb carbon and reduce our exposure to climate risks including flooding and overheating. We know that over the last century the intensification of agriculture and the growth of our towns and villages has led to the loss of green spaces and biodiversity. Essex currently has one of the lowest areas of land given over to trees in the UK, and only around one in three households are within a five-minute walk of a publicly accessible green space. Again, this has a direct impact on quality of life. Green spaces are valued highly by Essex residents and the benefits they bring in terms of physical and mental health are well-recognised.

The Covid-19 pandemic has created new challenges and opportunities. In the short-term we have seen a loss of confidence in public transport and an increase in domestic waste produced through home-working. But we have also seen reductions in car use as more people have worked from home. We have also seen a more explicit appreciation of local green spaces within our communities.

Although there are significant challenges ahead, Essex residents recognise the need for a response. Around 66% of residents say they are 'extremely' or 'very' concerned about climate change, and more than three-quarters (78%) consider that they are already taking action to help tackle climate change. This is a good foundation upon which to build: we will work closely with, and empower our residents and communities to support the changes required to protect our environment, bring down emissions and safeguard our future health and prosperity.

Our work with the Essex Climate Action Commission gives us an opportunity to develop ambitious proposals, based on leading expert advice, and to build broad consensus around their implementation. We already have a strong track record in delivering projects to support climate change mitigation and adaptation, including the Essex Forest Initiative, recycling and energy efficiency programmes, renewables projects, and

flood defence. We will take this momentum and the passion of Essex residents to tackle this problem with us on our mission to make Essex a net zero county by 2050, and a home of green innovation.

***Where do we want to go to by the end of the plan?***

To tackle these challenges and grasp the opportunities that lie in front of us, this plan sets out a range of activity over the course of the Everyone's Essex plan for the next 4 years until 2025. While we are delivering those initiatives and actions, we need to set out our ambitions for the medium-term direction of our work, and keep one eye on how we are progressing towards them. By 2025 we want to be able to say that we have:

- 1) Significantly reduced ECC's carbon footprint through our estate, operations and supply chain, and are on track to meet our target of a net zero Essex County Council by 2030.
- 2) Made significant progress in the transition to more sustainable energy, travel and housing, and towards a circular economy that minimises waste, developing sustainable and healthy neighbourhoods.
- 3) Worked with our communities to make them more resilient against environmental challenges including flooding, heat stress and water shortages.
- 4) Worked with our communities and businesses to enable and empower local action to reduce greenhouse gas emissions and build climate resilience.
- 5) Developed the quality and accessibility of our natural environment and green infrastructure so that it enhances quality of life for all our residents.

Across all of these ambitious end-states for the plan, collaboration with our partners will be crucial to achieving success. Anchor institutions, local businesses, education institutions like our 3 Essex Universities, and our District and Borough councils will all play important roles in the delivery of our wider strategic aims and this is recognised throughout this delivery plan.

## Aim 3: Health Wellbeing and Independence for All

Historically, Essex has enjoyed good health, but there are public health challenges that affect Essex as a whole, as well as significant inequalities experienced in different locations and by different groups across the county. Prior to the Covid-19 pandemic, life expectancy, healthy life expectancy, and disability-free life expectancy for both men and women were higher in our county than the England average. Below the county level however, the picture of life expectancy is much more varied. There is a gap of around 12 years in life expectancy between those living in the most and least deprived neighbourhoods. Those from more deprived neighbourhoods are also more likely to spend more years living in poor health, limiting access to economic and social opportunities. Identifying the specific cause of inequality is complex, but it is unlikely that differences in access to or the quality of local healthcare could account for all these differences. Rather, these inequalities are in part driven by socioeconomic and environmental factors or the 'wider determinants of health', including inequalities in income, employment, education and living conditions.

The challenge of inequality relates to mental health as much as physical health and there remains a particular concern around high suicide rates, with three Essex districts amongst the top four in the country. Those who have reported worsening mental health during the pandemic are often from the same groups that have been most impacted by the virus itself or by measures taken in response to it. People from an ethnic minority background, care givers, lower-income households, children and young people and people who were shielding for long periods have all been particularly affected. Frontline health and care staff have also reported heightened levels of stress and anxiety. Research with vulnerable groups suggests that during the pandemic, the risk of infection and changes in restrictions, and expectations around others' behaviours led to a loss of confidence and independence, loneliness and isolation and a decline in physical, emotional, and financial wellbeing. This is on top of the barriers and challenges already being faced by vulnerable groups before Covid-19. Tackling these inequalities will require us to work differently with our residents and communities, working with them as active partners in the system, not as passive recipients of services. They are best placed to understand their own needs and challenges, and help to design and deliver services, and build resilience locally.

Over recent years, public funding for social care has failed to keep pace with need and costs. Pressures associated with inflation, increases in the national living wage and competition for workers in other sectors, combined with the constant growth in frail older people and younger people with disabilities, has placed considerable pressure on the system. With publicly funded care being driven towards the most acute, complex and expensive services, this leaves fewer resources to support earlier interventions that could secure better long-term outcomes. We must also work to transform social care provision for the future and prepare for significant national reforms that are on the horizon, including implementation of the Health and Social Care Bill, changes to the adult social care charging system and introduction of a new national assurance regime. 2022 will also see the Integrated Care Systems (ICSs) become legal entities and there will be a huge amount of work to create effective new systems that work at different levels, from the community and district to ICS and county levels.

A key priority for the year ahead is the need to stabilise the care system, given the impacts of the pandemic, and to work with the broader social care market to build resilience, stability and viability – this will be a crucial foundation if we want to be able to focus on longer-term issues. To achieve this, we need to innovate at the local level by exploiting the potential of new technologies to enable more people, including those with more complex needs, to live independently or be cared for at home. It will mean working to secure closer integration and alignment between health care and social care provision – ensuring that service users' and patients' care is coordinated around their needs. This will also mean supporting unpaid carers – national estimates suggest that there has been a surge in the number of people providing care for older, disabled or seriously ill relatives or friends since the pandemic began. These carers face extreme pressures and there are huge challenges in supporting unpaid carers to maintain their own wellbeing and have access to opportunities in other areas of their lives. There are also challenges for the wider care system as unpaid carers begin to return to work and/or face hardship due to caring or job losses.

***Where do we want to go to by the end of the plan?***

To tackle these challenges and grasp the opportunities that lie in front of us, this plan sets out a range of activity over the course of the Everyone's Essex plan for the next 4 years until 2025. While we are delivering those initiatives and actions, we need to set out our ambitions for the medium-term direction of our work, and keep one eye on how we are progressing towards them. By 2025 we want to be able to say that we have:

- Developed a joined-up programme of short- and longer-term support to help to address the socioeconomic drivers of poor health, and to 'level up' the health of our deprived and left-behind communities and residents.
- Supported residents of Essex to make more informed choices that will enable them to experience better physical health and reduce their likelihood of developing long-term physical health conditions, and will have improved access to support for residents experiencing mental health concerns.
- Worked with partner organisations, communities and employers to improve outcomes for vulnerable residents and those with complex needs, to increase access to employment and suitable accommodation and to enable them to have greater choice and control over different aspects of their lives.
- Moved towards a community-based model of adult social care that is more local and helps people to get the right support at the right time to maintain their independence and quality of life.
- Worked with partners to support changes in the health care system and make better use of the total public sector spend on citizens in a place, and shifted resources from a reactive, demand-led model of health and social care towards one which underpins prevention and early intervention.

Across all of these ambitious end-states for the plan, collaboration with our partners will be crucial to achieving success. Health partners, District and Borough councils, community organisations, anchor institutions, local businesses and education institutions like our 3 Essex Universities will all play important roles in the delivery of our wider strategic aims and this is recognised throughout this delivery plan.

## Aim 4: A good place for children and families to grow

Everyone should have the best chance to go as far as their talent and hard work will take them. The overarching picture for Essex is that outcomes for most children and young people are good and were improving across the county prior to the pandemic. Educational outcomes for the majority of children and young people are good, and our numbers of Looked After Children are stable and have remained low compared to elsewhere in the country. Our Children's Social Care and Youth Offending Services are now judged Outstanding and the significant majority of our schools and early years settings are also rated as Good or Outstanding. We have an effective range of community-based early help services provided both by our commissioned services and by the voluntary sector, and we deliver interventions which divert young people from care and are based on innovative and evidence-based approaches. Once in care, we work hard to improve outcomes and to enable young people to return home if safe to do so. Our Youth Services are delivered in a way that builds capacity in the communities our children and young people live and grow up in. We also have an active and large voluntary and community sector which harnesses and develops the capacity of volunteers to support early intervention and provide safe and supportive environments and activities which enable families, children and young people to grow and flourish.

Whilst we know that the majority of children, young people and their families are thriving in Essex, the long-term outcomes for children and young people from vulnerable groups or those living in deprived areas are not always as good. Out of a cohort of 217,000 school age children, there are around 5,800 "children in need" (*children and young people (under 18) who need local authority support to achieve or maintain a reasonable standard of health or development or to prevent significant or further harm*); and around 39,000 children in Essex live in neighbourhoods that are amongst the most deprived 20% nationally. In 2019 68.2% of children from deprived communities achieved a 'good level of development' at the end of their reception year, compared to 80.3% in Essex's least deprived areas. This gap grows as pupils progress through school with 43.7% of pupils from deprived communities achieving English and Maths GCSE at grades 9-4, compared to 72.7% of pupils in the least deprived areas. This trend has potential consequences for young people's future opportunities, for example 18.5% of Children receiving free school meals in Essex go on to higher education, compared to 38.6% of those who are not in receipt of free school meals. The impacts of deprivation extend beyond education settings as financial pressures can affect family life, shaping children's earliest experiences, and impacting on their wider health and wellbeing. Around three in ten children in Essex currently live in households where incomes fall below the level required to sustain a 'decent' standard of living. Amongst single parent families, this increases to almost seven in ten. Working parents in struggling households can experience low-paid work, irregular hours and limited opportunities to progress.

During the Covid19 pandemic education providers have worked tirelessly not only to ensure continued education in person and through remote learning, but also to support the welfare of children and families by providing free school meals, food parcels, activity packs and undertaking welfare checks on all children. It is thanks to this hard work that we know that some children have been able to thrive during lockdown and overall, children across Essex have returned to school eager and ready to learn and connect again with friends. Despite the efforts of schools, social care workers and the range of partners we work with, we know however that the impacts of the pandemic on our children and young

people have not been mitigated completely. The closure of schools to the majority of pupils has limited children's access to support and removed some of the protection of school, with the number of children referred from schools to children's social care being significantly lower than anticipated in the period between April and November 2020. Our most disadvantaged children and families are also more likely to have experienced loss of household income through furlough or unemployment through the pandemic; these are also the children who faced some of the greatest barriers to remote learning, with challenges around access to digital devices and study spaces.

Tackling these issues will be a challenge for partners across Essex. The pressures of the pandemic are likely to drive increases in demand for services, both across children's social care and education. But partners will also need to work to influence the early years and school system, the further and the higher education sectors, and national government policy to tackle immediate pressures and drive social mobility. We need to be influential and encourage and promote opportunities for children from marginalised communities or disadvantaged backgrounds who would otherwise be unable to access them. Crucially, we need to tackle the underlying causes and drivers of poverty, deprivation and disadvantage in our communities.

### ***Where do we want to go to by the end of the plan?***

To tackle these challenges, this plan set outs a range of activity over the course of the Everyone's Essex plan for next 4 years until 2025. By 2025 we want to be able to say that we have:

1. Improved educational experiences and outcomes for children and young people by increasing the percentage of children who are who are achieving a 'good level of development' at age 5, the percentage of young people achieving 9-4 in English & Maths at GCSE, and the percentage of children and young people attending a school rated 'Good' or 'Outstanding' by Ofsted.
2. Supported low income working families to help them build resilience and prevent them from reaching crisis points where they might require more intensive interventions from different agencies.
3. Worked with partners to continue to safeguard vulnerable children from a range of harms in at home in the community including domestic abuse and criminal exploitation; maintain low levels of youth offending and reoffending; and put in place new interventions to improve the safety of women and girls.
4. Improved the outcomes for vulnerable young people and those with poorer average outcomes including at attainment EYFS, KS2 and KS4, increased access to post 16 and higher education, and improved employment prospects. We will also put in a place a plan for sustainable SEND provision to ensure needs are addressed with the right provision at the right time.
5. Worked with partners and communities to put in place a new and comprehensive package of support to enable vulnerable families mitigate immediate pressures and build long-term resilience on matters such as financial wellbeing, low paid employment, insecure housing, and physical and mental health.

Across all these ambitious end-states for the plan, collaboration with our partners will be crucial to achieving success. Early Years providers, schools and other education providers (including Further and Higher education, and adult skills), community and voluntary sector organisations,

district and borough partners, Essex Police, Health Services, and housing providers will all play important roles in the delivery of our wider strategic aims.

## Resources

### Financial Strategy 2022/23 – 2025/26

The 2021/22 financial year has been challenging as the Covid-19 pandemic continues. There have been significant levels of spend to support the continuation of Adult Social Care and frontline services being delivered to residents, as well as support for those hardest hit by the pandemic, working in conjunction with partner organisations. We have also seen reductions in the level of income we receive where we charge for services, as a result of lockdowns and restrictions on activities, alongside changes in residents' behaviours. At the time of writing, spending pressures and income losses in relation to the pandemic are estimated at over £120m for ECC. To support this we have received significant funding from Government, however the medium to long-term impact of the pandemic on the economy and demand for services is still unknown and leaves us with a significant level of uncertainty in our medium-term financial strategy.

We have a legal responsibility to operate within a balanced budget. With the changes and reductions in Government grant funding over recent years, coupled with increasing and more complex demand for core services such as caring for the elderly, protecting vulnerable children and supporting those families who need it, the financial situation continues to be challenging. However, it continues to provide an opportunity to question how services are currently provided and where necessary, redesign them to better meet the needs of residents and communities now and in the future.

The budget sets out the financial resources that we have available to deliver our statutory requirements, political priorities and the Annual Plan and therefore achieve the Everyone's Essex Strategic Aims. In 2022/23, we will spend a gross budget (including schools) of **£2,082m**, which, after taking income and specific grants into account, amounts to a net cost of services of **£1,083m**, some £45m or 4% more than originally budgeted in 2021/22, and invest **£284m** in our capital programme. This budget is underpinned by a financial strategy to ensure that we can continue to live within our means, whilst also continuing to deliver essential services to residents and keep council tax as low as possible.

We have a strong record of sound financial management, and over the last 4 years have generated savings to taxpayers of **£222m**. A further **£36m** of new savings are forecast to be delivered by the end of 2022/23 (**3%** of net budget). The planned savings are focused around transformation of community care for Older People to deliver better outcomes, generating efficiencies through the "Meaningful Lives Matter" programme by providing better support to adults with learning difficulties, use of technology, contract efficiencies and more efficient use of buildings. We have an outstanding track record of delivering savings, generating income and delivering value to our residents, with a constant focus on strategic outcomes and financial prudence.

The Provisional Financial Settlement from Government confirmed the majority of announcements in the Autumn Spending Review. This included new monies for social care as well as a new Services grant for 2022/23. In addition to this, for the Dedicated Schools Grant (DSG), an additional £21.9m in respect of the High Needs Block was announced. There was only a one-year funding announcement for most grants. The Provisional Settlement also confirmed the continuation of Revenue Support Grant (RSG) of £19m.

Our long-term funding position is less clear. There is no funding certainty from Government beyond 2022/23, which makes it difficult to plan for the longer term. Our medium-term strategy assumes the continuation of Revenue Support Grant at the provisional 2022/23 level of **£19m**, and the continuation of social care grants at the current 2022/23 level.

Our budget for 2022/23 assumes that council tax is increased by 4.49%. This is made up of a 1.99% general council tax precept, and 1% adult social care precept as set out by Government for 2022/23, plus an additional 1.5% adult social care precept, deferred from 2021/22 using the flexibility set out by Government for 2021/22. The precept is being used to insulate Adult Social Care from higher savings, and support growth in demographics and inflation. Taking these increases into account, the council tax for a band D property will be **£1,401.12; this is an increase of £1.16 per household per week.**

Net expenditure of **£1,083m** is funded by Council Tax, Business Rates, RSG and General Government Grants. Income from Council Tax is the largest funding stream at **£770m** and will make up **71%** of our funding in 2022/23.

Based on latest intelligence on demand for services, inflation, and likely funding levels, we are forecasting a budget gap of £24m in 2023/24 rising to £119m in 2025/26. The most significant driver of the gap is inflation which accounts for £86m, followed by new burdens and other cost pressures of £19m, including financing of the capital programme, then demographic growth of £14m. There are no assumptions made around future levels of council tax in arriving at the gap.

Some progress has been made towards balancing the budget over the medium term. Further new savings totalling £14m have been identified in the medium term to 2025/26, and are included in the forecast gap. Work will continue during 2022/23 to identify proposals to close the funding gap beyond the next year. We are fully cognisant of the challenges faced, including the funding uncertainty, and we are determined to continue to transform how we operate to tackle this enormous task. We are committed to delivery of savings and generating the income required to reach a balanced budget position but also to deliver better services for residents.

There will be a continued focus on commercialism where possible, effective contract management and working with partners to secure value for money in delivering our strategic aims and priorities. We will be redesigning services where appropriate to ensure they remain modern and fit for purpose. The capital programme includes £46m of schemes which will result in cash savings or reduced costs thus reducing the burden on taxpayers.

## Capital

The capital programme presented is fully developed for 2022/23 and provides the current view of the programme for 2023/24 to 2025/26. The 4-year programme totals £1,315m, and is one of the largest four year programmes to be announced by the Council.

The longer-term capital programme aspirations remain significant and we recognise that investments are essential to meet future needs, generate additional income including capital receipts and deliver revenue savings and reductions in cost. We will continue to develop a future programme of investment which is affordable within the financial envelope available, and will help transform service delivery to improve the quality of life for residents.

The overall aim for the capital programme is to have a diverse portfolio of activity ensuring, where appropriate, the creation of new assets and maintaining the quality of existing infrastructure, for the benefit of our residents and businesses.

The approach to the development of the capital programme is:

- Ensuring activity is prioritised in line with the Everyone's Essex strategic aims, with robust delivery plans in place, enabling delivery on time and at value, for example maintaining the road network and ensuring every child has a place at school.
- Utilising and leveraging the existing asset base to ensure it is fit for purpose, creating value and ensuring external funding is leveraged, especially from development, which will maximise the financial envelope available for capital projects such as funding for road improvements, new road junctions and building new schools.

Over the last three years we have invested over £208m on improving the quality of the roads and footways. As a result, we have seen significant improvements in the condition of the main road network, local roads and improvements to relieve congestion in several key locations.

Continued investment is vital to achieving the ambitions for the county which are aligned to the district's local plans, from schemes to generate economic growth to reducing congestion and unlocking land to develop homes. Following the notable achievement in securing Housing Infrastructure Funding (HIF) to support this ambition, schemes are now progressing through the design phase and soon to be in the construction phase such as Beaulieu Station and Chelmsford North-East bypass that will deliver a new train station and road improvements, and the A133-A120 Link road and Colchester Rapid Transit System schemes supporting delivery of the Tendring-Colchester Borders Garden Community.

Over the next year delivery will continue on significant packages of highway works such as a new junction on the M11 at 7a, and improvements to the M11 Junction 8 and at the A127 / A130 Fairglens Interchange. We will continue to work closely with the Department for Transport and National Highways to secure funding for our developing longer-term pipeline covering the next 10 to 15 years, which will provide greater opportunities to leverage external funding and work with third parties to enable greater outcomes for Essex.

Continued investment into the Superfast Essex Broadband programme will ensure that 98% of all fixed addresses in the county have access to superfast broadband, with many rural installations now being delivered via full-fibre connectivity, capable of ultrafast speeds.

Essex Housing Development Limited Liability Partnership (LLP) is our housing development arm which works with public sector partners across Essex to identify and bring forward surplus land in order to help address general, specialist and affordable housing need, generate capital receipts and deliver revenue benefits. The ambitious programme continues in bringing forward private units which offset the costs of the affordable and specialist units to ensure the model is financially sustainable. Specialist units such as Independent Living for Older People and People with Learning Disabilities help promote the independence of some of the most vulnerable in the County, improve outcomes and reduce the costs of social care provision. Our ambition over the next four years is for 443 units to be delivered.

Increased investment and working in partnership with organisations and communities across the county is vital to achieving the ambitions for the Essex Climate Action Commission. We will continue the aspiration to achieve net-zero through delivering buildings that will have a net-zero carbon operational design; transforming our estate to be more energy efficient; make Essex more resilient to climate impacts such as flooding; deliver and maintain new and existing cycling infrastructure and active travel schemes which enable people to walk and cycle; replace streetlighting lanterns with LED units which will result in a significant energy saving and carbon reduction.

