

Liberal Democrat Amendment to Motion: Social Mobility and Social Justice

Moved by Councillor Kendall and seconded by Councillor Robinson.

Amendment with changes marked:

'This Council is committed to ensuring the best outcomes for people across Essex. As we work towards this for our residents, we will continue to focus on improving social mobility, increasing levels of aspiration and providing conditions for individuals to fulfil their potential and benefit from the growing economy and opportunities in our County.

To achieve this, we understand that hard working people who are just about managing should see the rewards of that hard work and therefore we will continue to adopt a focused and targeted approach.

To improve the opportunities for hard working people, we ask the Leader and the Cabinet to ~~work to~~ explain how they will provide the funding for:

1. Improve social mobility and social justice
2. Increase levels of aspiration
3. Provide conditions for individuals to fulfil their potential and benefit from the growing opportunities in our County.

We call on our partners in local authorities, law enforcement, health, education and business to join the Council in delivering positive and sustainable results.'

The amended motion would read:

'This Council is committed to ensuring the best outcomes for people across Essex. As we work towards this for our residents, we will continue to focus on improving social mobility, increasing levels of aspiration and providing conditions for individuals to fulfil their potential and benefit from the growing economy and opportunities in our County.

To achieve this, we understand that hard working people who are just about managing should see the rewards of that hard work and therefore we will continue to adopt a focused and targeted approach.

To improve the opportunities for hard working people, we ask the Leader and the Cabinet to explain how they will provide the funding for:

1. Improve social mobility and social justice
2. Increase levels of aspiration
3. Provide conditions for individuals to fulfil their potential and benefit from the growing opportunities in our County.

We call on our partners in local authorities, law enforcement, health, education and business to join the Council in delivering positive and sustainable results.'
