

Essex Climate Action Committee

Year Two Plan

Essex County Council

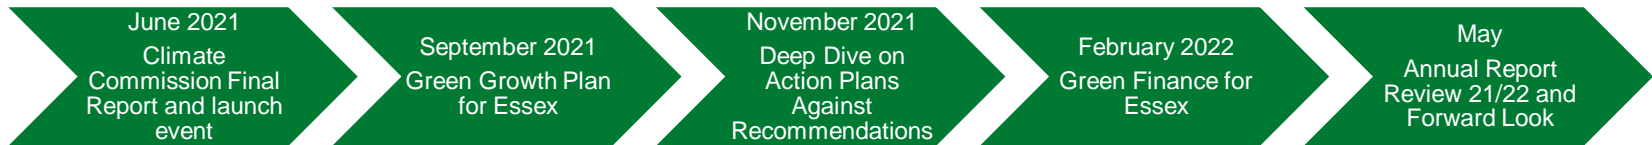

Terms of Reference Recap

- Year One: Identify ways in which ECC can mitigate the effects of climate change, improve air quality, reduce waste across Essex and increase the amount of green infrastructure and biodiversity in the county by drawing on in-house expertise, commissioning research and forming new external partnerships.
- Year Two: Explore how we attract investment in natural capital and low carbon growth. The Commission will be provided with regular updates on the status of the year one recommendations.

Meeting Frequency

- In the second year, the Commission will monitor the implementation of the recommendations in year one and provide further advice and guidance on an investment plan for Essex as it moves to a sustainable, net zero economy.
- The Commission will meet 9 times in the first year, timings to be agreed by the Commission. The Commission will then meet quarterly in the second year.

Year 2 Draft Work Plan

The Commission report is planned to be launched in June

Work Plan Year 2

- Sept 21: Green Growth Plan for Essex
- Nov 21: Deep Dive on Action Plans Against recommendations
- Feb 22: Green Finance for Essex
- May 22: Annual Report and Forward Look