Our collaboration with Essex Schools has seen our special school places increase, and we will continue with this programme of works focusing on new schools and the start of the pupil referral unit programmes. This continues to represent a step change in the provision and helps to reduce distances children with Special Educational Needs and Disabilities need to travel, keeping them closer to their family and reducing associated costs. This programme continues with a further £42m being spent over the next 4 years. On top of this there is £162m being spent on mainstream education over the next 4 years to ensure that additional pupil places are being delivered in the areas of need.

The total of the 2022/23 programme is **£283.6m**. This can be analysed as follows:

- **Invest to Maintain** totals £89m and includes areas where the Council is maintaining (but extending the life of) its current assets, for example, highways and the flood programme.
- **Invest to Save / Generate Return** totals £46m and includes areas where the Council is investing to generate a return or saving, for example, accommodation for older people with disabilities, LED lighting and the Essex Housing Programme.
- **Invest to Grow** totals £149m and includes areas where the Council is expanding its capacity, for example, economic growth schemes in infrastructure and highways, creating new school places to meet additional demand from demographic changes, new housing developments and enhancing skills in key growth areas.

**Capital Programme 2022/23 £283.6m**

## 2022/23 Revenue Overview

Despite the financial challenges facing local government, the budget for 2022/23 is increasing. Gross expenditure to be incurred in the delivery of Council services in 2022/23 is **£2,082m**. After taking income and specific grants into account, the net costs of services amounts to **£1,083m**, an increase of **£45m** or 4% over 2021/22.

### Budget breakdown

	2021/22 £m	2022/23 £m
<b>Gross Expenditure</b>	2,014.0	2,082.4
<i>Deduct:</i>		
Income	(269.6)	(277.7)
Specific Government Grants (excluding DSG)	(165.8)	(169.7)
Specific Government Grants (DSG)	(540.7)	(551.6)
<b>Subtotal: Net Cost of Services</b>	<b>1,037.9</b>	<b>1,083.4</b>
<i>Deduct:</i>		
Council Tax Requirement	(717.5)	(763.7)
Revenue Support Grant (RSG)	(18.7)	(19.3)
Non-Domestic Rates	(180.2)	(177.9)
Non-Domestic Rates Collection Fund Deficit *	21.2	7.8
General Government Grants	(143.0)	(123.6)
Council Tax Collection Fund Surplus*	0.3	(6.7)
<b>Subtotal: Total Funding</b>	<b>(1,037.9)</b>	<b>(1,083.4)</b>
<b>Balanced budget</b>	<b>0.0</b>	<b>0.0</b>

\*Estimate of the variation of actual council tax and non-domestic rates revenue 2021/22 compared to that budgeted (technical adjustment).

## Income

Within the budget, income of **£278m** is expected in 2022/23, an increase of **£8.1m** when compared to 2021/22. The breakdown of income streams by portfolio is shown on page 21.

Over **44%** of income shown in the table is derived from fees and charges; of this the majority is raised from means tested charges for adult social care. Fees and charges are subject to an annual review.

A significant proportion (**88%**) of the income recharges relate to the Better Care Fund.

	2021/22 £m	2022/23 £m
Fees and Charges	(119.9)	(122.3)
Contributions from Other Bodies	(50.5)	(57.5)
Interest Receivable	(0.8)	(0.9)
Rents and Lettings	(6.0)	(5.6)
Sales	(0.7)	(2.1)
Other Income:		
Appropriations Income*	(20.0)	(19.4)
Dividends	(0.9)	(1.2)
Income Recharge	(53.4)	(50.1)
Other Recharges	(17.4)	(18.6)
Capital Grants	-	-
<b>TOTAL</b>	<b>(269.6)</b>	<b>(277.7)</b>

\* Appropriations Income is the budgeted drawdown from reserves, such as the PFI and Waste reserve, as well as the budgeted surplus from trading accounts that is attributable to the County Fund.

## Specific Government Grants

The budget also includes **£721m** of specific government grants, the most significant are the Dedicated Schools Grant (**£552m**), the majority of which is passed through to schools, and Public Health grant (**£64m**), which is ring-fenced to public health activity.

### Council Tax Requirement

Under sections 42A and B of the Local Government Finance Act 1992, as inserted by the Localism Act 2011, there is a requirement to disclose the budget requirement and associated council tax requirement for the year. This is set out below.

### Statutory disclosure requirement

	£
Net cost of Services	1,083,337,745
General Government Grants *	(123,628,409)
<b>Budget requirement</b>	<b>959,709,336</b>
Less funding available:	
Revenue Support Grant	19,294,802
Non-Domestic Rates	177,909,350
Non-Domestic Rates Collection Fund deficit	(7,847,773)
Council Tax Collection fund surplus	6,683,085
	<b>196,039,464</b>
<b>Council tax requirement</b>	<b>763,669,872</b>
Tax base (Band D equivalent properties)	545,042.45
Band D council tax	1,401.12

The Band D council tax charge is **£1,401.12**. The provisional council tax charge by band is set out in the table below.

	2021/22	2022/23
Council Tax Band	£	£
Band A	893.94	934.08
Band B	1,042.93	1,089.76
Band C	1,191.92	1,245.44
Band D	<b>1,340.91</b>	<b>1,401.12</b>
Band E	1,638.89	1,712.48
Band F	1,936.87	2,023.84
Band G	2,234.85	2,335.20
Band H	2,681.82	2,802.24

\* General Government Grants includes PFI grants £23m, Social Care Support Grant £53m, Business Rates Compensation Grant £20m and Transitional Grant £12m

# Annex 1: Revenue and Capital Budgets

## Adult Social Care and Health (Cllr John Spence)

11			11	0			0	<b>Support to Carers</b>			
											-
753,297	(171,484)	(167,640)	414,173	698,818	(145,371)	(112,167)	441,280	<b>Total Adult Social Care and Health</b>			
								737,288	(151,389)	(115,669)	470,230

The Public Health grant presents a 2022/23 net expenditure budget of a £2.25m credit in the above table, due to the contribution towards support services. This grant is fully utilised, with the related costs being shown within Communities, Equalities, Partnerships and Performance RSSS portfolio, and Finance, Resources and Corporate Affairs RSSS portfolio (Recharge Strategic Support Services). The presentation is in line with accountancy regulations.

The gross expenditure and grant income actuals in 2020/21 are higher than the 2021/22 and 2022/23 budget figures because these include Covid-19 related expenditure which was one off in nature and not budgeted for in subsequent years.

## Adult Social Care and Health (Cllr John Spence)

## Other Operating costs

The revenue budget in 2022/23 is **£109m**. The expenditure includes the net appropriations to reserves and restricted funds as described in the Reserves section (starting on page 50) of **£49m** and the costs of financing the capital programme of **£63m**.

The movement since 2021/22 is mainly due to changes in the appropriations and withdrawals from the reserves between the years, in line with changes in the specific liabilities, for example changes in PFI payment profiles.

2020/21	2021/22	2021/22			2022/23

						<b>109,106</b>

ii within appropriations to/from reserves, expenditure means a contribution to a reserve and income means a withdrawal from a reserve.

## Trading Activities

This section sets out the budgets relating to those services that are currently set up as Trading Activities, which operate under separate Trading Accounts. For 2022/23, the Trading Activities have a target operating surplus of **£304,000**

	Revenue reserve 1 April 2022	Income	Expenditure	(Surplus) / deficit	Appropriations		Revenue reserve 31 March 2023
	£000	£000	£000	£000	To County Revenue Account	To Trading Activity reserve	£000

Music Services Traded	(228)	(3,891)	3,887	(4)	(4)	-	(228)
<b>Total</b>	<b>(1,341)</b>	<b>(7,350)</b>	<b>7,046</b>	<b>(304)</b>	<b>(304)</b>	<b>-</b>	<b>(1,341)</b>

## Reserves

Any organisation which is being prudently managed, whether in the commercial, charitable or public sector, will maintain a level of reserves to deal with future or unexpected pressures.

Much has been written about Local Authority reserves and much is misunderstood.

We have built specific reserves to manage known financial liabilities and possible risks – as good financial practice would dictate; these can be split into three types:

- Those reserves which are for known current and future contractual liabilities or are beyond the control of the Council. These are restricted in use and cover items such as Private Finance Initiative (PFI) contracts and Schools Balances
- Those reserves which are for more general purposes such as the Transformation Reserve, used to fund revenue investment in areas such as new ways of working and more efficient services, and
- The General Balance.

To provide greater clarity in reporting, these are presented under two headings of 'Restricted Funds' which covers the first bullet point above and 'Reserves', which covers the last two.

Among the restricted funds, there are items to cover the waste strategy and the associated PFI, and also the PFI contracts for the A130 and various schools. This approach effectively smooths what could be significant year on year increases in budget requirement and contract costs to more manageable levels.

We also use these specific cash backed reserves to generate interest receipts and minimise the cost of debt. We expect to earn **£235,000** in 2022/23 from temporarily investing surplus cash in the market, which is included in the budget, and will be used to fund services. However, it saves substantially more by using the reserves to offset what would otherwise be external borrowing costs. In 2022/23, it is estimated that this will enable us to avoid borrowing costs of **£4.1m**, thereby allowing funds to be used instead for front line service delivery.

**Reserves**

# Annex 2

## Performance

## Introduction

Outlined below are the measures that we will use to assess whether we are meeting our ambitions of Everyone's Essex over the next year.

Our approach to performance recognises that there are different types of performance measures and that they need to be treated differently and used appropriately, and progress will be monitored by the Council and reported regularly:

**Contextual measures** – these capture high-level, real-world outcomes that reflect ECC's ambition for Essex residents and communities. Securing change in these measures may require long-term changes in local social and economic conditions – while ECC has a role in influencing these changes, no single agency can directly affect outcomes.

**Strategic measures** – measures identified as critical to delivery in the coming year to make progress towards our ambition for Essex. Core measures are limited in number to provide clarity and focus for strategic discussions. Some core measures may be reported annually, but regular updates will be provided for most indicators, and are chosen on the basis that ECC can influence performance improvement over the coming year.

These measures will be supported locally in the functions with indicators that support the day to day operation of the council, and will be used by Cabinet members and Executive Directors

## STRATEGIC MEASURES: STRONG, INCLUSIVE & SUSTAINABLE ECONOMY

Good jobs

Levelling Up the Economy

Infrastructure

Future growth and  
investment

Green growth

Strategic Performance Measures	Baseline	Targets (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Number of people benefiting from ECC skills and employability programmes	N/A	3000	1720	1720	1720
Jobs created a) directly through ECC programmes; and b) indirectly through ECC investments	a) N/A	655	550	tbc	tbc
	b) n/a	We will track and publish details of jobs created through ECC investment, but no target can be meaningfully set over the plan period.			
Investment secured from third parties to fund local regeneration programmes	N/A	£96m	£20m	£20m	£20m
Infrastructure investment secured from developers (via S106)	£9,690,124*	Increase on baseline	Increase on previous year	Increase on previous year	Increase on previous year
New homes delivered (via Essex Housing and ECC Independent Living programme)	N/A	113	31	304	315

\* Based on quarter 1 (April – June) 2021/22

Measures where further development work is required:

“Improvement in the Culture and Arts offer in Essex”- we are looking to develop an appropriate measure to track the impact of investment in culture and the arts (£500k in 2021/22 with an additional annual commitment in year 2 – year 4).

## CONTEXTUAL MEASURES: STRONG, INCLUSIVE & SUSTAINABLE ECONOMY

Good jobs

Levelling Up the Economy

Infrastructure

Future growth and  
investment

Green growth

Contextual Performance Measures	Baseline	Desired trajectory (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Housebuilding: percentage of annual local plan targets for new homes achieved	92% (2020)	Increase	Increase	Increase	Increase
Job density: local jobs per head of the working-age population	0.79 (March 2019)	0.79	0.79	0.87	0.87
Unemployment rate	4.5% (July 2021)	4.50%	4.40%	2.30%	2.20%
The number of Essex businesses operating in high-growth sectors	30285 (2020)	Increase	Increase	Increase	Increase
The value of the tourist economy in Essex	N/A	Re-baseline year	Increase	Increase	Increase
The proportion of working age residents qualified to level 4 or above	35.3% (2020)	37.2%	37.2%	38.1%	39.2%
The proportion of working age residents qualified to level 3 or above	55.5% (2020)	55.5%	56.2%	56.9%	57.6%
The proportion of working age residents with no qualifications	5.1% (2020)	5.1%	5%	4.9%	4.8%
The number of jobs created in Essex in growth sectors (including green growth)	N/A	Baseline year	Increase	Increase	Increase

Measures where further development work is required:

“Income inequality”- we are looking to develop an appropriate measure to track the difference in income between the highest and lowest earning percentiles/places in Essex, ensuring that that this does not create a pressure to reduce incomes for any residents/communities.

## STRATEGIC MEASURES: HIGH QUALITY ENVIRONMENT

Net zero

Transport and built  
environment

Minimise waste

Levelling Up the  
environment

Green communities

Strategic Performance Measures	Baseline	Targets (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
ECC's carbon rating (based on Carbon Disclosure Project)	B (2020)	B	B	A-	A
% of ECC electricity from renewable sources (GWh)	-	TBC	TBC	TBC	100%
Retrofit in Low Income Households	N/A	80	TBC	TBC	TBC
Replacement LED streetlights	N/A	27,500	27,500	27,359	Completed
Sections of coastal path completed	-	2	9	Project completed	
Number of National Flood Management Schemes delivered	-	13	12	TBC	TBC
Number of trees planted by Essex Forest initiative	38,305 (2020/21)	50,000 (Cumulative)	75,000 (Cumulative)	Current phase of initiative completed	
Total household waste collected per household (kg)	1,070kg (2020/21)	1,100kg	1,050kg	1,020kg	980kg
Percentage of household waste sent for reuse, recycling or composting	51.8% (2020/21)	50%	53%	55%	56%

Measures where further development work is required:

"Coverage of Cycleways"- we are looking to develop an appropriate measure to assess the coverage and availability of cycleway across Essex cities, towns and villages. This work is dependent on the development of a new methodology for capturing new cycleway construction through major schemes, development management, local highways panels and other investments.

## CONTEXTUAL MEASURES: HIGH QUALITY ENVIRONMENT

Net zero	Transport and built environment	Minimise waste	Levelling Up the environment	Green communities
----------	---------------------------------	----------------	------------------------------	-------------------

Contextual Performance Measures	Baseline	Desired trajectory (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Total Essex GHG emissions (MtCO <sub>2</sub> e)	-	7.02	TBC	TBC	TBC
Total number of direct jobs in Low-Carbon and renewable energy sector	-	TBC	TBC	TBC	TBC
% EV take up in Essex	0.65% (2020)	0.76%	1.12%	1.83%	2.90%
EV Charging points across Essex	N/A	Increase	TBC	TBC	TBC
Increase in the modal share from cars and into bus/bike/foot)	-	31%	32.5%	34%	35.5%

## STRATEGIC MEASURES: HEALTH WELLBEING & INDEPENDENCE FOR ALL AGES

Levelling Up health

Healthy lifestyles

Promoting independence

Place-based working

Carers

Strategic Performance Measures	Baseline	Targets (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Percentage / number of target population who took up an NHS Health Checks in the quarter	4,394 (Q1 2021/22)	23,000	46,000 (subject to covid)	46,000 (subject to covid)	46,000 (subject to covid)
% schools in Essex participating in the 'Daily Mile' initiative	62.4% (June 2021)	65.6%	68.6%	71.6%	74.4%
Number Receiving Weight Management Support (YTD)	-	12,000	7,000	12,000	25,000
Percentage of residents who report being lonely	-	5.5%	4.0%	3.0%	2.5%
Non re-presentation to treatment within 6 months of successful completion - Opiates/Non-opiates /Alcohol	Opiates 80.5% Non Opiate 96.6% Alcohol 97.2% (Q4)	Opiates 83% Non Opiate 97% Alcohol 97%	Opiates 85% Non Opiate 98% Alcohol 97%	Opiates 87% Non Opiate 98% Alcohol 97%	Opiates 88% Non Opiate 98% Alcohol 97%
Percentage of physically active adults	67.6% (2019/20)	68%	69%	70%	72%
% of CYP seen by the CAMHS service	32.7%	35%	TBC	TBC	TBC

### Measures where further development work is required:

- Child obesity – ECC 's public health function is looking at the development of a specific indicator and targets that focus on supporting children and families to lose weight as part of an overall weight management programme.

## STRATEGIC MEASURES: HEALTH WELLBEING & INDEPENDENCE FOR ALL AGES

Levelling Up health	Healthy lifestyles	Promoting independence	Place-based working	Carers	
Strategic Performance Measures	Baseline	Targets (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Percentage of older people (aged 65+) who received reablement/ rehabilitation services after hospital discharge	2.9%	3.6%	4.2%	4.2%	4.2%
Number of adult social care users in receipt of care technology	N/A	2877	4195	5566	6444
Number of adults with LD known to social services in paid employment	323	344	391	456	537
Number of adults with LD known to social services who secure new employment	N/A	86	115	144	173
% adults known to secondary mental health services in paid employment	15.6%	Increase	Increase	Increase	Increase
% of adults with a learning disability that transition into adult social care in residential care	18%	Decrease	Decrease	Decrease	Decrease
The proportion of adults in contact with secondary mental health services living independently, with or without support	72.9%	Increase	Increase	Increase	Increase
The proportion of new clients who received short term services, where no further request was made for ongoing support	48%	50%	52%	54%	55%
The proportion of carers who stated they were ‘extremely’ or ‘very’ satisfied with social services	34.9%	Increase	Increase	Increase	Increase

Measures where further development work is required:

- Stability and development of the workforce - we are looking to develop an appropriate measure to track changes in the care workforce to ensure that this continues to support a strong care market and the provision of quality services."

## CONTEXTUAL MEASURES: HEALTH WELLBEING & INDEPENDENCE FOR ALL AGES

Levelling Up health

Healthy lifestyles

Promoting independence

Place-based working

Carers

Contextual Performance Measures	Baseline	Desired trajectory (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Healthy Life expectancy at birth	Male 64.2 Female 65.6 (2017-19)	Male 64.6 Female 65.6	Increase for males and females at each point of measurement		
Inequality in life expectancy at birth	Male 8 Female 6.5 (2017-19)	Male 7.1 Female 5.4	Reduction for males and females at each point of measurement		
Number of Essex residents living in communities in IMD bottom 20%	c.123,000 (2019)	Data unavailable until 2024			60,000
Under 75 mortality rate from all cardiovascular diseases	60.7 per 100,000 (2017-19)	60.1	59.5	58.9	58.4

# STRATEGIC MEASURES: A GOOD PLACE FOR CHILDREN AND FAMILIES TO GROW

Education outcomes

Levelling Up outcomes for families

Family resilience and stability

Safety

Outcomes for vulnerable children

Strategic Performance Measures	Baseline	Stability thresholds			
		2021/22	2022/23	2023/24	2024/25
% of families with successful intervention (Family Solutions)	84%	85%	85%	86%	86%
% of CYP who do not enter the care system following D-Bit intervention	78%	80%	80%	82%	82%
The number of children known to social care per 10,000	196.9	190-210			
The number of children subject to Children in Need plans per 10,000	46.5 (1473)	47.3 - 63.1 (1500- 2000 children)			
The number of children subject to child protection plans per 10,000	21.3 (675)	17.3 - 20.5 (550-650 children)			
The number of looked after children per 10,000	33.8 (1073)	34.7 - 39.4 (1100-1250 children)			
Begin to understand the overrepresentation of BAME CYP across the statutory social care system	BAME CYP account for 23.5% of all open to social care; 22.5% of CIC; and 25% of CP Plans	Understand and appropriately manage the overrepresentation of BAME children across social care.			
Percentage of those supported by youth offending services who reoffend within 12 months	32%	32%	32%	32%	32%
Average number offences per re-offender in 12 months	3.1	3.1	3.1	3.1	3.1

## Measures where further development work is required:

- Percentage of children at risk of exploitation who de-escalate risk level – a new data collection tool is being developed that will allow us to track de-escalation of risk levels for individual children. The tool is likely to go live within the next few months, but we would anticipate the need to establish a baseline position before management thresholds are defined.
- Ensuring pathways to domestic abuse support are accessible to all: ECC's Children and Families Service are currently undertaking work examining the needs of victims in marginalised groups and with protected characteristics with a view to encouraging individuals to come forward and seek the support they need. From 2022 onwards we will be able to target those groups that are requiring support in accessing services and see more victims from these protected groups accessing support.

