This includes an authorised limit for external debt of **£1,260m** for the 2023/24 financial year, which defines the maximum amount of external borrowing by the Council, and represents the statutory limit determined under section 3(1) of the Local Government Act 2003.
- ii. That the Treasury Management Strategy for 2023/24 be approved, comprising:
 - a. Borrowing strategy, as set out in Annex 3 of the Capital Strategy (Appendix A, Annex 3, page 81)

- i. Recommend that the Council adopts the Pay Policy Statement for 2023/24 as set out in Appendix C to report FP/306/02/22).

5. Agreed to note:

- i. The medium term (2024/25 to 2026/27) revenue issues facing the Council as set out in the report (Appendix A, page 19); at present there is not a balanced budget from 2024/25 and further action will be necessary to identify plans and savings to ensure financial sustainability. The position is based on the best intelligence available today in respect of future funding, price rises and demand. However, in the absence of a government funding settlement beyond 2023/24 and the inherent uncertainty in the macro-economy, where we continue to see high inflation, the financial outlook is volatile.
- ii. That the recommendations in this report present a balanced budget for 2023/24. The Council's plans for 2024/25 to 2026/27 are not sufficiently firm as to allow for a balanced budget to be set. Further opportunities for improving income and funding, plus greater efficiencies, will need to be secured in the medium term which will be achieved by a focus on prioritisation and outcomes-based commissioning and transformation.
- iii. That the council tax charge calculation is based on a Band D equivalent tax base of **550,992** properties (see Appendix A, page 30).
- iv. That the Capital Strategy, which is presented as Annex 3 in Appendix A, sets out the long-term context in which capital expenditure and treasury management investment decisions are made by the Council and gives due consideration to both risk and reward and impact on the achievement of priority outcomes. It comprises a number of distinct, but inter-related, elements as follows:
 - **Capital expenditure** – this provides an overview of the governance process for approval and monitoring of capital expenditure, including the Council's policies on capitalisation, and an overview of its capital expenditure and financing plans.
 - **Capital financing** requirement and borrowing – this provides a projection of the Council's capital financing requirement, how this will be funded and repaid, sets out the Council's borrowing strategy and explains how the Council will discharge its duty to make prudent revenue provision for the repayment of debt.
 - **Treasury management investments** – this explains the Council's approach to treasury management investment activities, including the criteria for determining how and where funds will be invested to ensure that the principal sums are safeguarded from loss and that sufficient liquidity is maintained to ensure that funds are available when needed.
 - **Other investments** – this provides an overview of the Council's intended approach to investment activities, including processes, due

diligence and defines the Council's risk appetite in respect of these, including proportionality in respect of overall resources.
