

Notice of Proposed Amendment

Motion to be amended: Pressures on Adult Social Care

Proposer of amendment: Cllr D Finch Seconder of Amendment: Cllr J Spence - Conservative

That the motion be amended so as to include the additional words underlined and the removal of the words struck out below:

This Council notes the ever increasing financial costs being placed on it by the demands on the social care system.

Council therefore notes the considerable work that has been and is being undertaken to increase social care budgets including:

- i) A letter from the Leader to the Chancellor of the Exchequer ahead of the Autumn Budget that highlights the need to ensure adequate funding for both Children's and Adult Social Care.
- ii) The launch of a joint campaign between Essex County Council and the County Council Network for a 'Fair Deal' that seeks to address the disparity in funding between local authorities to the detriment of Shire Counties, particularly in relation to London.

Following a meeting between Cllr Finch, Cllr Madden and Norman Lamb the Council will continue to support the call for a cross-party commission on the NHS and social care.

If this amendment is approved the substantive motion as amended would read as follows:

'This Council notes the ever increasing financial costs being placed on it by the demands on the social care system.

Council therefore notes the considerable work that has been and is being undertaken to increase social care budgets including:

- i) A letter from the Leader to the Chancellor of the Exchequer ahead of the Autumn Budget that highlights the need to ensure adequate funding for both Children's and Adult Social Care.
- ii) The launch of a joint campaign between Essex County Council and the County Council Network for a 'Fair Deal' that seeks to address the disparity in funding between local authorities to the detriment of Shire Counties, particularly in relation to London.
- iii) Following a meeting between Cllr Finch, Cllr Madden and Norman Lamb the Council will continue to support the call for a cross-party commission on the NHS and social care.