## STRATEGIC MEASURES: A GOOD PLACE FOR CHILDREN AND FAMILIES TO GROW

Education outcomes	Levelling Up outcomes for families	Family resilience and stability	Safety	Outcomes for vulnerable children
--------------------	------------------------------------	---------------------------------	--------	----------------------------------

Strategic Performance Measures	Baseline	Targets (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Percentage of a) eligible 2 year olds and b) all 3 and 4 year olds, accessing funding for childcare in a setting rated at least good by Ofsted	a) 96.6% b) 95.2% (2020/21)	a) 96.6% b) 95.2%	a) 97.1% b) 95.7%	a) 98.1% b) 96.7%	a) 99.1% b) 97.7%
New a) primary and b) secondary school places created	N/A	a) 410 b) 360	a) 510 b) 1860	a) 735 b) 450	a) 1670 b) 930
Percentage of 16-18 year olds who are NEET/unknown (Dec/Jan/Feb average)	4.3 (2020/21)	4.3	4.1	4	3.8
Percentage of a) schools and b) settings fully engaged in Trauma Perceptive Practice	N/A	a) 42% b) 7%	a) 60% b) 30%	a) 80% b) 50%	a) 100% b) 75%

## CONTEXTUAL MEASURES: A GOOD PLACE FOR CHILDREN AND FAMILIES TO GROW

Education outcomes

Levelling Up outcomes for families

Family resilience and stability

Safety

Outcomes for vulnerable children

Strategic Performance Measures	Baseline	Desired trajectory (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Percentage of children and young people attending at a school judged at least good by Ofsted	85.0 (2020/21)	Re-establish baseline	Year-on-year improvement		
Percentage of pupils achieving a Good Level of Development in early years (age 5)	74.4 (2018/19 – Pre-COVID)	Re-establish baseline	Year-on-year improvement		
Percentage of pupils achieving at least the expected standard in Reading, Writing & Maths (KS2 - age 11)	66.3 (2018/19 – Pre-COVID)	Re-establish baseline	Year-on-year improvement		
Percentage of pupils achieving 9-4 in English & Maths (KS4 - age 16)	63.9 (2018/19 – Pre-COVID)	Re-establish baseline	Year-on-year improvement		
Percentage of children and young people in the following groups achieving desired outcomes at EYFS, KS2 and KS4: a) Disadvantaged children; b) Children in Care; c) Young Carers; d) Children with SEND; e) White British boys; and f) Gypsy, Roma, Traveller community	N/A	Re-establish baseline	Year-on-year improvement		
Gap between Essex's most/least deprived neighbourhoods/districts and the county average with respect to: a) School absence rates; and b) School exclusions	N/A	Re-establish baseline	Year-on-year improvement		

## STRATEGIC MEASURES: SERVICE EXCELLENCE

Strategic Performance Measures	Baseline	Targets (indicative in 23-24 and 24-25)			
		2021/22	2022/23	2023/24	2024/25
Residents who think Essex County Council provides good value?	46% (2020)	48%	50%	52%	54%
Collection rate of Council Tax achieved for the year	96% (2020/21)	96%	97%	98%	98%
IMPOWER Council Productivity Ranking	7	1-10	1-10	1-10	1-10
Deliver social value through procurement and practice to increase availability of entry level jobs	N/A	50	100	210	Exceed 210
Percentage of websites that have had full accessibility audit	N/A	24	Increase	Increase	Increase
Percentage of users rating their online experience as 5/5 (satisfied)	N/A	Baseline being established	Increase	Increase	Increase
Total number of websites	91	87	Decrease	Decrease	Decrease

### Measures where further development work is required:

- “Digital Inclusion” – work is underway to present Members with options on how to tackle issues around digital inclusion. Effective performance measures on this issue will need to be developed as part of this work/ as this work closes.
- “Representativeness of workforce” - we are looking to develop an appropriate measure to track the difference in income between the highest and lowest earning percentiles/places in Essex, ensuring that that this does not create a pressure to reduce incomes for any residents/communities.
- “Staff wellbeing” – data collection has been delayed. ECC’s current benchmark for staff wellbeing is ‘I feel positive about my mental wellbeing right now’ (captured in the October Remote Working survey), where 76% of respondents answered positively. Further development work is required to ensure this measure captures social, financial and physical wellbeing too.
- “Employee engagement” - we are looking to develop an appropriate measure to track employee engagement. Given the level of change that employees have experienced over the past 18 month, we would anticipate the need to re-establish a baseline prior to setting future targets.

## **Annex 3**

# **Capital and Treasury Management Strategy**

# CAPITAL AND TREASURY MANAGEMENT STRATEGY

This Strategy explains how decisions are made about capital expenditure, investments and treasury management. The Strategy contains several elements as follows:

- **Capital expenditure**

In this section, the process for approving, monitoring and financing capital projects is explained.

- **Capital financing and borrowing**

This section provides a projection of the Council's Capital Financing Requirement and the external borrowing required. It also explains how the Council will discharge its duty to repay debt.

- **Treasury management investments**

This section explains how and where cash balances arising as a result of the Council's day to day activities will be invested to ensure that the funds are protected from loss and are available when needed.

- **Other investments**

This section contains an overview of the Council's other investment activities.

- **Treasury management Policy Statement and Treasury Management Practices**

This section contains the Council's Treasury Management Policy Statement and Treasury Management Practices.

- **Knowledge and skills**

The final section explains the knowledge and skills available to the Council in relation to management of borrowing and investment activities.

Further details are provided in the following sections.

# CAPITAL EXPENDITURE

## Capitalisation policies

Capital expenditure is expenditure on the acquisition or construction of land, buildings, roads and bridges, vehicles, plant and equipment and other assets that:

- Will be held for use in the delivery of services, for rental to others, or for administrative purposes; and
- Will be of continuing benefit to the Council for a period extending beyond one financial year.

Subsequent expenditure on existing assets is also classified as capital expenditure if these two criteria are met.

There may be instances where expenditure does not meet this definition but would still be treated as capital expenditure, including:

- Where the Council has no direct future control or benefit from the resulting assets, but would treat the expenditure as capital if it did control or benefit from the resulting assets; and
- Where statutory regulations require the Council to capitalise expenditure that would not otherwise have expenditure implications according to accounting rules.

The Council operates several limits for capital expenditure which means that items below these limits are charged to revenue rather than capital.

The limits are currently as follows:

De-minimis limits	£
<b>General limit</b> (applied where no specific limit is applicable)	<b>10,000</b>
<b>Specific limits:</b>	
▪ Schools' capital projects funded or supported by Formula Capital Grant	<b>2,000</b>
▪ Transport (highways) infrastructure	<b>Nil</b>
▪ Land	<b>Nil</b>

## Governance

The Cabinet Member for Finance, Resources and Corporate Affairs, in conjunction with the Executive Director, Corporate Services, manages the preparation of a capital programme, on behalf of the Council, on an annual basis in accordance with the Council's capital projects governance arrangements and capitalisation criteria.

Each project that is added to the Capital Programme is for the provision and for the purposes of delivering public services (including housing, regeneration and local infrastructure) or in support of joint working with others to deliver such services. No schemes are added to the Capital Programme if their only purpose is to achieve a financial return.

Each scheme that is added to the Capital Programme is allocated:

- A 'start date' for planning purposes.
- An overall 'scheme approval' which sets the overall budget for the scheme.
- An 'annual payments guideline' which sets the parameters for expenditure in each of the financial years over which the scheme is expected to span.

Once the capital programme or a scheme is approved, Executive Directors are, subject to the rule in the Constitution that officers may not take a Key Decision and limits within the scheme of delegation to officers, authorised to progress with capital projects that have:

- An approved 'start' date in the current or a prior financial year (i.e. schemes with a start date in a future financial year are indicative only, and do not constitute approval to spend).
- Adequate scheme and payments approval in the capital programme to finance these projects.

Schemes will usually only be added to, or removed from, the Capital Programme as part of the annual budget setting process. Any request outside of this process to change the capital programme by adding or removing schemes, or by allocating additional scheme and payment approvals to an approved scheme, must be approved by the Cabinet Member for Finance, Resources and Corporate Affairs (up to a limit of **£5m**) or by the Cabinet (for schemes of **£5m** or more).

Executive Directors will ensure that:

- All officers responsible for committing expenditure on any approved capital project comply with all relevant guidance and follow approved certification processes.
- Budget holders are accountable for the effective management of the scheme and payment approvals allocated to them to either oversee or directly manage.
- Appropriate monitoring processes are in place to ensure that the scheme and payment approvals for a capital project are not overspent.
- Reports are made to the relevant Cabinet Member(s) on expenditure compared with the scheme and payment approvals for the capital projects for which they are accountable.

The Executive Director, Corporate Services will ensure that timely information is available on expenditure for each capital project, which is sufficiently detailed to enable Executive Directors and their managers to fulfil their budgetary responsibilities.

The Executive Director, Corporate Services will also monitor performance against the Council's approved capital programme on an on-going basis and will advise upon the overall financial position. Specifically, the Executive Director, Corporate Services will prepare financial overview reports for the Cabinet Member for Finance, Resources and Corporate Affairs to present to Cabinet on a regular basis. These financial overview reports will provide a comparison of the Council's projected expenditure with the latest approved capital programme and assess the financing implications of variations in forecast under / over-spends against payment approvals.

## Capital Expenditure Plans

The proposal is for capital investment of **£284m** for the 2022/23 programme, with an indicative programme for the subsequent three years totalling **£1,030m**. These planning levels represent a continued major investment in the infrastructure and economy of Essex. Further details are presented elsewhere within the Council's 2022/23 Annual Plan.

When expenditure is classified as capital expenditure for capital financing purposes, this means that the Council can finance that expenditure from any of the following sources:

- **Capital grants and contributions** - amounts awarded to the Council in return for past or future compliance with certain stipulations.
- **Capital receipts** – amounts generated from the sale of assets and from the repayment of capital loans, grants or other financial assistance.
- **Revenue contributions** – amounts set aside from the revenue budget in the Reserve for Future Capital Funding.
- **Borrowing** - amounts that the Council does not need to fund immediately from cash resources, but instead charges to future years' revenue budgets in annual instalments.

Actual capital expenditure and financing sources for 2020/21 (*provisional, pending conclusion of the external audit of the Council's Statement of Accounts for 2020/21*), together with the original and updated plans for 2021/22, proposals for 2022/23 and the indicative guidelines for the subsequent three years, are summarised in **Annex 3A**, with detailed plans presented elsewhere within the Annual Plan.

# CAPITAL FINANCING REQUIREMENT AND BORROWING

---

## Context

The Council is required by regulation to comply with the **CIPFA Prudential Code for Capital Finance in Local Authorities** (the 'Prudential Code') when assessing the affordability, prudence and sustainability of its capital investment plans.

Fundamental to the prudential framework is a requirement to set a series of prudential indicators. These prudential indicators collectively build a picture that demonstrates the impact over time of the Council's capital expenditure plans upon the revenue budget and upon borrowing and investment levels and explain the overall controls that will ensure that the activity remains affordable, prudent and sustainable.

A summary of the Prudential Indicators for the period 2020/21 through to 2025/26 is provided in **Annex 3A**. The Prudential Indicators for 2020/21 are provisional, pending conclusion of the external audit of the Council's 2020/21 Statement of Accounts.

Explanatory comments are provided in the following paragraphs.

## Capital Financing Requirement

When the Council finances capital expenditure from borrowing, this means that it can charge the expenditure to the revenue budget in annual instalments over a number of years into the future. It does this in accordance with its policy for the repayment of debt (see **Annex 3C**).

The actual Capital Financing Requirement (CFR) for 2020/21 is derived from the Council's Balance Sheet for 2020/21 and it provides a measure of the amount of capital expenditure that the Council has already spent that has yet to be funded from cash resources. That is, it provides a measure of the Council's indebtedness, and hence of its need to borrow for capital financing purposes.

Credit arrangements are also included in the calculation of the CFR because they have the same practical impact as borrowing; credit arrangements are those that enable the Council to acquire the use of assets on deferred payment terms – typical examples include finance leases and Private Finance Initiative schemes.

The actual CFR for 2020/21 and forward projections for the current and forthcoming years are illustrated in the graph below:

The forward projections of the CFR incorporate the Council's plans to:

- Finance further capital expenditure from borrowing and credit arrangements (*which **increases** the CFR*); and
- Make provision for the repayment of debt (*which **reduces** the CFR*).

The CFR is on an upward trajectory because the amount of capital expenditure that the Council plans to finance from borrowing over the period to 2025/26 (at **£629.5m**) exceeds the amount of debt that will be repaid (**£285.2m**) over the same period.

There is also a substantial increase in credit arrangements (**£120m**), largely reflecting the estimated impact of bringing leases currently classified as operating leases onto the Council's Balance Sheet in 2022/23, which is a requirement of the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom. This does not change the costs to the Council of these arrangements.

The estimates of the CFR assume that the Council will repay debt on the basis set out in **Annex 3C**.

## Revenue Provision for the repayment of debt policy

The Council sets cash resources aside from the Revenue Budget each year to repay debt. This practice is referred to as making **minimum revenue provision** (or MRP) for the repayment of debt.

The Capital Financing Requirement (CFR) provides a measure of the amount of capital expenditure which has been financed from borrowing that the Council has yet to fund from cash resources.

Statutory guidance requires MRP to be provided annually on a prudent basis, and interprets 'prudent' to mean that:

- MRP charges on government **supported** and **pre-April 2008** borrowing should (as a minimum) be made over a period commensurate with the period implicit in the determination of the original grant; and
- MRP charges on **unsupported** borrowing should be made over a period commensurate with the period the capital expenditure provides benefit.

The Secretary of State does not rule out or otherwise preclude the use of alternative methods to those listed above if another method is considered more appropriate.

In accordance with the requirement to make a prudent 'revenue provision for the repayment of debt', the Council ensures that

debt is repaid over a period that is commensurate with the period over which the capital expenditure provides benefit. This is achieved by applying the methodologies explained in **Annex 3C**.

The 'revenue provision' charges that result from applying the policies set out in **Annex 3C** are illustrated below. The charges increase incrementally as a consequence of the proposals presented elsewhere in the Annual Plan to incur capital expenditure that will be financed from borrowing in each year of the Council's current financial planning horizon.

## External Borrowing Limits

The Council is only permitted to borrow externally (including via credit arrangements) up to the level implied by its Capital Financing Requirement (CFR).

To ensure that external borrowing does not exceed the CFR, other than in the short term, limits are established for external debt, as follows:

- **Authorised limit** – this defines the maximum amount of external debt permitted by the Council, and represents the statutory limit determined under section 3 (1) of the Local Government Act 2003.
- **Operational boundary** – this is an estimate of the probable level of the Council's external debt and provides the means by which external debt is managed to ensure that the 'authorised limit' is not breached.

The proposed limits, which are set out in **Annex 3A**, make separate provision for external borrowing and other long-term liabilities, and are based upon an estimate of the most likely but not worst-case scenarios. They allow enough headroom for fluctuations in the level of cash balances and in the level of the Capital Financing Requirement.

As illustrated in the adjacent graph, the authorised limit and operational boundary related to external borrowing are below the current estimates of the Capital Financing Requirement for borrowing.

This graph also shows the current level of external borrowing and how this is expected to increase as a result of the Council's current capital expenditure plans.

## Borrowing Strategy

The Capital Financing Requirement (CFR) provides a measure of the Council's need to borrow in order to manage the cash flow implications of incurring capital expenditure that it does not immediately fund from cash resources.

Currently, long-term external borrowing amounts to **£586m** which is equivalent to around **57%** of the estimated CFR for borrowing as at 31 March 2022. It is however possible (and assumed for the purposes of this Strategy) that further external borrowing (up to **£32m**) will be undertaken before 31 March 2022. This would increase external borrowing to **£618m** as at 31 March 2022, which will be equivalent to **61%** of the estimated CFR at that point.

The Council is able to sustain external borrowing at a level below its CFR because it is able to temporarily utilise the cash balances it has by virtue of holding funds in reserves and balances as an alternative to external borrowing. This practice is referred to as 'internal borrowing'.

Internal borrowing does not reduce the magnitude of funds held in reserves and balances; the funds are merely being borrowed until they are required for their intended purpose. The use of internal borrowing will enable the Council to avoid external borrowing costs of up to **£4.1m** in 2022/23.

The Council will externalise its borrowing when it needs to do so to ensure that it has sufficient liquidity to meet its day-to-day cashflow requirements. It has been assumed, for the purposes of this Strategy, that further long-term external borrowing will be

undertaken when the cash held for liquidity purposes falls below **£400m** on a sustained basis.

The adjacent graph provides a graphical representation of the expected position – that is, it shows that the Council expects to maintain external borrowing at a level well below its Capital Financing Requirement over the Council's current planning horizon, and that cash balances of circa **£400m** will be held for investment over this period too.

The graph also shows the Council's net indebtedness. Net indebtedness is the amount borrowed externally by the Council, reduced by the cash the Council expects to invest externally.

The measure of net indebtedness shows that, if the Council does not hold any cash for investment, external borrowing

could be much lower. However, as already noted, the Council needs to hold some cash balances for investment, to ensure that it has funds available when they are needed to meet the Council's outgoings.

The following graph shows how it is anticipated to fund the Capital Financing Requirement:

That is, it shows how much it is expected will be funded from internal borrowing and how external borrowing is likely to increase.

This translates into the following forecasts of long-term external borrowing over the current planning horizon:

Current Forecast	Long term borrowing requirement				
	2021/22 £m	2022/23 £m	2023/24 £m	2024/25 £m	2025/26 £m
Existing external loans	586	575	565	549	532
New external borrowing	32	221	374	498	547
<b>Total external borrowing</b>	<b>618</b>	<b>796</b>	<b>939</b>	<b>1,047</b>	<b>1,079</b>
Internal borrowing	420	338	338	337	337
<b>Total borrowing</b>	<b>1,038</b>	<b>1,134</b>	<b>1,277</b>	<b>1,384</b>	<b>1,416</b>

However, the external borrowing requirement will be kept under review, and new long-term external loans will only be secured:

- When the funds are required to meet the Council's expected cash flows and to provide liquidity; and
- Within the parameters established by the **authorised limit** and **operational boundary** for external debt (as set out within **Annex 3A**).

## Prospects for interest rates

The Council predominantly expects to satisfy its borrowing requirement from the Public Works Loan Board (PWLB). PWLB interest rates are set with reference to gilt rates.

Since the start of 2021, there has been a lot of volatility in gilt yields, and hence in PWLB rates.

Whilst there is likely to be a steady but slow rise in gilt yields over the course of the next few years, there will undoubtedly be a lot of unpredictable volatility over this period too.

Monetary policy in the UK will have a major impact on gilt yields, but rising treasury yields in America could also impact on UK gilt yields, although gilt yields and treasury yields do not always move in unison.

## Maturity structure of borrowing

Limits are proposed, in **Annex 3C**, for the maturity structure of borrowing. The purpose of these limits is to guide decisions about the period over which new borrowing will be secured, to ensure that the Council does not have:

- A large amount of debt maturing in any one year that it may need to refinance in that year alongside any new borrowing that may be required; and
- External loans in excess of its CFR, other than in the short term.

Although external borrowing is currently at a level well below the CFR, this only remains the case until 2050/51; in 2050/51, the CFR falls below existing loans on a sustained basis, as illustrated in the graph below:

No assumptions are included in the above forecast of the CFR for additional capital expenditure beyond the current planning horizon. Therefore, it is probable that the longer-term forecast of the CFR will exceed that shown above. However, any new loans secured over the period covered by this Strategy will be repaid before 2050/51, to ensure that external loans do not further exceed the longer-term forecast of the CFR.

## Interest rate exposure

In order to manage and minimise the impact of movements in interest rates, limits are proposed within **Annex 3C** that will establish the ranges within which fixed and variable rate borrowing will be undertaken.

The Council usually secures its long-term loans at fixed rates of interest, to provide certainty over the cost of maintaining the loans over their lifetime (indeed, all the Council's current long-term borrowing is at rates of interest that were fixed at the outset, for the whole duration of the loans).

Whilst any new loans secured over the period of this strategy are likely to also be secured at fixed rates of interest, up to **30%** could, alternatively, be secured at variable rates of interest.

## Performance indicators

If long-term borrowing is undertaken, performance will be assessed against the average PWLB rate for the year for the applicable loan type and interest rate banding.

Short term borrowing will be assessed against the Sterling Overnight Index Average (SONIA). SONIA is published by the Bank of England and is based on actual transactions and reflects the average of the interest rates that banks pay to borrow sterling overnight from other financial institutions and other institutional investors.

