

Labour Group Amendment to Motion 2: Housing and Infrastructure Fund Bids

Moved by Councillor Davies and seconded by Councillor Reid

Amendment with changes marked:

2 Housing and Infrastructure Fund Bids

'This Council celebrates the news that three of its Housing and Infrastructure Fund bids (HIFs) to Government have been successful. This recognises the Council's great work in unlocking economic growth which in turn will provide jobs, homes, improvements to future transportation needs and the chance for existing and new families to prosper. However, this Council recognises with concern that there is a shortage of affordable housing, and additionally that no Starter Homes have been built anywhere in the UK since the programme was announced by the Government in 2014. Essex is a leading County in economic growth and we now call on the Government to join ECC in investing in our other growth corridors of the M11, the A127 and A13.'

The amended motion would read:

2 Housing and Infrastructure Fund Bids

'This Council celebrates the news that three of its Housing and Infrastructure Fund bids (HIFs) to Government have been successful. This recognises the Council's great work in unlocking economic growth which in turn will provide jobs, homes, improvements to future transportation needs and the chance for existing and new families to prosper. However, this Council recognises with concern that there is a shortage of affordable housing and additionally that no Starter Homes have been built anywhere in the UK since the programme was announced by the Government in 2014. Essex is a leading County in economic growth and we now call on the Government to join ECC in investing in our other growth corridors of the M11, the A127 and A13.'