## Ratio of financing costs to net revenue streams

The trend in the '**cost of capital**' is provided by the '**ratio of financing costs to net revenue streams**'. This ratio provides a key indicator of affordability, as it shows the proportion of the annual revenue budget that is being consumed year on year in order to finance the costs of borrowing (*i.e. interest payable on external loans and leases and the amount required for the statutory provision for the repayment of debt*).

The actual ratios for 2020/21 and the latest estimates for 2021/22 and the forthcoming four years, are provided in **Annex 3C**. The trend in this ratio over this period is illustrated as follows:

This shows that the proportion of the revenue budget that is required to fund borrowing costs is expected to increase from **7.5%** in 2020/21 to **10.6%** by 2025/26.

## Incremental impact upon Council Tax

Another measure of the affordability of the capital programme proposals is their impact upon council tax.

The incremental impact upon council tax (at **band D**) from continuing with capital schemes started in, and prior to, 2020/21 and the additional amounts that result from commencing new capital projects in 2021/22 and the subsequent four years is set out in **Annex 3A**.

The adjacent graph shows the amount of council tax required to meet the costs of borrowing (*i.e. interest payable on external loans and leases and the amount required for the statutory provision for the repayment of debt*) split between the amounts that arise because of capital projects that started in 2020/21 or earlier years, and the amounts arising as a consequence of commencing additional capital projects in each year of the Council's current planning horizon.

The actual impact upon council tax may be lower than that implied in **Annex 3A** because:

- The indicator is calculated on the basis that the revenue implications of borrowing decisions will be funded entirely from council tax; the Budget Requirement is funded from a combination of financing sources, including council tax, business rates and general government grants.
- No account has been taken of the savings that may accrue from invest to save / improve schemes.

# TREASURY MANAGEMENT INVESTMENTS

---

## Introduction

The Council holds cash balances as a consequence of timing differences between its cash inflows and outflows. These cash balances need to be invested until they are required for use in the course of the Council's day to day activities. The investment of funds for this purpose is referred to as treasury management.

The Council's treasury management investment activities must be undertaken in compliance both with the CIPFA Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes (referred to as the Treasury Management Code) and with statutory guidance.

The Treasury Management Code and statutory guidance require the Council to prepare an annual strategy that explains how the Council will invest its funds for treasury management purposes, giving priority to security and liquidity, and then to yield.

## Outlook for interest rates

The coronavirus outbreak has done huge economic damage to the UK and economies around the world.

After the Bank of England took emergency action in March 2020 to cut the Bank Rate firstly to **0.25%**, and then to **0.10%**,

it became the first western central bank to put interest rates back up (to **0.25%**) in December 2021.

With inflation expected to peak at around **6%** in April 2022, the Monetary Policy Committee (MPC) may increase the bank rate again in February or May 2022, although this could depend on the severity of the Omicron variant.

Bank rate increases beyond May 2022 are more difficult to forecast, as inflation is likely to drop sharply in the second half of 2022. However, the MPC will want to normalise the bank rate over the next few years so that its main monetary policy tool is ready to use in time for the next downturn.

## Investment projections

As noted elsewhere, the Council must use its cash balances to defer external borrowing for as long as possible. However, it must also retain sufficient liquidity of funds to ensure that it has cash available when it needs it, to cover its outgoings.

In practice, this means that the cash balances the Council holds for investment can be subject to significant fluctuation. However, for planning purposes, it is assumed that the Council will maintain cash balances for investment of circa **£400m** for the duration of the current financial planning horizon (as set out in **Annex 3C**).

## Investment strategy

When the Council has surplus cash balances, these are invested until they are next required. Usually, this means that funds are invested on a short-term basis (i.e. up to a maximum period of 365 days), but up to **£30m** may be invested for periods beyond 365 days.

In accordance with regulatory requirements, the primary objectives, when investing the Council's funds, are **security** (*protecting the capital sum invested from loss*) and **liquidity** (*ensuring the funds invested are available for expenditure when needed*). The generation of **yield** is distinct from these prudential objectives. However, this does not mean that the Council ignores yield; once proper levels of security and liquidity are determined, yield is then considered.

The Council's funds will primarily be invested according to the Secretary of State's definition of **specified** investments. These are sterling deposits made for periods of less than one year with investment schemes of high quality and which are not defined by regulation as capital expenditure. Specified investments include deposits with the UK Government, other local authorities, money market funds and bodies of high credit quality.

Funds may also be invested according to the Secretary of State's definition of **non-specified investments**. Non specified investments are any financial investments that do not meet the criteria to be treated as a specified investment. The inclusion of non-specified investments in the Council's

investment strategy is to allow funds (up to a maximum of **£30m**) to be invested for periods of in excess of one year.

A lending list will be compiled to include counterparties satisfying the criteria set out within **Annex 3D**. The lending limits that will be applied to counterparties satisfying these criteria are also set out within **Annex 3D**. Additional operational market information (including Credit Default Swaps and negative rating watches and outlooks) will also be considered before making any specific investment decisions.

The criteria for choosing counterparties (as set out within **Annex 3D**) provide a sound approach to investing in normal market circumstances. However, the Executive Director, Corporate Services will determine the extent to which the criteria set out within **Annex 3D** will be applied in practice.

## Interest rate exposure

In order to manage and minimise the impact of movements in interest rates, limits are proposed within **Annex 3B** that will establish the ranges within which fixed and variable rate investments will be undertaken. As noted elsewhere, most of the Council's investments are made for periods of less than 365 days, for durations that ensure that the cash is available to meet expenditure when needed. Because of the relatively short-term nature of these deposits, there is little to differentiate between fixed and variable rates of interest – funds could equally be invested fully at fixed rates of interest or fully at variable rates.

## Liquidity

Liquidity is defined as having adequate, but not excessive cash resources, borrowing arrangements and overdraft or standby facilities to ensure that funds are always available for the achievement of the Council's objectives. In this respect, the Council will seek to maintain liquid short-term deposits of at least **£50m** available with a week's notice.

## Performance

Performance on cash invested short term, in order to maintain liquidity of funds, will be benchmarked against the Sterling Overnight Index Average (**SONIA**) rate; the aim being to achieve investment returns that are equivalent to, or greater than, the average SONIA rate for the year.

## Treasury Management advisors

The Council employs **Link Asset Services, Treasury Solutions** to provide it with treasury management advice.

The services provided by Link Asset Services, Treasury Solutions include advice on treasury matters and capital finance issues, economic and interest rate analysis and creditworthiness information. Notwithstanding this, the final decision on all treasury matters remains vested with the Council.

The services received from Link Asset Services; Treasury Solutions are subject to regular review.

## Support to subsidiaries and partnerships

The Council currently provides treasury management support to its subsidiaries Essex Cares Ltd and the Essex Housing Development LLP and holds cash balances on behalf of the partnerships for which it is the 'accountable' body (principally the South East Local Enterprise Partnership).

As part of the agreement to provide treasury management support to its subsidiaries, the Council provides a working capital loan facility of up to **£5m** to each of Essex Cares Ltd and the Essex Housing Development LLP. These are bridging facilities that enable both entities to manage temporary shortfalls of cash. In addition, in relation to Essex Cares Ltd and the partnerships for which the Council is the accountable body, the Council temporarily borrows any surplus cash balances they have and returns these sums when they are required to cover their outgoings.

Any amounts lent to, or borrowed from, these organisations are consolidated with the Council's own cash balances daily, and the Council invests or borrows on the net position.

The Council charges interest on amounts lent to these organisations and pays interest on any amounts it borrows from them, in accordance with the terms of formal agreements between the respective parties.

## Other matters

Accounting arrangements were introduced from 1 April 2018 which require an increasing range of investments to be classified as 'fair value through profit and loss' (FVPL) and carried at 'fair value'. Statutory regulations allow revaluation gains and losses on investments classified as FVPL to be held in an unusable reserve, but only until **31<sup>st</sup> March 2023**; thereafter, revaluation gains and losses will be recognised in the Revenue Account as they arise. Use of FVPL investments will be considered carefully.

# OTHER INVESTMENTS

---

## Introduction

Other Investments are those made or held:

- Primarily to generate a financial return and are neither linked to treasury management activities or directly part of delivering services.
- For service purposes (including housing, regeneration and local infrastructure) which may achieve a commercial return but obtaining these returns is not the primary purpose of the investment.

Both categories of 'other' investment invariably constitute capital expenditure. However, it is only permissible to finance the latter category from borrowing.

The following paragraphs provide an overview of the Council's current 'other' investments and those included within the proposed 2022/23 capital programme or in the indicative programme for the subsequent three years.

## Investment properties

The Council acquired three properties, at a total cost of **£33.9m** (two in 2017/18 and one in 2018/19), which are held for capital appreciation and/or to earn rental income.

A proportion of the annual rental income from these properties has been set aside in the Property Investment earmarked revenue reserve to mitigate against the risk of future losses.

These investment properties are measured at their fair value (which ensures the valuation reflects the market conditions at the end of each reporting period). The fair value measurements enable the Council to assess whether the underlying assets provide security for capital investment.

As these properties were acquired primarily to generate a financial return, the Council will not add to the current portfolio of properties.

## Shareholdings

### Medtech Accelerator Ltd

The Council holds **500,000** ordinary **£1** shares in the company **Medtech Accelerator Ltd** (this currently represents a **20%** holding in the company). The company facilitates the early-stage development of innovations in medical technology by financing projects at an early stage in order to maximise the potential for success in bringing new life enhancing technologies to patients.

## Harlow Investment Fund

The Cabinet has agreed, in principle, to enter into an agreement to subscribe for or purchase shares in the **Harlow Investment Fund Ltd** partnership, a proposed fund seeking to invest in property to secure the growth and regeneration required in Harlow.

The Council's investment in the Fund (included in the proposed capital programme for 2022/23) will be capped at **£5m** (equivalent to a 10% equity holding).

## Loans to local enterprises and third parties

The Council has awarded several loans towards expenditure which would, if incurred by the Council, be capital expenditure. Both loans were awarded on behalf of the South East Local Enterprise Partnership.

The loans that are currently outstanding are as follows:

South East Local Enterprise Partnership loans	Year to be repaid	Loan amount (£000)	Interest rate (%)
<b>Essex University - Centre for advanced engineering</b>			
First instalment	2025/26	1,000	0%
Second instalment	2026/27	1,000	0%
<b>Total</b>		2,000	
<b>Colchester Northern Gateway</b>	2021/22	1,350	0%
<b>Total</b>		3,350	

## Loans to subsidiaries of the Council

As noted in the Treasury Management Investments section, the Council provides treasury management support to its subsidiary companies, **Essex Cares Ltd** and **Essex Housing Development LLP**.

In addition to providing treasury management support to these entities, the Council has also provided (or will provide) them with capital loans, for the following purposes:

- **Essex Cares Ltd**

The Council awarded a loan of **£610,000** to Essex Cares in 2014/15 for the refurbishment of the Freebournes site.

The loan is repayable over a maximum of 10 years; at the time of writing, the principal sum outstanding is **£183,000**.

- **Essex Housing Development LLP**

The Council has agreed to provide a development loan facility to the LLP in relation to approved housing development projects.

Based on the current capital programme proposals, loans totalling **£107.3m** could be advanced to the LLP over the period 2021/22 to 2025/26. However, each housing project will be subject to Cabinet approval, following submission of robust business cases and delivery plans.

A separate loan agreement will be put in place for each Essex Housing project that the Council agrees to support. These loan agreements will set out the repayment terms and the interest charges.

# TREASURY MANAGEMENT POLICY STATEMENT AND TREASURY MANAGEMENT PRACTICES

---

The Chartered Institute of Public Finance and Accountancy (CIPFA) published a revised version of its Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes (the Treasury Management Code) in December 2021.

The Council must have regard to the Treasury Management Code under the provisions of the Local Government Act 2003.

The Treasury Management Code contains the following definition of treasury management activities which has been adopted by CIPFA:

*The management of the organisation's borrowing, investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.*

'Investments' in this definition include those arising as a consequence of managing the Council's cash flows and those held primarily for financial return.

The Treasury Management Code identifies several key principles for treasury management, including that:

- Objectives, policies, practices, strategies and reporting arrangements should be in place to ensure that treasury

management activities are effectively managed and controlled.

- The policies, practices and strategies should prioritise security and liquidity when investing treasury management funds.
- The policies, practices and strategies should also explain how value for money will be secured, and the arrangements to ensure effective control of risks.

The Council's Treasury Management Policy Statement (which set out the policies, objectives and approach to risk management of its treasury management activities), and its Treasury Management Practices (which set out the way the Council sought to achieve its policies and objectives for treasury management) have been updated to reflect the requirements of the updated Treasury Management Code.

They are presented for approval in the following annexes:

- **Annex 3E** – Treasury Management Policy Statement
- **Annex 3F** – Treasury Management Practices
- **Annex 3G** – Management practices for non-treasury investments

# KNOWLEDGE AND SKILLS

---

The Council recognises the importance of ensuring that all officers involved in the treasury management function and other investment activities are fully equipped to undertake the duties and responsibilities allocated to them. The Executive Director, Corporate Services is responsible for recommending and implementing the necessary arrangements and does this by:

- **Appointing individuals who are both capable and experienced**

All individuals involved in the delivery of the treasury management function are required to be professionally qualified accountants, who have a responsibility to undertake continuing professional development.

- **Providing training and technical guidance**

All individuals involved in the delivery of the treasury management function are provided with access to relevant technical guidance and training necessary to enable them to acquire and maintain an appropriate level of expertise, knowledge and skills to undertake the duties and responsibilities allocated to them.

- **Appointing a treasury management and other professional advisors**

By employing external providers of treasury management services, the Executive Director, Corporate Services ensures that the individuals involved in delivery of the Council's

treasury management activities have access to specialist skills and resources.

In addition, professional advisors are employed as required to ensure that the Council has access to the specialist skills and resources necessary to undertake other investment activities.

The Executive Director, Corporate Services will ensure that elected members tasked with treasury management responsibilities, including those responsible for scrutiny, have access to training relevant to their needs and those responsibilities.

Those charged with governance recognise their individual responsibility to ensure that they have the necessary skills to complete their role effectively.

## ANNEX 3A - PRUDENTIAL INDICATORS

Summary of prudential indicators		2020-21 Actual	2021-22		2022-23 Forecast	2023-24 Forecast	2024-25 Forecast	2025-26 Forecast

## ANNEX 3C – REVENUE PROVISION FOR THE REPAYMENT OF DEBT POLICY

In accordance with the requirement to make a prudent 'revenue provision for the repayment of debt', the Council ensures that debt is repaid over a period that is commensurate with the period over which the capital expenditure provides benefit. This is achieved by applying the following methodology:

Borrowing	MRP repayment basis
<b>Pre 1<sup>st</sup> April 2008 debt</b>	This element of the Capital Financing Requirement is being repaid on a 50-year ' <b>Equal instalments</b> ' basis, with commencement of the 50-year term in 2007/08.
<b>Government supported debt</b> (2008/09 onwards)	This element of the Capital Financing Requirement is being repaid on a 50-year ' <b>Equal Instalments</b> ' basis, with commencement of the 50-year term in the financial year following the capital expenditure.
<b>Unsupported borrowing</b> General	This element of the Capital Financing Requirement is being repaid using the <b>Asset Life</b> method. This spreads the unsupported borrowing over the useful life estimated at the start of the relevant asset lives (or over a shorter period where use of

Borrowing	MRP repayment basis
	the standard useful life would not be supportable as prudent).
<b>Unsupported borrowing</b> Loans awarded for capital purposes	This element of the Capital Financing Requirement is being repaid using the <b>Asset Life</b> method, which spreads the unsupported borrowing over the estimated useful life of the assets for which the loans are awarded.  Where the Council receives the repayment of an amount loaned, the income is classified as a capital receipt. The first call on the capital receipt will be to repay the related Capital Financing Requirement.
<b>Credit arrangements</b>	MRP is met by a charge equal to the element of rent/charge that goes to write down the balance sheet liability.

Revenue provision is chargeable in the first financial year after the relevant capital expenditure is incurred.

Where it is practical or appropriate to do so, the Council may make voluntary revenue provision, or apply capital receipts, to reduce debt over a shorter period.

On the basis of the MRP policies outlined above, and the capital programme proposals outlined elsewhere within the Capital and Treasury Management Strategy, the longer-term forecast of the Capital Financing Requirement is as follows:

## ANNEX 3D - COUNTERPARTY CRITERIA FOR INVESTMENTS

### 1. Context

In order to minimise the risk to investments, the Council stipulates the minimum acceptable credit quality of counterparties for inclusion on its lending list. Where applicable, it does this by reference to the credit ratings, watches and outlooks published by all three ratings agencies (i.e. Fitch, Standard and Poor and Moody's). Definitions of the credit ratings of the three main rating agencies are available upon request.

### 2. Banks and building societies

The Council will invest funds with:

- UK banks and building societies
- Non-UK banks domiciled in a country with a minimum sovereign rating of **AA-**

that have credit ratings equivalent to, or better than, the following:

Rating category	Credit rating agencies		
	Fitch	Standard & Poor's	Moody's
Short term	<b>F1</b>	<b>A-1</b>	<b>P-1</b>
Long term	<b>A</b>	<b>A</b>	<b>A2</b>

These ratings will be used to determine the pool of counterparties with whom the Council can transact for **term/call deposits** and **certificates of deposit**. This will ensure that funds are invested with high quality counterparties.

Where counterparties are rated by more than one credit rating agency, the lowest ratings will be used to determine whether they are included on the counterparty list.

The short and long-term ratings will be further applied to determine the maximum amount that will be invested with each of the counterparties in the 'pool', and for what duration.

Credit rating information is supplied by Link Asset Services, the Council's appointed treasury advisor, on all active counterparties that comply with the criteria above.

Credit ratings will be kept under review. Counterparties will be removed from the Council's lending list in the event that they receive a downgrading to their credit rating below the minimum criteria outlined above.

Counterparties placed on '**negative ratings watch**' (which indicate a likely change in the counterparty's credit rating) will remain on the Council's lending list at the discretion of the Executive Director, Corporate Services, in consultation with the Cabinet Member for Finance, Resources and Corporate Affairs.

Although non-UK banks domiciled in a country with a minimum sovereign rating of **AA-** may be included on the lending list, due regard will be given to the country exposure of the Council's investments.

In the event that the Council's own banker falls below the minimum credit rating criteria outlined above, and is not nationalised or part nationalised, the bank will be used for transactional purposes only, and not as an active outlet for investments.

### **3. Financial institutions nationalised (or part nationalised) by the UK Government**

UK banks that do not fully meet the credit rating criteria outlined in the previous paragraph, but which have been nationalised or part nationalised, will remain on the counterparty list whilst they continue to be nationalised (or part nationalised).

### **4. Money Market Funds**

Money Market Funds (MMFs) are short term, pooled investments that are placed, by a manager, in a wide range of money market instruments. The size of the investment pool of a MMF enables the manager to not only offer the flexibility of overnight and call money, but also the stability and returns of longer dated deposits.

Strict rules and criteria are set down by the official rating agencies, covering the types of investment counterparties used, the maturity distribution of the funds and investment concentrations.

There are three permitted structural options for money market funds, as follows:

- Constant Net Asset Value (CNAV)
- Low Volatility Net Asset Value (LVNAV)
- Variable Net Asset Value (VNAV)

The Council will only use **CNAV** and **LVNAV** MMFs with an **AAA** credit rating that are denominated in sterling and regulated within the EU and **VNAV** MMFs with an **AAA** credit rating and a minimum credit score of **1.25** that are denominated in sterling and regulated within the UK.

### **5. UK Government**

No restrictions are placed on the amounts that can be invested with the UK Government for deposits of up to 364 days (i.e. with the Debt Management Office or via UK treasury bills or Gilts with less than 1 year to maturity).

Longer term deposits are restricted by the Council's upper limit for sums invested for more than 364 days.

## **6. Other local authorities**

Other local authorities are included within the counterparty 'pool'. The amount that can be invested will be determined with regard to their size. That is:

- Upper tier local authorities comprise county councils, unitary and metropolitan authorities and London boroughs; and
- Lower tier local authorities include district / borough councils and police and fire authorities.

## **7. Property Funds**

Property Funds are a long term, and relatively illiquid form of investment, which are expected to yield both rental income and capital gains.

They do not have a defined maturity date and the Funds may need to sell their underlying assets in order to repay the sums invested by the Council.

## **8. Time and monetary limits applying to investments**

The time and monetary limits for counterparties satisfying the criteria outlined in the previous paragraphs will be determined with reference to the counterparties' short and long term credit ratings (or to other criteria where applicable), as outlined in the table overleaf.

Notwithstanding these limits, the Executive Director, Corporate Services will ensure appropriate operational boundaries are in place to avoid over exposure to any country, sector or group.

## Time and monetary limits

Counterparty type	Short and long term credit rating criteria						Investment Limit  £m	Maximum duration  (No. years)
	Fitch		Standard & Poor's		Moody's			
	Short term	Long term	Short term	Long term	Short term	Long term		
UK Banks and building societies	F1+	AA-	A-1+	AA-	P-1	Aa3	75	3 years
	F1	A	A-1	A	P-1	A2	65	1 year
UK banks and building societies (nationalised)							65	1 year
Non UK financial institutions	F1	A	A-1	A	P-1	A2	35	1 year
AAA' rated Money Market Funds (CNAV)							60	Not fixed
'AAA' rated Money Market Funds (LVNAV)							60	Not fixed
'AAA' rated / 1.25 credit score Money Market Funds (VNAV)							20	Not fixed
UK Government							No limit	1 year
UK Government							30	3 years
Local authorities - upper tier							30	3 years
Local authorities - lower tier							15	3 years
Property Funds							20	Not fixed

### Notes:

**Forward deals** - If forward deposits are made, the forward period plus the deal period should not exceed the maximum duration specified above.

## ANNEX 3E – TREASURY MANAGEMENT POLICY STATEMENT

---

The following statement defines the policy and objectives of the Council's treasury management activities:

1. The Council defines its treasury management activities as:

- The management of its investments and cash flows, its banking, money market and capital market transactions.
- The effective control of the risks associated with those activities.
- The pursuit of optimum performance consistent with those risks.

2. The Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the Council.

3. The Council acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives.

It is therefore committed to the principles of achieving value for money in treasury management, and of employing suitable performance measurement techniques, within the context of effective risk management.

4. The Council's policies for borrowing and investments are set out within the annual Capital and Treasury Management Strategy.

## ANNEX 3F – TREASURY MANAGEMENT PRACTICES

---

### **TMP 1 - Risk Management**

A key objective of the Council's treasury management activities is to safeguard the principal sums it invests from loss.

The Section 151 Officer will ensure there are arrangements in place for the identification, management and control of treasury management risk and will report on the adequacy of these arrangements and on the circumstances of any actual or likely difficulty in achieving the Council's objectives in this respect.

#### **[1] Credit and counterparty risk management**

The Council will ensure that its counterparty lists and limits reflect a prudent attitude towards organisations with whom funds may be deposited. The Council will also maintain a formal policy in respect of those organisations from which it may borrow, or with whom it may enter into other financing arrangements.

#### **[2] Liquidity risk management**

The Council will ensure it has adequate though not excessive cash resources, borrowing arrangements, overdraft or standby facilities to enable it to have the level of funds available to it which are necessary for the achievement of its business objectives.

The Council will not borrow earlier than required to meet its cash flow needs, unless there is a clear business case for doing so and will only do so for the current capital programme, to fund future debt maturities and/or to ensure an adequate level of liquidity of funds.

#### **[3] Interest rate risk management**

The Council will manage its exposure to fluctuations in interest rates with a view to containing its net interest costs in accordance with its treasury management policy and strategy.

It will achieve this by the prudent use of its approved instruments, methods and techniques, primarily to create stability and certainty of costs and revenues, but at the same time retaining a sufficient degree of flexibility to take advantage of unexpected, potentially advantageous changes in the level or structure of interest rates.

#### **[4] Exchange rate risk management**

The Council will manage its exposure to fluctuations in exchange rates to minimise any detrimental impact on its budgeted income and expenditure levels.

#### **[5] Inflation risk management**

The Council will keep under review the sensitivity of its treasury management activities to inflation and will seek to manage the risk accordingly in the context of its wider exposure to inflation.

#### **[6] Refinancing risk management**

The Council will ensure that its borrowing, private financing and lease arrangements are negotiated, structured and documented, and the maturity profile of the monies so raised are managed, with a view to obtaining offer terms for renewal or refinancing, if required, which are as competitive as can reasonably be achieved in the light of market conditions prevailing at the time.

The Council will actively manage its relationships with its counterparties in these transactions in such a manner as to secure this objective.

#### **[7] Legal and regulatory risk management**

The Council will ensure that its treasury management activities comply with its statutory powers and regulatory requirements.

The Council will also ensure that there is evidence of counterparties' powers, authority and compliance in respect of the transactions they may affect with the Council, particularly with regard to duty of care and fees charged.

The Council recognises that future legislative or regulatory changes may impact on its treasury management activities and, so far as it is reasonably able to do so, will seek to minimise the risk of these impacting adversely on the Council.

#### **[8] Operational risk, including fraud, error and corruption**

The Council will ensure that it has identified the circumstances which may expose it to the risk of loss through inadequate or failed internal processes, people and systems or from external events. Accordingly, it will employ suitable systems and procedures, and will maintain effective contingency management arrangements.

#### **[9] Price risk management**

The Council will seek to ensure that its treasury management policies and objectives are not compromised by adverse market fluctuations in the value of the sums it invests and will accordingly seek to protect itself from the effects of such fluctuations.

### **TMP 2 - Performance measurement**

The Council is committed to the pursuit of value for money in its treasury management activities, and to the use of performance methodology in support of that aim, within the framework set out in its treasury management policy statement.

### **TMP 3 - Decision-making and analysis**

The Council will maintain full records of its treasury management decisions, and of the processes and practices applied in reaching those decisions, both for the purposes of

learning from the past, and for demonstrating that reasonable steps were taken to ensure that all issues relevant to those decisions were considered.

#### **TMP 4 - Approved instruments, methods and techniques**

The Council will undertake its treasury management activities by employing only those instruments, methods and techniques detailed in its annual Capital and Treasury Management Strategy.

The Council has reviewed its classification with financial institutions under MIFID II and will set out in its annual Capital and Treasury Management Strategy those organisations with which it is registered as a professional client.

#### **TMP 5 - Organisation, clarity and segregation of responsibilities, and dealing arrangements**

The Council considers it essential, for the purposes of the effective control and monitoring of its treasury management activities, for the reduction of the risk of fraud or error, and for the pursuit of optimum performance, that these activities are structured and managed in a fully integrated manner, and that there is always a clarity of treasury management responsibilities.

The principle on which this will be based is a clear distinction between those charged with setting treasury management

policies and those charged with implementing and controlling these policies, particularly regarding the execution and transmission of funds, the recording and administering of treasury management decisions, and the audit and review of the treasury management function.

If it is intended to depart from these principles, the Section 151 Officer will ensure that the reasons are properly reported, and the implications properly considered and evaluated.

The Section 151 Officer will ensure that there are clear written statements of the responsibilities for each post engaged in treasury management, and the arrangements for absence cover. The Section 151 Officer will also ensure that those engaged in treasury management will follow the policies and procedures set out.

The Section 151 Officer will ensure there is proper documentation for all deals and transactions, and that procedures exist for the effective transmission of funds.

The delegations to the Section 151 Officer in respect of treasury management are set out in the Council's Financial Regulations and Scheme of Delegation for Financial Management. The Section 151 Officer will fulfil all such responsibilities in accordance with the Council's policy statement and TMPs and the CIPFA Standard of Professional Practice on Treasury Management.

## **TMP 6 - Reporting requirements and management information arrangements**

Regular reports will be prepared and considered on the implementation of the Council's treasury management policies; on the effects of decisions taken and transactions executed in pursuit of those policies; on the implications of changes, particularly budgetary, resulting from regulatory, economic, market or other factors affecting its treasury management activities; and on the performance of the treasury management function.

As a minimum:

- Full Council will receive an annual report on the strategy and plan to be pursued in the coming year.
- The Cabinet will receive reports on the performance of the treasury management function, and on any circumstances of non-compliance with the Council's Treasury Management Policy Statement and TMP's, as part of the Council's quarterly financial overview reporting.

The Council's Corporate Policy and Scrutiny Committee have responsibility for the scrutiny of treasury management policies and practices.

## **TMP 7 - Budgeting, accounting and audit arrangements**

The Section 151 Officer will prepare, and full Council will approve and, if necessary, from time to time will amend, an

annual budget for treasury management, which will bring together all of the costs involved in running the treasury management function, together with associated income.

The matters to be included in the budget will at minimum be those required by statute or regulation, together with such information as will demonstrate compliance with TMP1 Risk management, TMP 2 Performance Measurement, and TMP 4 Approved instruments, methods and techniques. The Section 151 Officer will exercise effective controls over this budget and will report upon and recommend any changes required in accordance with TMP 6 Reporting requirements and management information arrangements.

The Council will account for its treasury management activities, for decisions made and transactions executed, in accordance with appropriate accounting practices and standards, and with statutory and regulatory requirements in force for the time being.

## **TMP 8 - Cash and cash flow management**

Unless statutory or regulatory requirements demand otherwise, all monies in the hands of the Council will be under the control of the Section 151 Officer and will be aggregated for cash flow and investment management purposes.

Cash flow projections will be prepared on a regular and timely basis, and the Section 151 Officer will ensure that these are adequate for the purposes of monitoring compliance with TMP1[2] liquidity risk management.

## **TMP 9 - Money laundering**

The Council is alert to the possibility that it may become the subject of an attempt to involve it in a transaction involving the laundering of money. Accordingly, it will maintain procedures for verifying and recording the identity of counterparties and reporting suspicions and will ensure that staff involved in this are properly trained. The present arrangements, including the name of the officer to whom reports should be made, are detailed in the Council's Anti-Money Laundering Policy.

## **TMP 10 - Training and qualifications**

The Council recognises the importance of ensuring that all staff involved in the treasury management function are fully equipped to undertake the duties and responsibilities allocated to them. It will therefore seek to appoint individuals who are both capable and experienced and will provide training for staff to enable them to acquire and maintain an appropriate level of expertise, knowledge and skills.

The Section 151 Officer will recommend and implement the necessary arrangements, including the specification of the expertise, knowledge and skills required by each role or member of staff.

The Section 151 Officer will also ensure that elected members tasked with treasury management responsibilities, including those responsible for scrutiny, have access to training relevant to their needs and those responsibilities.

Those charged with governance recognise their individual responsibility to ensure that they have the necessary skills to complete their role effectively.

## **TMP 11 - Use of external service providers**

The Council recognises that responsibility for treasury management decisions remains with the Council at all times. However, the Council recognises that there may be value in employing external providers of treasury management services, in order to acquire access to specialist skills and resources.

When it employs such service providers, it will do so following a full evaluation of the costs and benefits and will also ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented and subjected to regular review.

Where services are subject to formal tender or re-tender arrangements, legislative requirements will always be observed.

The monitoring of such arrangements rests with the Section 151 Officer.

## **TMP 12 - Corporate governance**

The Council is committed to the pursuit of proper corporate governance throughout its businesses and services, and to establishing the principles and practices by which this can be achieved. Accordingly, the treasury management function and

its activities will be undertaken with openness and transparency, honesty, integrity and accountability.

This organisation has adopted and has implemented the key principles of the CIPFA Treasury Management in the Public Services Code of Practice and Cross Sectoral Guidance Notes.

## ANNEX 3G - Investment management practices for non-treasury investments

---

The Council recognises that investment in other financial assets and property primarily for financial return, taken for non-treasury management purposes, requires careful investment management.

New investments will only be undertaken following the Council's business case and governance framework for decision making.

Each proposal to make a non-treasury management investment will articulate:

- The objectives and management arrangements for the investment.
- The risk of loss and the arrangements for mitigating such losses.
- The decision making and reporting arrangements.
- The performance management arrangements.

The Council will maintain a schedule setting out a summary of existing material investments, subsidiaries, joint ventures and liabilities including financial guarantees and the Council's risk exposure.

## **Appendix B – Equality Impact Assessment (Organisation Plan and Budget)**

### **1. Overview**

- 1.1 This appendix describes the most significant equality pressures confronting each main service area, informed by an equality analysis. It highlights the effect of policy and governance changes; an overview of positive and neutral impacts; and a service impact overview. These outcomes are based upon spending decisions taken during the last two years and changes resulting from the 2022/23 budget. The analysis also highlights a number of cumulative impacts that may arise resulting from the 2022/23 budget.
- 1.2 It is important to note that the budget is the financial expression of the Everyone's Essex Annual Plan and our operational intent, and where known, the equality impact of change is disclosed. However, there are a number of individual decisions that will arise over the period of the 2022/23 budget. These will be subject to specific and more detailed equality impact assessments in line with the Council's Equality Impact Assessment (EIA) guidance. Political decisions will only be taken once effective and meaningful engagement has taken place on a need-by-need basis.
- 1.3 In making this decision we must have regard to the Public Sector Equality Duty (PSED) under section 149 of the Equality Act 2010, i.e. have due regard to the need to:
  - (a) Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act;
  - (b) Advance equality of opportunity between people who share a protected characteristic and those who do not;
  - (c) Foster good relations between people who share a protected characteristic and those who do not, including tackling prejudice and promoting understanding.
- 1.4 The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation. In addition, marital status is a relevant protected characteristic for 1.3(a)
- 1.5 The PSED is a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s149. It is only one factor that needs to be considered and may be balanced against other relevant factors.
- 1.6 Part of the equalities governance is to ensure that equality impact assessments are undertaken when considering new and/or revised policies to inform and underpin good decision making processes. This also helps us pay due regard to our equality obligations.
- 1.7 The Equality Act also says that public bodies must pay 'due regard' to equality. This means that we must:
  - Remove or minimise disadvantages suffered by people due to their protected characteristics;

- take steps to meet the needs of people from protected groups where these are different from the needs of other people.

## **2. Identified high level cumulative equality impact**

- 2.1 At this stage, it is not possible to fully measure the cumulative impact of the proposals on those people who have protected characteristics under the Equality Act 2010, or how the geographic spread of budget proposals will be felt across rural and urban areas of Essex.
- 2.2 However, a preliminary equality analysis of the planned activity and budget proposals for 2022/23 indicates that the council will continue to make the majority of identified savings through efficiencies linked to internal systems and processes. The Covid-19 pandemic has continued to change the way in which most council employees carry out their work. The savings proposals that have been identified to frontline services have been developed to ensure cost effectiveness whilst maintaining a high standard of service delivery. Consequently, it is likely that the budget proposals in the coming year will have limited negative impacts on the communities that we serve.
- 2.3 Key impacts from this initial analysis across the portfolios are outlined from section 5 below.

## **3. Mitigating actions which will be considered**

- 3.1 **Monitoring of impact:** Services must ensure ongoing equalities monitoring of the impact of service changes, to identify trends in disproportionate or unanticipated impact at an early stage to address them. This reporting should be monitored Council-wide at senior levels within the Council in order to identify cumulative impacts and mitigating actions. Consideration should be given to working with other partners in this monitoring and evaluation where appropriate.
- 3.2 **Informing decision-making:** The findings of this monitoring should be used to inform the budget-setting process year on year.
- 3.3 **Equality Impact Assessments:** As the budget proposals are developed, individual equality impact assessments will be undertaken. This will include an assessment of who is likely to be impacted by the changes, whether they are considered to have 'protected characteristics' under the Equality Act 2010 and if they are, what mitigation activity is proposed to ensure that they will not be disproportionately affected. These will all be reviewed to provide an assessment of the cumulative impact of the budget decisions.
- 3.4 **Targeting based on need:** Resources and services should clearly identify specific needs of different groups at an early stage in order to be most effective and meet needs at first contact wherever possible e.g. through consultation.
- 3.5 **Gaps in monitoring:** Where gaps in monitoring have been identified during the equality impact assessment process, steps should be taken to fill these in the

forthcoming year. This will enable better modelling of potential impacts and assessments in future.

#### **4. Strategic focus on Equality, Diversity and Inclusion**

- 4.1 The Council is fully committed to addressing the challenges facing communities and supporting residents to live better lives. Everyone's Essex: our plan for levelling up the county 2021-2025 sets out how services are responding to and are planning for these challenges with a key focus on tackling inequalities across the County. Three themes have been identified – Renewal, Equality, Ambition – to ensure we are well placed to address the challenges ahead. Alongside these themes, that run through everything we do, we are focused on 4 areas where outcomes really matter for the quality of life of our residents.

They are:

- the economy
  - the environment
  - children and families
  - promoting health, care and wellbeing for all the parts of our population who need our support
- 4.2 This commitment to equality and inclusion is shared by partners and is firmly rooted in the long-term Vision for Essex: The Future of Essex. This outlines commitments to improve the life chances and experiences for all Essex residents. A key ambition within the Vision for Essex is to share prosperity with everyone, an ambition that is vitally important to the Council.
- 4.3 The Everyone's Essex Annual Plan and Budget for 2022/23 gives effect to this in the following ways:
- By ensuring that the savings are balanced across service areas and are not targeted at the most vulnerable
  - By driving savings through the delivery of efficiencies and through the reform of services to improve outcomes and make them more cost effective
  - By continuing to invest in services and activities that will reduce inequalities and support better lives for all residents

#### **5. Policy and Governance Context**

- 5.1 The proposed social care precept may adversely impact some residents of Essex; however residents on the lowest incomes will remain eligible for support with their bills via their local council tax support schemes (operated and maintained by the city, district and borough councils). The increase proposed relates to a specific social care precept that will be ring-fenced for adult social care. This should positively impact on vulnerable adults within Essex by helping to protect and improve social care services.
- 5.2 The localisation of council tax benefit (introducing new payees to council tax as a result of national policy changes) was implemented in 2013/14 alongside a

scheme for hardship and investment in collection initiatives including Citizens Advice support. Over this time, the 12 billing authorities have sustained collection rates against this backdrop, ensuring no negative impact on other council tax payers. However, during the Covid-19 pandemic we have seen a reduction in collection rates, although they are still at a high level. Our budget proposes continuation of the investment into collection and hardship for 2022/23.

- 5.3 We have joined forces with the borough, district and city councils and police and fire authorities to tackle council tax fraud across the county. The programme:
- ensures those entitled to discounts or exemptions on their council tax are receiving the right support;
  - has introduced extensive regular reviews to ensure the levels of benefits people receive are correct;
  - encourages people to notify councils if their circumstances change, and the consequences of not doing so, to enable councils to take swift and appropriate action against people fraudulently claiming council tax benefit.
- 5.4 The budget will be discharged against a background of continuing intense pressure across the health and care system in Essex, particularly in light of the ongoing Covid-19 pandemic.

## **6. Portfolio Impacts Overview**

### Adult Social Care and Health

- 6.1 The priority is to operate sustainably while fully meeting our legal obligations and in so doing ensure adults, carers and families have access to the information, advice and tools they need to enable them to live ordinary lives, safely and independently, for as long as possible. The Council currently supports around 17,000 adults, of which about 9,000 are older people, some 5,000 are people with learning disabilities, over 2,000 are people with physical or sensory impairments and around 800 are people with mental health needs.
- 6.2 Operational conditions remain exceptionally challenging with the combined impact of the ongoing pandemic, labour shortages and market fragility being felt across the system as a whole.
- 6.3 In practical terms this means that our priority remains ensuring the safety of vulnerable adults and the continuity of the services they depend on. Over the last year we have taken a number of urgent decisions that have allowed us to implement a range of measures to support the market and promote continuity of supply. It is anticipated that further measures of this sort will be required this year.
- 6.4 We have an excellent relationship with our providers, working with them very closely and we are confident that this will continue. Together we are

developing a Market Strategy that recognises the challenging times we are in and sets out our approach to maintaining and developing our market in this context.

- 6.5 Against this background it is important that we continue to operate as efficiently as possible to help ensure we can continue to support the most vulnerable in our communities.
- 6.6 It is against this challenging background that included within the total net budget of **£470.2m** (total gross budget is **£737.3m**) are budget savings proposals of **£21.7m** (4.6% of the net budget or 2.9% of the gross budget) that need to be made in order to achieve financial sustainability and to accommodate demographic and inflationary pressures in 2022/23.
- 6.7 The main areas that will see changes as a result of our budget proposals are set out in the following paragraphs.

- (a) **Learning Disability** – The Council aims to support individuals with learning disabilities and/or autism to ensure their needs are being met and to enable them to achieve their outcomes and life aspirations. The main vehicle for this is the Meaningful Lives Matter Programme (MLM) which is now in its second year.

The programme seeks to:

- a) develop individual potential and independence by providing the infrastructure, opportunities and support people need to flourish and
- b) to make this happen by working with the market to ensure there are appropriate alternatives to traditional care models that support this approach, including reducing reliance on residential care.

It is anticipated that MLM will ensure that people's needs are appropriately and sustainably met, promote better and more sustainable long-term outcomes and in so doing generate **£4.6m** in efficiencies.

The detailed Equality Impact Assessment undertaken indicates that no equality group will be adversely impacted by the 'Meaningful Lives' approach detailed above. Indeed, with specific regards to the Learning Disability, this approach is expected to have a high positive impact on this equality group.

- (b) **Mental Health** – We are undertaking a review of our partnership arrangements and a new partnership agreement with our provider has been put in place to support the delivery of the outcomes of this review as they emerge. The intention is to ensure that we provide effective support for adults in the most efficient manner possible, ensuring they are receiving the least restrictive but appropriate levels of support to meet their needs, support and enable their recovery and build resilience. This approach will promote better outcomes for the adults and allow us to use our resources more efficiently. It is anticipated that this review will generate efficiencies of some **£647,000** in 2022/23 whilst allowing us to continue to fully meet our

legal obligations and provide more person centred support for individual adults for example through the development of more flexible accommodation options that better reflect individual needs.

**(c) Technology, and Information Advice and Guidance (IAG) -**

In July 2021 the Council launched a new county-wide care technology service to ensure that people have a better technology support offer from the Council to enable them to live independently and to prevent the escalation of needs. This is a key enabler to helping the Council fulfil its Care Act 2014 duties to prevent, reduce and delay the onset of care needs and can reduce:

- the need for Hospital admission
- the need for residential care
- the need for increased domiciliary care packages
- loss of independence

Care technology can support people of all ages, including working age adults with learning disabilities, older people, and those with physical and sensory impairments.

We will only use technology solutions to meet need where we have assessed this option as being safe and appropriate for the adult. Where it is not appropriate, we will ensure alternative support is offered where the adult has been assessed as having eligible needs in line with provisions of the Care Act 2014.

Through a combination of more efficient provision and the cost avoidance that appropriately meeting need through technology solutions provides we expect to generate efficiency savings of **£4.9m** in 2022/23.

**(d) Older People** – Through our “Connect” programme we are undertaking a full review and change programme, addressing 5 key areas that were identified from a 2019 diagnostic exercise. 3 of these cover the critical pathways that support adults going into and leaving hospital, one looks at Community Social Care decision making, and one addresses process and practice within our Reablement at Home offer.

The objective is to ensure that the adult is offered the most appropriate support for them by optimising services around what adults need, and by working to improve the volume of adults who can be supported, with an emphasis on people being enabled to return home where this is possible, with support to regain as much independence as possible.

Pressures in the domiciliary care market and workforce pressures mean there is a risk that not as many older people benefit from reablement and domiciliary care services as is desired, leading to an increased use of residential placements on discharge from hospital. This will be regularly monitored and mitigated through joint working with partners to ensure the focus remains on supporting people’s independence and return home and

that, in the event of a temporary residential admission, that the person is supported home as soon as appropriate.

It is anticipated that this approach will enable us to both fully meet the needs of adults and generate some **£9.8m** in efficiencies in 2022/23 and pave the way for a more sustainable operating model in future years and offer better outcomes for adults requiring support. Alongside these new ways of working, data points will be developed that, alongside a Lived Experience capture, will be used in local and countywide improvement cycles to ensure we mitigate any negative impacts on adults who use services.

- (e) **All care groups** - In addition to the work set out above we will continue to work with our market to develop new models for meeting need, for example through the development of micro-providers to enable adults with Direct Payments to have more choice over how they use them. In parallel we will develop the infrastructure required to support this new approach. We anticipate that as this model develops it should generate some **£895,000** in efficiencies in 2022/23.

- 6.8 In order to ensure that the Council pays due regard to the PSED, individual equality impact assessments will be undertaken in order to ensure there are mitigating actions, where possible, to minimise any adverse impact on citizens accessing Adult Services.

#### Children's Services and Early Years

- 6.9 Children's Services and Early Years purpose is to protect children and young people from neglect and abuse, and to promote their development and wellbeing. The Council will continue to work with partners to provide a wide range of early help, family support and social work interventions, to help families improve their lives and support children to overcome early childhood trauma, look forward to a brighter future and achieve their aspirations. As Corporate Parents, the Council will do its best to see that this happens for children in care and care leavers.
- 6.10 To do this well and get best value for money, the Council aims to be at the forefront of best practice. It will always learn from the most forward-thinking innovations and positive developments in the social work profession, as well as from the children, young people and families the Council works with.
- 6.11 The portfolio has identified budget savings proposals of **£2m** for 2022/23.
- 6.12 £1.75m is made through one-off use of carried forward under spend (from 2021/22), or contribution from partners and will have no impact to service users.
- 6.13 £250,000 relates to the Dedicated Schools Grant (DSG) and proposals to maximise the use of grant funding into the portfolio. No impact on service users is anticipated.

- 6.14 In order to ensure that the Council pays due regard to the PSED, individual equality impact assessments will be undertaken in order to ensure there are mitigating actions, where possible, to minimise any adverse impact on children, young people and their families.

#### Community, Equality, Partnerships and Performance

- 6.15 The portfolio has identified budget savings proposals of **£318,000** in 2022/23.

- 6.16 £250,000 relate to efficiencies following lean reviews and support service redesign within Customer Services, £40,000 relate to additional income expected from the Leading Greater Essex Programme, with the remaining £28,000 linked to realising efficiencies across the Strategy, Insight and Engagement team.

- 6.17 These changes are not expected to impact on the level of service provided to residents. Individual equality impact assessments will be undertaken where necessary.

#### Finance, Resources and Corporate Affairs

- 6.18 The portfolio has identified budget savings proposals of **£4.9m** in 2022/23.

- 6.19 £2.5m of which relate to more efficient use of our buildings. These changes are not expected to impact on the level of service provided to residents.

- 6.20 A further £1.1m of proposed savings relates to a reduction in planned contributions to the insurance reserve owing to a downward trend in insurance claims over recent years.

- 6.21 Other savings across the portfolio relate to one-off under spends carried forward, reducing waste, controlling demand and contract management. These changes are not expected to impact on the level of service provided to residents.

- 6.22 It is not considered that the savings proposals will have an adverse impact on persons who share any relevant protected characteristic. However, an equality impact assessment will be completed as part of the governance and decision making for each individual project.

#### Highways Maintenance and Sustainable Transport

- 6.23 Savings proposals of **£5.6m** have been identified for the 2022/23 financial year. These are categorised into the main areas outlined below:

- (a) Partnership improvements and efficiencies within the Essex Highways partnership (highways maintenance) has proposals totalling **£4m**; Benefits are being achieved through seeking continuous improvements, economies of scale, energy efficiencies, increasing income opportunities and different ways of delivering services more efficiently.

- (b) Efficiencies of **£860,000** through changes in approach to working with other partners which will be subject to thorough service review.
- (c) Ongoing energy efficiencies from the transfer to LED across the Highways infrastructure which will generate cost reduction of **£428,000**.
- (d) Other contractual efficiencies have been identified totalling **£283,000** as a one-off opportunity within Park and Ride.

6.24 For the majority of these proposals above it is not considered that they will have a disproportionate impact on people who share any relevant protected characteristic, if there are some cost reductions that could potentially impact people with protected characteristics as detailed implementation plans are worked up.

#### Leader

- 6.25 The portfolio has identified savings proposals of **£52,000** in 2022/23. The majority of which relates to efficiencies through support services.
- 6.26 These changes are not expected to impact on the level of service provided to residents.
- 6.27 Individual equality impact assessments will be undertaken where necessary.

#### Other Operating Costs

- 6.28 The portfolio has identified budget savings proposals of **£550,000** in 2022/23.
- 6.29 £300,000 of savings relates to increased dividend contribution from the Council's wholly owned Local Authority Trading Company Essex Cares Ltd.
- 6.30 The remaining £200,000 of saving is proposed through better cash management and reducing the interest payable on borrowing.
- 6.31 These changes will not impact on the level of service provided to residents.
- 6.32 Individual equality impact assessments will be undertaken where necessary.

#### Waste Reduction and Recycling

- 6.33 The portfolio has identified savings proposals of **£762,000** for 2022/23.
- 6.34 £212,000 of which will be delivered by efficiencies through undertaking a forensic review of budgets and analysing current and historic trends to accurately forecast waste tonnage volumes, contractual and non-contractual spend and optimising our waste infrastructure for maximum utilisation.

- 6.35 The remaining £550,000 is anticipated to be delivered by reviewing the waste infrastructure we operate, in particular Recycling Centres, to ensure that the service is fit for purpose to meet the demands of Essex residents in the future.
- 6.36 There are not expected to be any impacts to protected groups at this stage but an equality impact assessment will be completed as part of the governance and decision making for each individual project.

## **Appendix C**

### **Essex County Council Pay Policy Statement 2022/23**

#### **1. Introduction**

This is the Council's Pay Policy Statement adopted under the Localism Act 2011.

#### **2. Determination of Grade and Salary for chief officers and lowest paid employees**

The Council's pay policy is influenced by several factors which include market information, market forces, economic climate, measures of inflation and budgetary position and political context. Pay is revisited from time to time to ensure they remain appropriate when benchmarked against external independent appropriate compensation surveys, applicable to each role.

The Essex Pay policy referred to in this Statement is relevant to the majority of Council employees. However, the scope of this Statement does not include all Terms and Conditions as some are set on a national basis. Those outside the scope include:

- Teachers who are covered by the national conditions for schoolteachers pay and conditions in England and Wales,
- Soulbury Committee, Adult Education, Joint National Council (JNC)
- people on National Health Service (NHS) terms and conditions.

For the main pay scales the appropriate grade for a job is established through the KornFerry HAY job evaluation methodology which provides the basis for grade determination based upon a range of established factors.

No evaluation process exists for Soulbury or Youth and Community conditions, but employees are placed within Nationally defined grading structures.

#### **3. Salary**

The main grades of the Essex Pay scheme operated by the Council consists of local grades A to J for the main grades and grades SCC to SCH for specialist social care roles. The Chief Executive is on a negotiated rate outside these grades. Each job is assigned the appropriate grade and salary (known as the 'rate for the job'). Details of these grades can be found on the Council's website

The details of the salary package for the Chief Executive, and all members of the Corporate Leadership Team are published and updated on the Council's website.

The definition of the lowest paid employee used by the Council is for those undertaking an approved apprenticeship programme and where the apprenticeship pay rate of the national minimum wage applies as described by law. For all other employees on Essex main grades, salaries will be no less than the National Living Wage, or 85% of the rate for the job, whichever is the highest.

All employees who are new to the organisation or who secure a new job within it are appointed at a salary in accordance with Essex Pay / Essex Pay Social Care guidance agreed by the Chief Executive. Employees will be provided with an appropriate progress plan in accordance with the Essex Pay Policy and subject to satisfactory progress, salary will be increased accordingly up to Rate for the Job (RFJ).

Pay is reviewed annually, usually in April, as follows:

- The 'rate for the job' for each job that is on Essex Pay main grades is reviewed by the Chief Executive.
- For Essex Social Care roles, the pay is reviewed and, where increased, a percentage increase is applied to all employees in these roles by the Chief Executive.
- For employees appointed at grades A and B of the main grades, the pay is reviewed and, where increased the minimum, mid-point and maximum pay rates will be increased by the same percentage.

Where clear evidence exists and can be balanced with business need, the use of an additional market supplement payment to a job role or group of job roles where external market pressures would otherwise prevent ECC being able to recruit or retain will be considered.

In exceptional circumstances the use of an individual supplement may be required where a business case exists.

#### **4. Appointment of Chief Officers**

Generally new employees will start at either the bottom of the grade or at the mid-point for Grade A or B, or by exception at the maximum rate of pay.

The appointment of individual chief officers, including those receiving salaries in excess of £100,000, is in accordance with the pay structure and the principles outlined in the Essex Pay / Essex Pay Social Care guidance. No chief officer is appointed to a job without being approved by the Councillors who are on the Senior Management Employment Committee (SMEC).

#### **5. Appointment of other employees paid above £100,000**

The appointment of Deputy Chief Officers are also the subject of a vote by the Senior Management Employment Committee (SMEC), which is a committee of elected councillors.

There are a small number of senior posts which are neither Chief Officer nor Deputy Chief officer posts which may attract a salary of £100,000 and which are not subject to a decision by the SMEC.

#### **6. Pay Progression for Chief Officers and Deputy Chief Officers**

Levels of increase and any unconsolidated payments for Chief Officers are set by the SMEC considering a number of factors including market conditions, benchmarking data and affordability.

The pay of Chief officers does not currently include a performance related element. Any change to this would result in a change to the pay policy statement.

Where a Chief Officer has been appointed to a role at the minimum salary for grade, accelerated base pay towards mid-point may take place in accordance with a progression plan. Any pay increase for a Chief Officer or any pay increase for beyond the mid-point for a Deputy Chief Officer requires the approval of SMEC and will be considered on exceptional circumstances for example where performance, retention or specific market pressures may exist.

## **7. Other Allowances/Payments**

As a general rule, all other forms of payments/allowances are applicable to all employees or specific groups of employees (such as pension contributions, childcare vouchers etc). As an exception, Chief Officers, Deputy Chief Officers and other employees at Grade C may also receive:

- Annual Allowance Payment in lieu of a lease car (other eligible employees may receive a lease car subject to eligibility criteria but they are not entitled to an allowance in lieu)
- Private Medical Health Insurance – This is not contractual but is currently applicable to Chief Officers and roles at grade C and above

## **8. Definition of Lowest and Highest Paid Employees**

The lowest paid employees are defined as those currently on an approved apprenticeship scheme. This excludes some interns who, although employees, are subject to significant investment in terms of training and learning.

The highest paid employee is the Chief Executive. Other than the Chief Executive, the highest paid posts within the Council fall within posts evaluated at grade A.

## **9. Pay Ratios**

The recommendation of the Hutton Report into “Fair Pay in the Public Sector”, as recognised by the Government in the Code of Recommended Practice for Local Authorities on Data Transparency, was that a pay ratio of the Chief Executive compared to the median average salary in the organisation should be published.

For the start of financial year 2022/23 that ratio is 1:6.8. This is a reduction in the differential from last year, driven by increases in pay to the wider workforce whilst no increase was paid to the Chief Executive

## **10. Publication of Pay Data**

The Council will publish the number of people and job title by salary band. This is from £50,000 to £54,999 and then by pay bands of £5,000 thereafter. This will include elements made on a repeatable or predictable basis such as market premium payments.

The pay of all Chief Officers is published on the Council's website.

## **11. Governance**

The Council's policy is to delegate authority for decision-making to the appropriate level and to detail such delegations within the Constitution.

Under the Council's Constitution, the Chief Executive is the Head of the Paid Service and has delegated authority to appoint, dismiss and determine pay for all employees except where this function is specifically delegated to Members under the constitution or by law. The Chief Executive has authorised certain other officers to appoint and dismiss certain staff.

Full Council appoints Members to a politically balanced committee called the Senior Management Employment Committee (SMEC). This committee has authority to

- to recommend to Full Council the appointment of the Head of the Paid Service
- to appoint and dismiss Chief and Deputy Chief Officers (other than the Chief Executive, the s151 officer and the monitoring officer) this may be through the appointment of sub-committees of three Members to deal with particular appointments, dismissals or appeals or through authorising the Chief Executive or his nominee to deal with a particular appointment or dismissal;
- to consider and approve the recommendations of the Chief Executive and the Leader of the Council in respect of unconsolidated payments (if made) for the Chief Executive and Executive Directors
- to determine pay levels for Chief and Deputy Chief Officers including market supplements and retention payments (which may only be made in exceptional circumstances).

The Committee can delegate functions relating to Layer 2 employees (Directors and Heads of Service) to a Sub-Committee which is a politically balanced group of elected councillors.

Any change of pay for Chief Officers and for Layer 1 (Executive Directors) and Layer 2 employees other than in accordance with normal progression through the grade including market supplements or other retention payments must be approved by the Committee.

The appointment or dismissal of the Head of the Paid Service, the section 151 officer or the monitoring officer is required to be approved by the full Council.

The authority must consult with the Secretary of State before dismissing its Director of Public Health.

## **12. Termination of Employment of Chief Officers**

The Council's Policy on the termination of Chief Officers' employment is as detailed at paragraph 10 of this Statement and within the Constitution.

The Council's early retirement Policy is that requests for early payment of benefits will be agreed (before the age of 60) only if there is a compelling business reason for doing so.

The Council's redundancy policy may be implemented and enacted if, a Chief Officer position is made redundant. All payments will be made in accordance with the redundancy policy and subject to any payment restrictions regarding Public Sector Exit payments.

In exceptional circumstances to avoid or settle a claim or potential dispute, the Council may agree payment of a settlement sum in line with any restrictions regarding Public Sector Exit payments. All cases must be supported by a business case and take account of all legal, financial, contractual and other responsibilities.

# Consultation on the 2022/23 budget

## Final report

Chief Executive's Office  
November 2021

# BUDGET CONSULTATION: SUMMARY

## Essex-wide issues and resident concerns

The National Health service/health care is viewed by participants as **the most important issue facing Essex today**. Participants also see **social care provision** and **crime/community safety** as key issue to be addressed.

This is largely reflected in personal concerns of participants, though road repairs and traffic congestion become far more prevalent.

## Commitment priorities

When asked about things that should be prioritised for immediate action, participants identify; Developing Essex infrastructure; Supporting those who care for the sick or vulnerable children; Minimising the amount of waste generated in Essex; Protecting vulnerable children & securing high standard education.

Residents feel accessibility to health services and housing is a key priority, that ECC needs to support local businesses and to tackle the green agenda we need to review our processes.

## Spending decisions

Participants are torn between strategies of spending allocation and acknowledge that these are difficult decisions for ECC, but there is a need for a **balanced approach** to ensure all residents are catered for.

Strategies for dealing with financial pressures centre around:

- **Strengthening individual and community capabilities**, in order to prevent long-term public service reliance;
- **Outsourcing services**, though keeping this within ECC powers to ensure value for money and the quality of service delivery remains
- **Increasing council tax**, in order to prevent services from being reduced or stopped. Yet, there is an expectation to see the results tax in terms of it going back into local communities.

# BUDGET CONSULTATION: BUSINESS OWNERS / SELF-EMPLOYED SUMMARY

## Essex-wide issues and resident concerns

Business owners largely reflect the sentiment of Essex residents that the National Health service/health care is **the most important issue facing Essex today**. Followed by crime / community safety which is seen as a more pressing issue vs. residents. **Social care provision**, the **environment and education** are also top priorities for business owners.

This is largely reflected in personal concerns, though road repairs and traffic congestion become far more prevalent, and public transport features as a higher concern vs. residents

## Commitment priorities

When asked about things that should be prioritised for immediate action, business owners largely identify similar priorities to Essex residents; Developing Essex infrastructure; Protecting vulnerable children; Supporting those who care for the sick or vulnerable children; Minimising the amount of waste generated in Essex; though enabling healthier lifestyles and supporting vulnerable families hold more of a focus, and good jobs significantly less so.

When prompted, businesses feel that transport infrastructure and public transport in particular are key considerations when developing Essex's infrastructure.

## Spending decisions

Business owners perceptions of spending allocation are in line with Essex residents. Largely torn between strategies of spending allocation with the acceptance that there is a need for a **balanced approach**, but with a slightly stronger focus on individuals and places with the most need.

Strategies for dealing with financial pressures centre around:

- **Strengthening individual and community capabilities**, in order to prevent long-term public service reliance;
- **Outsourcing services**, though keeping this within ECC powers to ensure value for money and the quality of service delivery remains. This is a preferable option for business owners vs. streamlining services;
- **Increasing council tax**, this avenue isn't as accepted by business owners vs. Essex residents as a whole, however it is still recognised as an acceptable option to prevent services from being reduced or stopped, particularly for the most vulnerable.

# Consultation Approach

A mixed method approach to explore residents' views on the 2022-23 budget took place during the period of **15th October 2021 to 12<sup>th</sup> November 2021**.

We invited residents and businesses to have a say on our budget so that their feedback will *guide* budget decisions.

## Online survey

- Questions developed with finance colleagues and in consultation with PLT.
- Hosted by Beehive (our residents panel provider) and on ECC's consultation platform for 4 weeks.
- Promoted via the Essex residents panel, ECC's corporate communications and through digital / social media
- Responses received from c.1,228 residents, including 105 who identified as 'self-employed' and/or 'business owners'

## Resident Focus groups

- Three focus group discussions with Essex residents undertaken online via MS Teams, each session lasting 90 minutes
- Up to six participants in each group, allowing for deeper discussions and full conversations
- Focus groups session observed by ECC research team members
- Conducted w/c 25<sup>th</sup> October 2021

\*We have seen a more diverse range of participants from across different areas and age groups when compared to 2020. Nonetheless, participants are 'self-selecting' and tend to be slightly older and slightly more engaged than the average. This should be considered as we interpret the findings and draw conclusions.

This underscores the fact that, in undertaking consultation, ECC must invite and consider all responses equally – it cannot design a representative sample of residents with which to engage to the exclusion of others.

# Resident Priorities

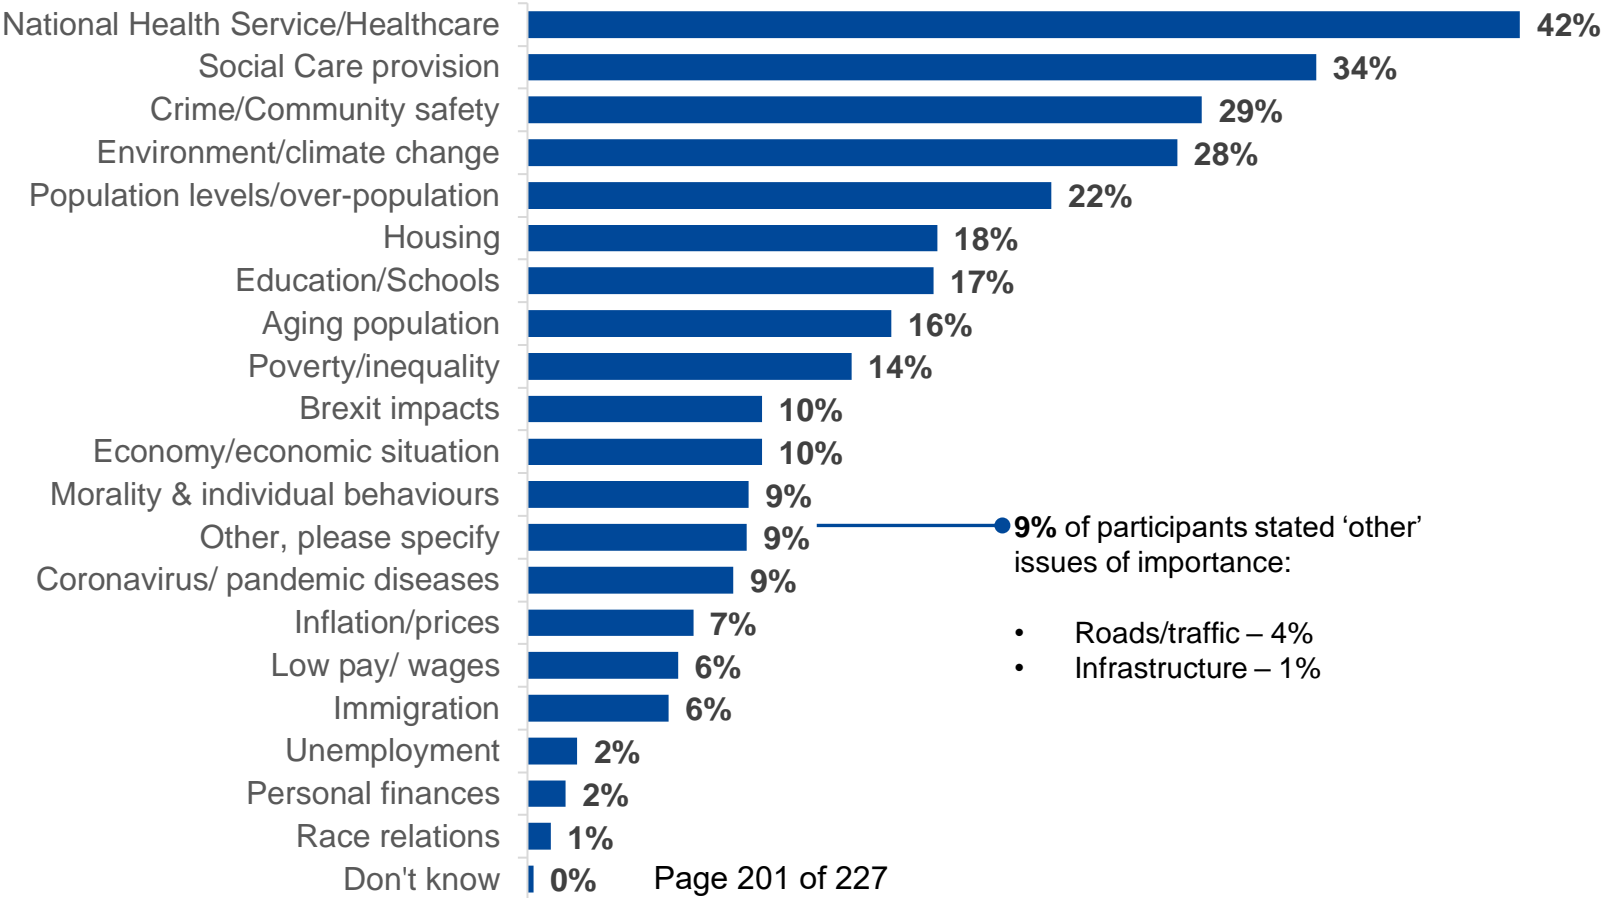

# RESIDENT PRIORITIES

## Residents see pressures on health and social care services as major issues facing Essex

What would you say are the most important issues facing Essex today?

(Max. 3 responses - figures reflect % of respondents who gave each answer)

# RESIDENT PRIORITIES

In their own lives, residents are most concerned about road repairs, the climate crisis, crime/community safety and housing affordability

Which of the following are you concerned about?  
(Max. 3 responses - figures reflect % of respondents who gave each answer)

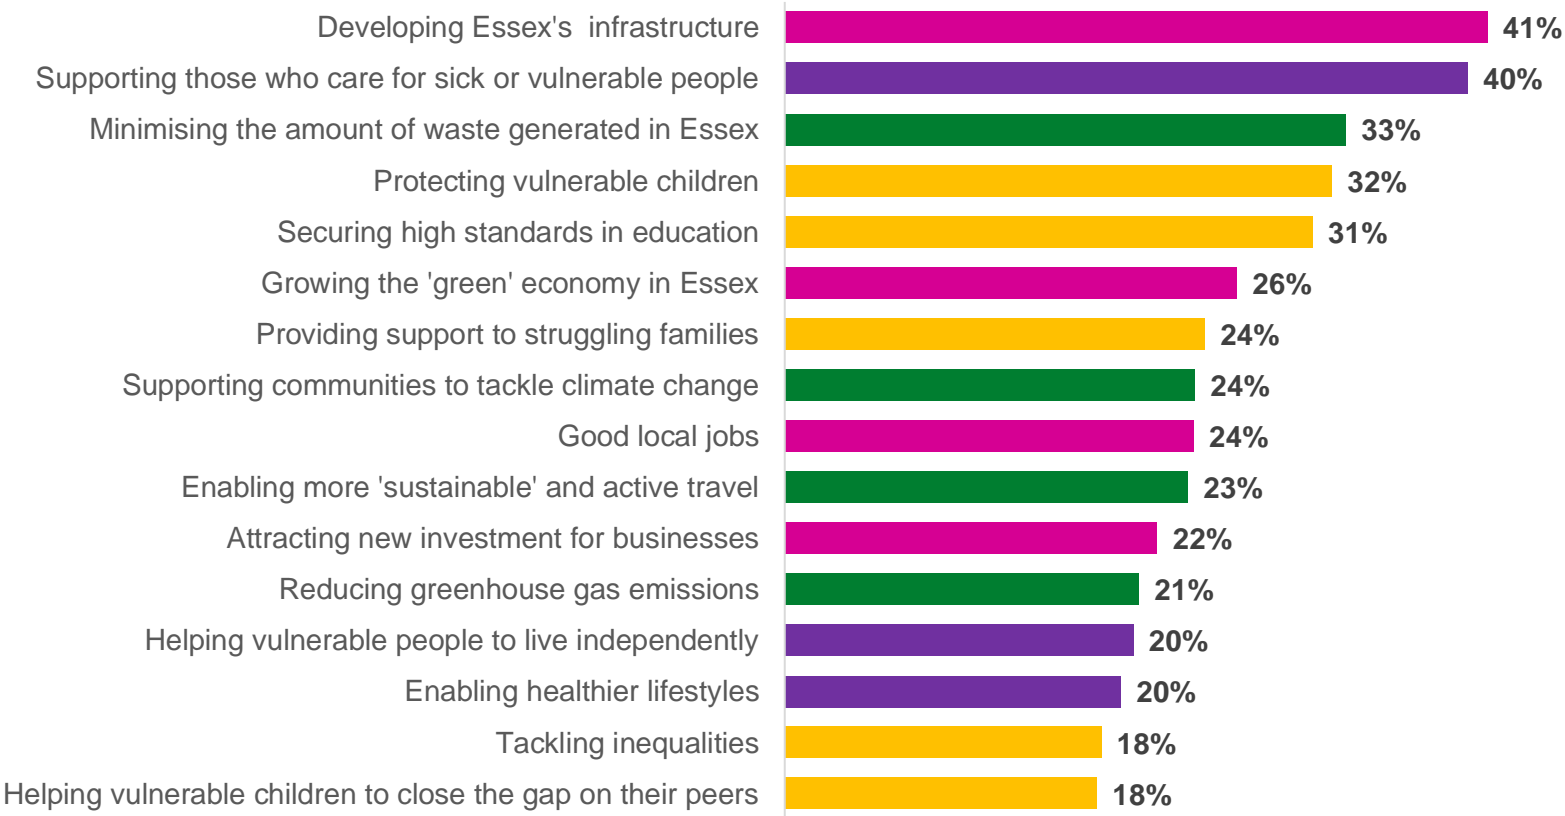

# RESIDENT PRIORITIES

Residents are supportive of our Everyone's Essex commitments see action on infrastructure, support for the sick/vulnerable and environmental issues as immediate priorities

Which of these should the council prioritise for immediate action?

(Max. 3 responses - figures reflect % of respondents who gave each answer)

20 commitments key:

Economy Environment Health Family

# RESIDENT PRIORITIES

The focus groups reflected the importance of improving health services, housing, crime and road infrastructure; a focus on alternative and collaborative solutions came through.

Road and pavement repairs	Traffic congestion levels	Crime and anti-social behaviour	Affordable, decent housing	Health services	Climate
<ul style="list-style-type: none"><li>• Quicker, comprehensive resurfacing e.g. not constant patching</li></ul> <div>A road in my area has been resurfaced three times and the same pothole reopens at the same time every year.</div>	<ul style="list-style-type: none"><li>• More joined-up public transport</li><li>• New roads to facilitate growing communities.</li></ul> <div>Colchester has doubled in population and nothing has been done to the roads.</div>	<ul style="list-style-type: none"><li>• Improved street lighting that is on for longer at night</li><li>• More outreach workers (wardens, PCSOs).</li></ul> <div>I don't feel safe in my area. I'm considering moving.</div>	<ul style="list-style-type: none"><li>• More affordable homes for local/young people.</li><li>• More long-term support for the vulnerably homed.</li><li>• Better insulation/fuel efficiency.</li></ul> <div>There are amazing examples of housing association 3-bed houses with fuel bills of £120 per year.</div>	<ul style="list-style-type: none"><li>• More local services</li><li>• Right services at the right place</li><li>• Greater investment in alternatives to GP/hospital-based services.</li><li>• Support for those most in need</li></ul> <div>If people could access health services in their library they would not necessarily have to visit their GP.</div>	<ul style="list-style-type: none"><li>• Do our bits at community &amp; local levels</li><li>• Bringing recycling centres closer to the people</li><li>• No double standard</li></ul> <div>Essex are spending a lot of money on climate change policies but at the same time their pension scheme invests in fossil fuels so it's a bit of a double standard.</div>

# BUSINESS PRIORITIES

Education and crime/community safety seen as more prevalent issues for business owners and the self-employed

Business Owners and  
Self-employed  
combined  
(base size = 105)

What would you say are the most important issues facing Essex today?  
(Max. 3 responses - figures reflect % of respondents who gave each answer)

# BUSINESS PRIORITIES

Business owners and the self-employed concerns are largely in line with other residents, though public transport and environmental concerns feature more strongly

Business Owners and  
Self-employed  
combined  
(base size = 105)

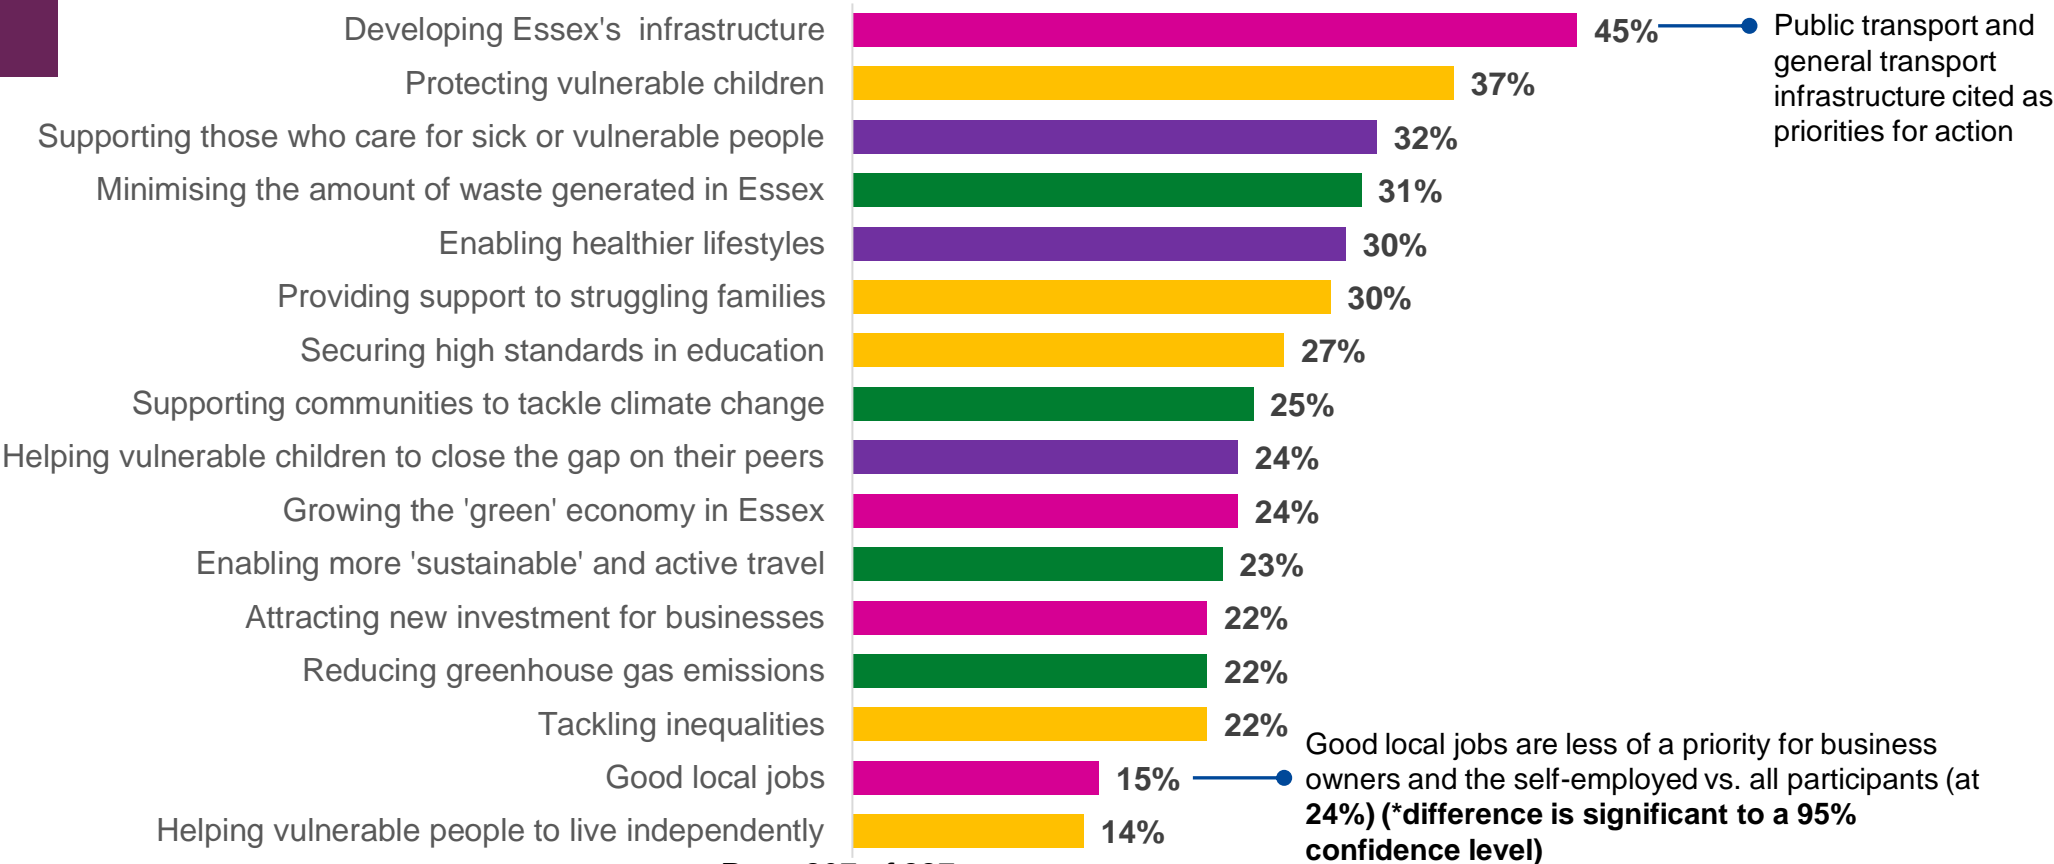

# BUSINESS PRIORITIES

Business owners and the self-employed see action on developing infrastructure as a strong priority, particularly the transport infrastructure

Business Owners and Self-employed combined  
(base size = 105)

## Which of these should the council prioritise for immediate action?

(Max. 3 responses - figures reflect % of respondents who gave each answer)

### 20 commitments key:

Economy Environment Health Family

Three white curved lines, resembling a stylized 'C' or a series of arcs, are positioned on the left side of the slide. They are stacked vertically and have a slight 3D effect with a small vertical line at their base.

# Budget setting and managing resources

# SPENDING ALLOCATIONS

## Opinions on how to prioritise spending is polarising for most scenarios

Residents generally want ECC to balance long-term and short-term need. They want to find the middle ground between serving the needs of people/places facing greatest difficulty with the priorities of the county as a whole.

Residents also have a clear appetite to see spending decisions taken as close to local communities as possible.

### Considering how Essex County Council allocates spending, do you feel...

# SPENDING ALLOCATIONS

## Polarising opinions is consistent amongst business owners and the self-employed

In line with Essex residents as a whole, generally business owners want ECC to find the middle ground in most scenarios. However, business owners do have more of a preference to see spending prioritised for those with the greatest need vs. Essex residents as a whole

Businesses also have a clear appetite to see spending decisions taken as close to local communities as possible.

Business Owners and  
Self-employed  
combined  
(base size = 105)

Considering how Essex County Council allocates spending, do you feel...

# SPENDING ALLOCATION: RESIDENTS RECOGNISE THE CHALLENGE

Residents understand the huge pressure that ECC faces in weighing different needs and priorities and making difficult choices around how to allocate spending

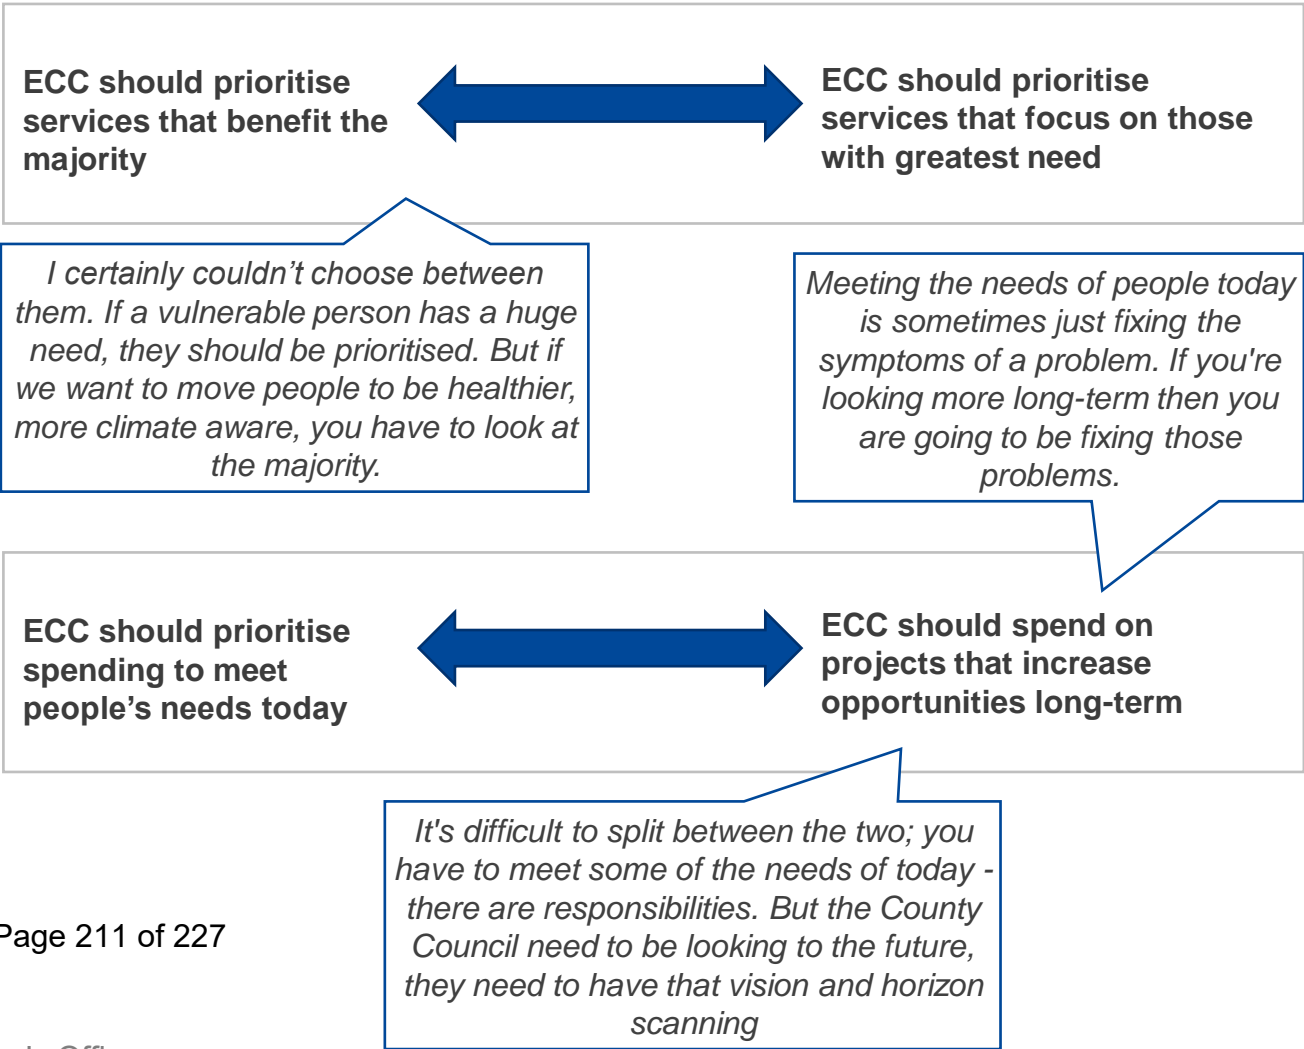

During the small group discussions, participants were asked to make a series of choices around council spending.

Many strong opinions were held. However, the common ground was that **balancing priorities to maximise resources was an almost impossible task** and there was an element of the need to ‘**try and do everything**’.

This led to an understanding that this resulted in a **huge pressure on delivering every day services and long term investment**. As well as the acknowledgement that the **council could not provide all the services** required by the residents.

This makes the decision of how to prioritise difficult.

*Shouldn't there be a little bit [of funding] for everybody? But then, there needs to be some focus on those that really need it. But then, how can there be something for everybody?*

# DEALING WITH FINANCIAL PRESSURES

Encouraging independence and prioritising services for the most vulnerable are considered most important when ECC faces financial pressure

When faced with financial pressure, residents are most supportive of moves to:

- strengthen independence - reducing the need for individuals/ families/ communities to rely on public-funded support; and
- prioritise resources for the vulnerable.

But residents are also supportive of moves to streamline services, work with partner organisations/third parties and encourage local people/communities to play a greater role. Businesses reflect these perceptions with slightly lower support for streamlining services.

Residents are generally less supportive of strategies that involve the introduction of new charges for services that are currently free at the point of use. They are least supportive of moves to stop delivering services entirely.

How strongly do you agree or disagree that Essex County Council should do each of the following when faced with financial pressure? (% agree strongly / slightly)

# DEALING WITH FINANCIAL PRESSURE: STRENGTHENING CAPABILITIES

**Early interventions, excellent education, upscaling skills, empowering local communities & engagement in decisions on innovations are core to strengthening capabilities.**

There was broad agreement in relation to strengthening of individual and community capabilities. The view was that local communities need to be empowered to help work towards meeting the needs of local communities and being part of the decisions to re-imagine how infrastructure currently works

More so, earlier intervention to prevent people from needing services in the long run, such as education at a younger age around preparing for older age, education in modern life skills for all, diet and physical activity at a younger age as a longer term preventative measure.

Participants saw this as a long term goal and agreed this could be achieved by engaging local communities, rebuilding and renewing infrastructure to meet the needs of local communities

***“If you don’t sort out the aging infrastructure, you’re not going to be able to support anything you’re trying to develop”***

***“Educating the young and old in life skills...pensions...credit cards. It’s a shame these things aren’t taught in school. We need to reach out and help people”***

***“This needs to be led by proper research; it’s out there and it says if you’re funding more into these services then down the line, you’re going to have lower costs”***

Page 213 of 227

# DEALING WITH FINANCIAL PRESSURES: DELIVERING THROUGH PARTNERSHIPS

A majority of participants (66%) support partnering with other organisations to deliver services (e.g., through outsourcing or strategic partnership arrangements). Residents are most supportive where ECC partners with local NGOs with the skills required to provide excellent services.

But deeper discussions with participants highlighted a consistent desire to see the evidence that these partnerships delivered high quality services and good value for money.

In the absence of this evidence, many tend to be sceptical about whether quality was being secured and value for money was being achieved.

Even where services are delegated, residents continue to want ECC to take responsibility for results. They want ECC to monitor and measure partners' performance against clear criteria.

***"It does make sense. But you have to go through the whole commissioning process in a way that means that we as taxpayers get good value for money, and we also get a good service from it"***

***"You have to make sure they deliver the same level of service or better. There have to be mechanisms in place to ensure they're delivering what they should be doing."***

***"I'm concerned that once it gets handed over, the county council wouldn't have responsibility for it, and therefore wouldn't manage how it was happening within our community."***

# DEALING WITH FINANCIAL PRESSURES: RATIONALISING SERVICES

In dealing with financial pressures, participants were least supportive of moves to stop providing some services, even when this helps to protect others – (only 24% agreed with this approach).

Although, they are aware of the constraints and pressure facing councils, they argued that every service “is important to a certain group of people” and where certain service(s) are reduced, some groups of people will be greatly affected.

Participants highlighted the difficulty of balancing the perspectives and priorities of different residents and communities and sympathised with decision-makers.

Respondent recognised that while it would be necessary to reduce/constrain spending in some areas, the impact could be devastating on certain groups. They stressed that decisions to reduce/remove services need to be fully justified and taken following efforts to understand and mitigate the impacts on those affected.

***“On the cut to the services, I don’t know where you could start, whatever you do will hurt so many people”***

***“Shouldn’t there be a little bit [of funding] for everybody? But then, there needs to be some focus on those that really need it. But then, how can there be something for everybody?”***

***“I certainly couldn’t choose between them. If a vulnerable person has a huge need, they should be prioritised. But if we want to move people to be healthier, more climate aware, you have to look at the majority”***

Page 215 of 227

# COUNCIL TAX

The majority will accept council tax increases when these are required to avoid service closures and to protect services for vulnerable people

The majority of participants agreed that ECC should consider increases in council tax where these would protect services for the most vulnerable people.

But the majority also indicated that increases in council tax should not be taken lightly. This should be considered only where opportunities to secure efficiencies from streamlined services have been exhausted (63%), or where the alternative would be to stop delivering some services (64%).

Residents were fairly evenly split on whether ECC should increase council tax as an alternative to increasing fees and charges for those who use particular services – though business owners were less likely to agree with this option.

Only a minority of residents (24%) agreed that ECC should avoid council tax increases in all circumstances. This sentiment was most strongly felt by business owners / the self-employed.

ECC should consider increases in council tax... (% agree strongly / slightly)

# DEALING WITH FINANCIAL PRESSURES: COUNCIL TAX

Although participants were happy to accept council tax increases in certain circumstances, deeper discussion have revealed residents' appetite for:

- clear communications and transparency around the case for raising council tax and the use that will be made of the revenues. This was identified as fundamental to participants being comfortable with any tax increases;
- Locally-focused spending. Participants suggested that, if increased tax revenues were hypothecated or ring-fenced for specific local investments, then tax increases are more likely to be viewed favourably; and
- Green investment. Participants suggested that, to the extent that increased tax revenues were focused on 'green projects' designed to tackle the climate crisis, they are more likely to be supported by residents and taxpayers.

*"I don't want to know what you're doing with my money; I want to know what my money has done. What are you achieving with it? As a council taxpayer I want outcomes."*

*"Whatever decision they make about council tax and the way that they spend their money, the communication has got to be good."*

*"If we raised council tax by X percent and your parish council would get this much more money, would you be willing?" A surprising number will say yes.*

*"We're tiny; I can see that most of the money we pay in council tax doesn't go to our parish. I'd like to see more spent on schools and adult social care."*

*"There are little things the council can achieve to at least have green areas, have policies which allow as much recycling and repurposing of products or waste as possible."*

*"If a council is doing something with a community building, whereby they've got solar panels and they can bring electricity into the wider area or create money from selling it, that's a good thing for the community to have."*

## Essex County Council

## Flexible Use of Capital Receipts Strategy - Update

## Introduction

As part of the 2018/19 Local Government Settlement, government announced an extension to 2021/22 of flexibilities given to local authorities on increased freedoms over how capital receipts could be utilised.

The Council's Flexible Use of Capital Receipts Strategy was approved at Full Council in December 2020, taking the opportunity to finance up to £4.9m of expenditure on the replacement for the corporate finance and payroll system across 2020/21 and 2021/22 using capital receipts generated in the qualifying period.

## Review of Previous Years' use of the Flexibility

Investment initiative	Total scheme spend £m	2020/21 scheme spend £m	2021/22 scheme spend proposed for Flexible Use of Capital Receipts £m	Associated Revenue savings £m		
				2020/21	2021/22	2022/23
Corporate Systems Programme - Tranche 1	11.3	3.4	1.3			0.6

In 2020/21, there was £3.4m of qualifying expenditure on the Corporate Systems Programme. This was £200,000 lower than the expectation set out in budget papers at Full Council in February 2021. The proposal for a further £1.3m of qualifying expenditure in 2021/22 is still planned to be utilised, and capital receipts are ringfenced in the Useable Capital Receipts reserve for this purpose.

This expenditure supported design and implementation of the corporate IT system to Oracle Fusion Cloud, which went live in Autumn 2021.

It is still anticipated cashable savings of £600,000 will be achieved. Now that the system is live, a review of savings is underway, and an update on this will be included as part of the annual review of the Flexible Use of Capital Receipts Strategy. It should also be noted that a significant level of cost avoidance (circa £3m) has been enabled through implementation of this project.

## Strategy for ongoing use of Flexibility

The Council has no plans to continue the use of the flexibility past 2021/22.

<b>Report title:</b> Everyone's Essex Strategic performance measures Proposal for future reporting and scrutiny	
<b>Report to:</b> Corporate Policy and Scrutiny Committee	
<b>Report author:</b> Richard Puleston, Director; Chief Executive's Office	
<b>Date:</b> 27 January 2022	<b>For:</b> Discussion
<b>Enquiries to:</b> Suzanne Barcz, Head of Performance and Business Intelligence	
<b>County Divisions affected:</b> All Essex	

## **1. Purpose of Report**

- 1.1 This report outlines the proposed approach to ensuring that Corporate Scrutiny has suitable oversight of the Everyone's Essex performance framework.
- 1.2 It is anticipated that reporting will be focussed on the existing framework with summary data provided based on the Strategic and Contextual measures.

## **2. Background**

- 2.1 In October, Council agreed the performance framework as part of the Everyone's Essex strategic plan, this included:
  - contextual measures (high level, cross-function / systemic and outcome focussed) and
  - strategic measures (linked to our overarching measures, but more directly related to ECC activity and routinely available).
- 2.2 Prior to agreement at Council, Corporate scrutiny reviewed the strategy and the proposed performance framework. It was agreed that corporate scrutiny would have a role in the review of the council's progress against our ambitions for the County and its residents.

## **3. Recommendations**

- 3.1 It is recommended that Corporate Scrutiny agree the proposed approach and reporting format, to commence from Quarter Three.
- 3.2 It is recommended that Corporate Scrutiny note the proposal to align reporting with finance.

## **4. Summary**

- 4.1 Corporate scrutiny, alongside their oversight of finance have a role in reviewing progress on the council's performance against its priorities. There are some principles that underpin this, which include:
- Not duplicating the oversight of other scrutiny committees. Detailed review of actions and performance for function-related activities will be undertaken in the relevant committee.
  - Focussed on existing tools. Quarterly reporting to the committee is proposed to align with the cabinet member and CLT reporting timetable.
  - Provided at a cross-council level, organised around the aims of Everyone's Essex.
- 4.2 In addition, corporate scrutiny have requested the following, which can be accommodated
- Clarify the frequency of reporting for individual measures. This was provided to the committee following initial discussions and has been incorporated into the proposed template.
  - Use RAG ratings to flag status, and to focus the work of the committee. This has been incorporated into the proposed template.
- 4.3 To provide a meaningful and joined up approach to Scrutiny, it is proposed that the timetable is aligned to the reporting received by the committee on finance on a quarterly basis.
- 4.4 The data from the performance framework will also be published on the council's open data platform.

## **5. Next steps**

- 5.1 Subject to agreement by the committee, the Chief Executive's office will work with finance to align approaches and reporting can commence from Quarter 3 outturn.

## Work Programme

Reference Number: CPSC/03/22

<b>Report title:</b> Work Programme	
<b>Report to:</b> Corporate Policy and Scrutiny Committee	
<b>Report author:</b> Graham Hughes, Senior Democratic Services Officer	
<b>Date:</b> 27 January 2022	<b>For:</b> Discussion and identifying any follow-up scrutiny actions
<b>Enquiries to:</b> Graham Hughes, Senior Democratic Services Officer at graham.hughes@essex.gov.uk.	
<b>County Divisions affected:</b> Not applicable	

### 1. Introduction

- 1.1 The work programme is a standard agenda item. The work programme for the Committee continues to be developed and the current position is outlined below.

### 2. Action required

- 2.1 The Committee is asked to consider this report and issues under consideration in the Appendix and any further development or amendments.

### 3. Background

#### 3.1 Developing a work programme

Issues identified during induction sessions in summer 2021 and subsequent formal meetings continue to be incorporated into the work programme by the Chairman and Vice Chairmen.

- 3.2 The Scrutiny Board has agreed a new standardised template for scrutiny committee work programmes and this new format is reflected in the updated Work Programme in the Appendix.

- 3.3 Scrutiny Board are in the process of developing overarching scrutiny themes to reflect its priorities. These are likely to support the Essex County Council Corporate aims and objectives reflected in [Everyone's Essex: our plan for levelling up the county 2021 to 2025: Summary - Essex County Council](#) . Future iterations of the Work programme will indicate the relevant theme under which a scrutiny topic sits.

### 4. Update and Next Steps

See Appendix.

### 5. Appendix –

- Current Work Programme.

**Corporate Policy and Scrutiny - Work Programme – 27 January 2022**

<b>Provisional Date</b>	<b>Topic Title</b>	<b>Lead Contact</b>	<b>Purpose and Target Outcomes</b>	<b>Relevance to Scrutiny Theme *</b>	<b>Cross-Committee Work Identified (where applicable)</b>
27 January 2022	Finance and budget update	Cabinet Member Finance, Resources and Corporate Affairs/ Director Finance	To consider the third quarter financial outturn and to understand the challenges on the proposed budget.	Link to ability to deliver Everyone's Essex Strategy	Not applicable
27 January 2022	Everyone's Essex Strategy	Director, Policy and the Head of Performance and Business Intelligence	To consider proposed format for future updates to monitor progress.	Link to Scrutiny of the Everyone's Essex Strategy	To extend invite to other Scrutiny Chairmen
24 February 2022 - TBC	Reform agenda	The Leader and the Director, Policy	Aspirations and ambitions around devolution/localism and inter relationship with levelling up and other issues.	Link to ability to deliver Everyone's Essex Strategy	TBC
Early 2022	Corporate Investment Strategy/Corporate Economic Renewal Strategy	Cabinet Member Finance, Resources and Corporate Affairs/ Director Finance	To consider the further development of the Strategy	Link to ability to deliver Everyone's Essex Strategy	Not applicable

Early 2022	Commercial property/ investment portfolio update	Cabinet Member Finance, Resources and Corporate Affairs/ Head of Finance Commercial Insight	Review approach and performance. Role for Essex Homes, jobs in Essex, and investment in Essex.	Link to Scrutiny of the Everyone's Essex Strategy	Not applicable
Early 2022	New developments – section 106	Strategic Development Manager/ Infrastructure Funding Co-Ordinator	Information on the section 106 process and why some monies were not used or reallocated - particularly in relation to Health schemes.	Link to ability to deliver Everyone's Essex Strategy	TBC
Early 2022	Reserves and provisioning	Cabinet Member Finance, Resources and Corporate Affairs/ Director Finance	To review current policy and levels.	Link to ability to deliver Everyone's Essex Strategy	Not applicable
Early 2022	Climate change	Cabinet Member Finance, Resources and Corporate Affairs/ Director Finance	Financing the delivery of the Climate Commission report recommendations	Climate change	Not applicable
Early 2022	Ways of Working and Facilities update	Cabinet Member Finance, Resources and Corporate Affairs/ Executive Director, People and Transformation	How has Tranche 2 worked and what is the latest staff feedback.	Link to ability to deliver Everyone's Essex Strategy	Extend invite to Chairmen of other scrutiny committees

Early 2022	Corporate systems update	Cabinet Member Finance, Resources and Corporate Affairs/ Programme Director	Review implementation and issues that have been identified and ambitions for technology transformation and facilitating change.	Link to Scrutiny of the Everyone's Essex Strategy	Not applicable
Early 2022	Data analytics and artificial intelligence	Head of Profession: Analytics & Data Science	Understanding the collection and use of data analytics and artificial intelligence.	To support future scrutiny of Everyone's Essex Strategy	TBC
Early 2022	Essex Archive Services	Cabinet Member Devolution, Art, Heritage and Culture	Influence future approach on the delivery of services including use of digitalisation.	Link to Scrutiny of the Everyone's Essex Strategy	Not applicable

**Further issues not scoped or currently being scheduled  
(themes and issues highlighted during induction discussions with Cabinet Members)**

Essex Housing - ECC's strategies and plans, including environmental considerations.

Essex Outdoors - Increasing usage and making it more commercial. Could be led by another scrutiny committee.

Faith covenant - Role of ECC and the wider Equalities agenda

Levelling Up agenda – all member briefing held on 29 November 2021. Scrutiny committees may decide to scope follow-up work.

Planning process review - How Essex system works. Place and Economic Growth Policy and Scrutiny Committee may lead but may be cross-committee aspects.

Procurement - Percentage of procurement with Essex businesses, social value contracts, autonomy of service areas

<b>Report title:</b> Future Meeting Dates	
<b>Report to:</b> Corporate Policy and Scrutiny Committee	
<b>Report author:</b> Graham Hughes, Senior Democratic Services Officer	
<b>Date:</b> 27 January 2022	<b>For:</b> Consideration
<b>Enquiries to:</b> Graham Hughes, Senior Democratic Services Officer at graham.hughes@essex.gov.uk.	
<b>County Divisions affected:</b> Not applicable	

**Action required**

The Committee is invited to consider and agree the following committee meetings and/or activity days for the period May 2022 – April 2023.

Proposed Dates:

Thursday 26 May 2022  
 Thursday 23 June 2022  
 Thursday 28 July 2022  
 Thursday 22 September 2022  
 Thursday 27 October 2022  
 Thursday 24 November 2022  
 Thursday 15 December 2022  
 Thursday 26 January 2023  
 Thursday 23 February 2023  
 Thursday 23 March 2023  
 Thursday 27 April 2023

Members are requested to hold 9.30 – 15.30 in their diary for each of the above dates.
